Installation components

2

Assemble Desktop Frame & Align Cabinet and Desk Legs

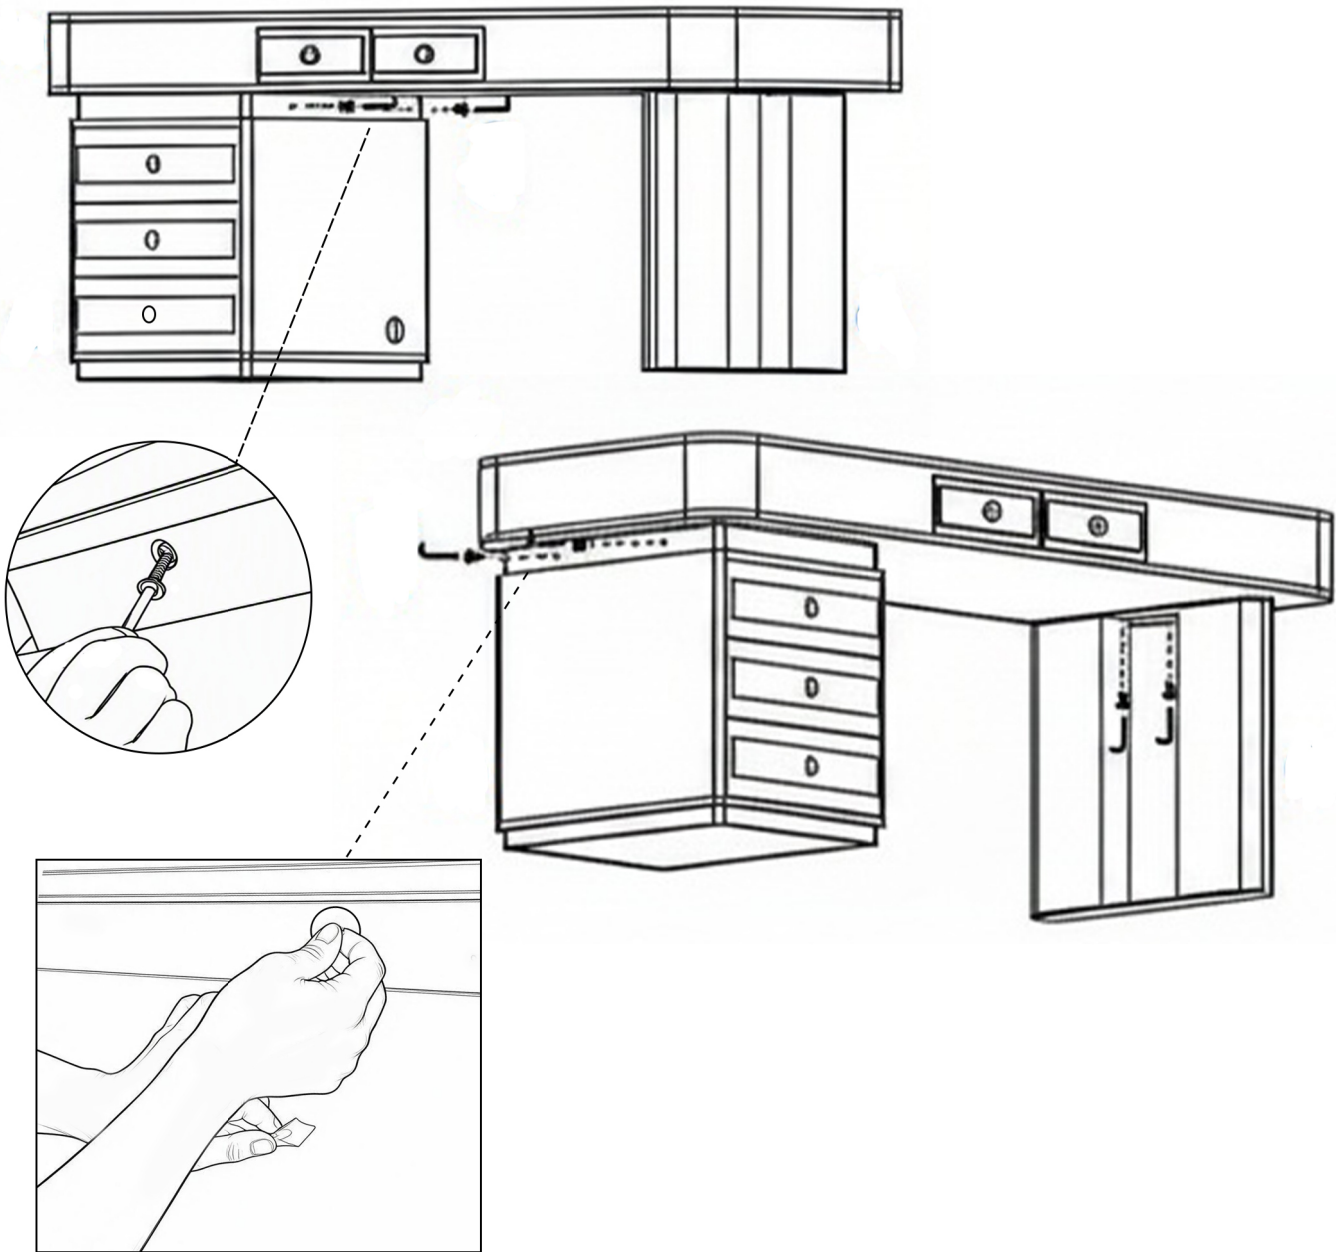

Step 1

1. Remove the detachable wooden frame from the top of the drawer cabinet.
2. Fix the wooden frame to the reserved threaded holes on the bottom of the desktop.

Step 2

SAFETY REMINDER: The desktop is heavy. Two people are required to lift and position it; do not install alone.

1. Lift the desktop with pre-installed wooden frame with another helper.
2. Snap the wooden frame into the matching slot on the top of the drawer cabinet.
3. Place desk legs on the other side of the desktop, align all threaded holes between desk legs and desktop perfectly.

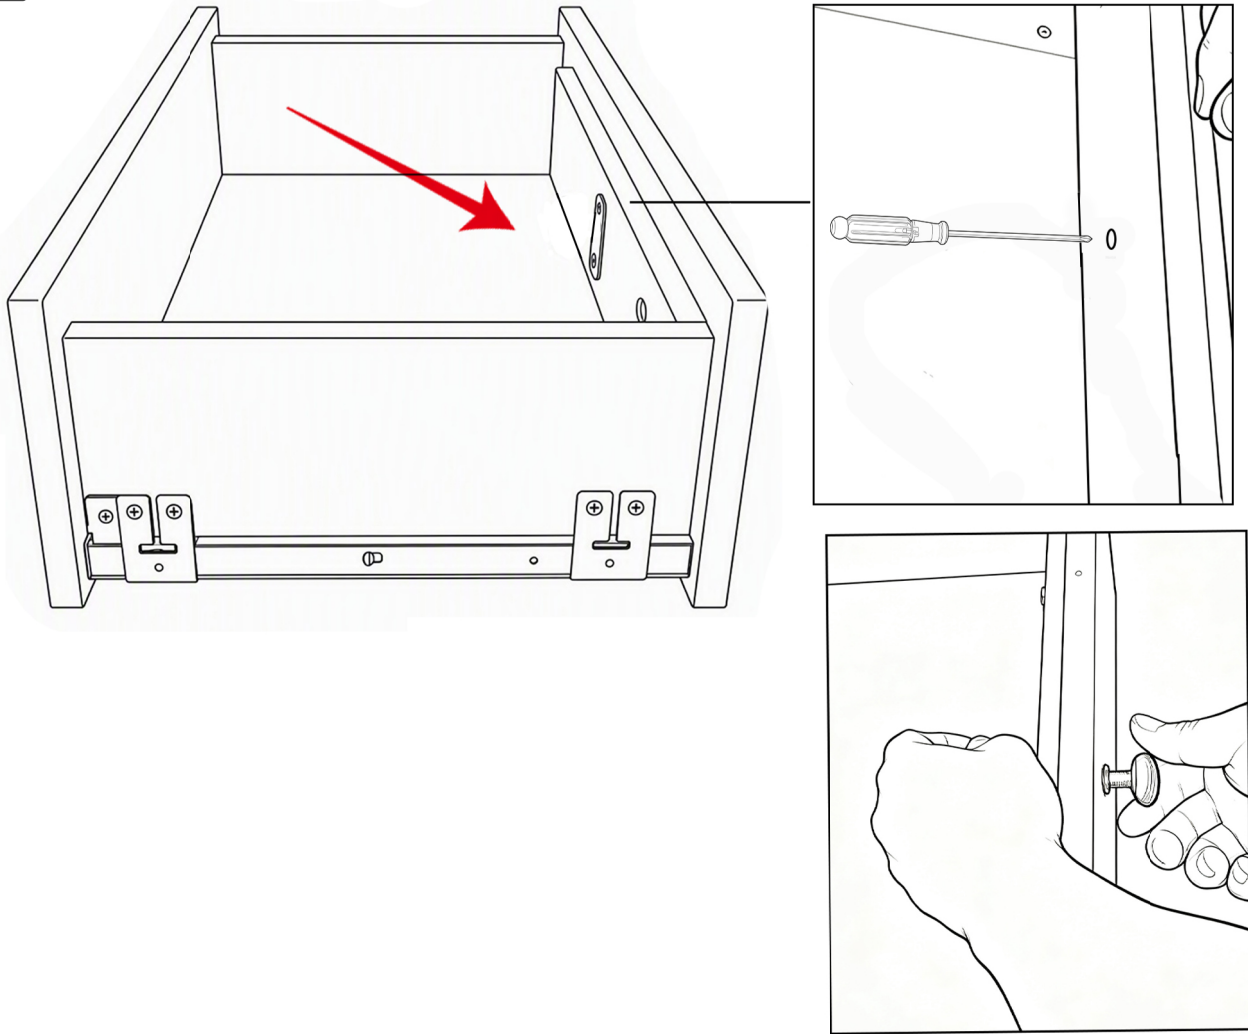

Fasten Screws for Cabinet & Desk Legs, Attach Decorative Stickers

1. Locate the reserved screw holes on inner side of desk legs, inner top of drawer cabinet and outer side of desktop.
2. Insert screws into each aligned hole and tighten fully with screwdrivers.

IMPORTANT WARNING: Tighten all screws evenly one by one to avoid uneven desktop surface.

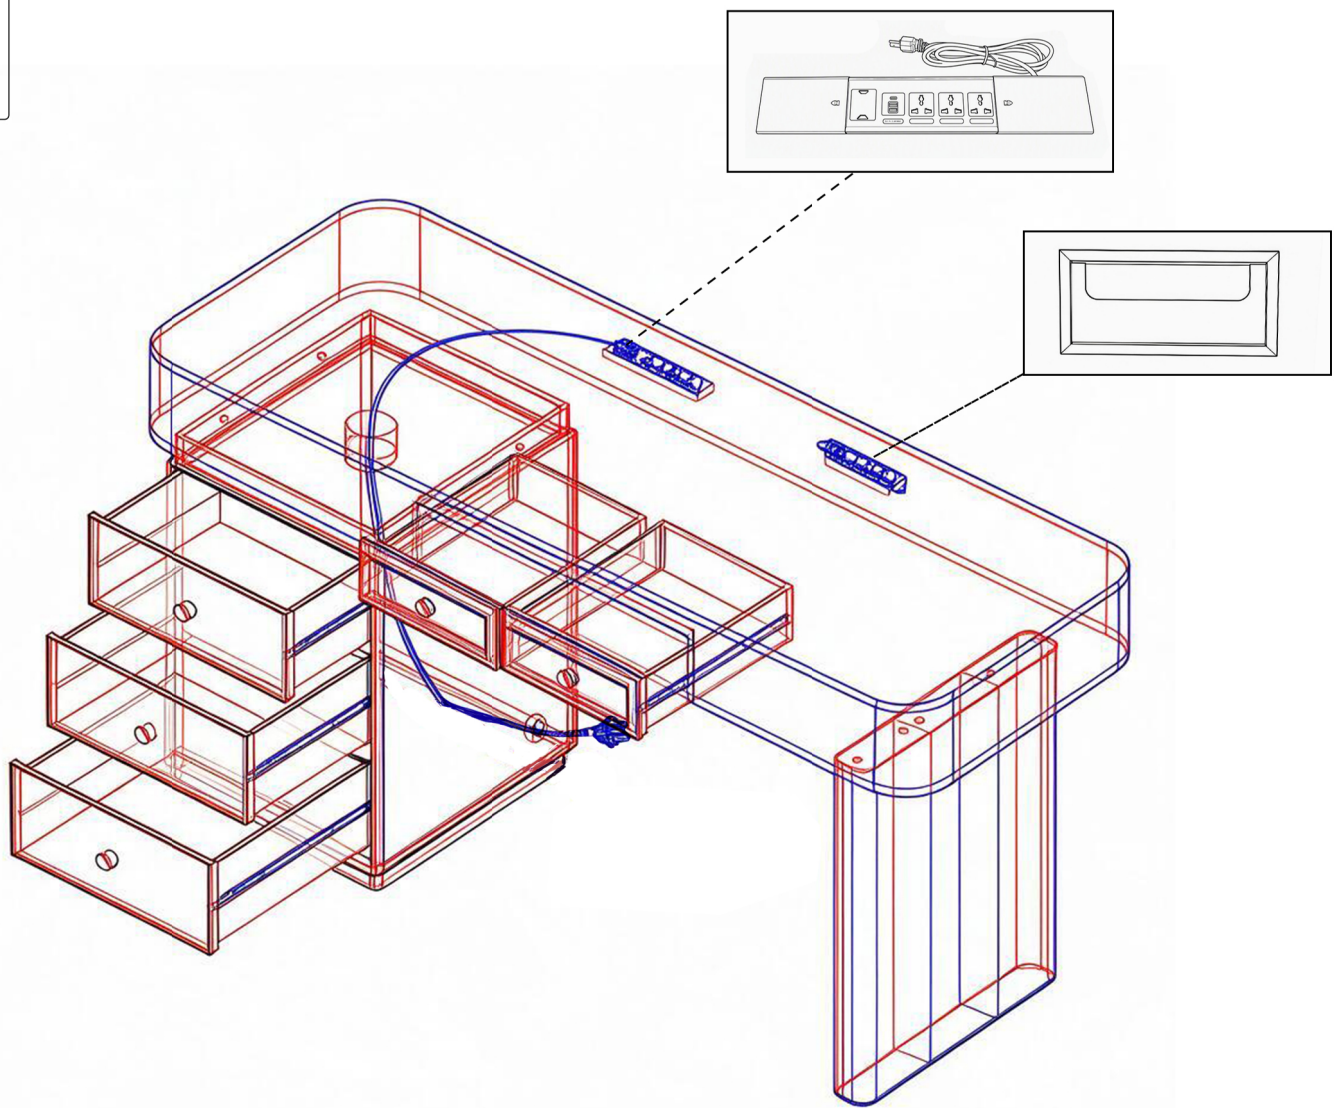

3. Paste the decorative cover stickers to all exposed outer screw holes to conceal metal fasteners.

4

Install Drawer Pull Handles

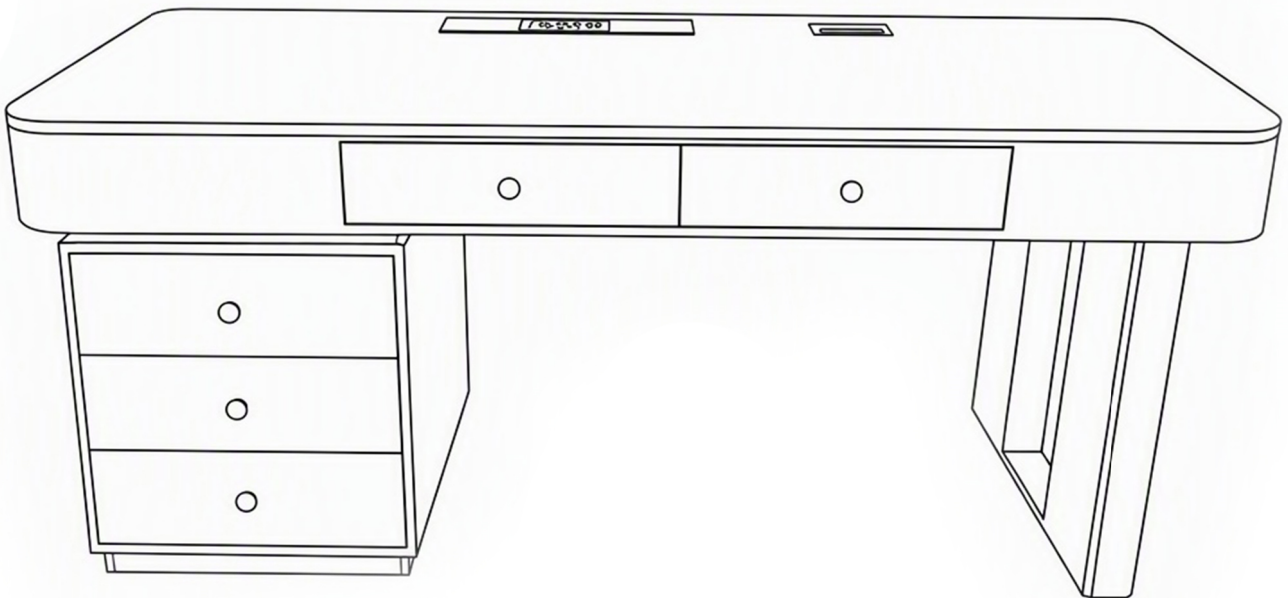

1. Pass the screw through the drawer panel from inside to outside.
2. Mount the pull handle on the outer surface of the drawer, then fasten the screw tightly.
3. Repeat the above steps for all drawer handles of the desk.

Install Power Strip & Desktop Cord Storage Box

1. Pull out all drawers of the drawer cabinet for wire routing operation.
2. Install the desktop power cord storage box into the reserved slot on the desktop.
3. Place the power strip on the designated position of desktop.
4. Thread the power cord through the opening of cord storage box, pass the wire through the hollow channel above the cabinet, and pull the wire out to the drawer space below exiting through the hole on the side.

Installation complete

1. Double-check all mounting screws on cabinet, desk legs and desktop to confirm every screw is fully tightened.
 2. Shake the desk gently from all sides to test stability. There must be no wobble or abnormal rattling noise.
- Assembly completed!**
