Past the Horizon 1

D2771S55416-4735

Past the Horizon 1 is an evocative landscape that depicts a flowing stream as it meanders in between two low dunes and draws the viewer's gaze into a distant lake that stretches into the horizon. The minimalist scene with its vast cloud-grey backdrop is complemented by a simple color palette of clay red and moss green. The expanse of the lake, merging with the horizon, evokes feelings of infinity and the unknown, challenging the viewer to ponder what lies "past the horizon." A striking addition to ART by TA, Past the Horizon 1 is a pensive and quiet painted landscape on canvas.
