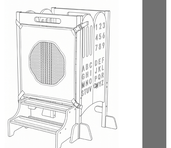
IHUESHO

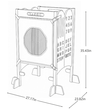


Toddler Learning Tower

User Manual

Thank You for Choosing IHUESHO! We are honored to support your child's independence. Before you begin, please ensure all parts listed are included in the box. If you have any questions or find any damage, contact us directly. Our **IHUESHO** team will provide a solution (replacement or assistance) within 24 hours.

Share Your Experience! If you and your little one love this product, please share your joy on the product page. Your feedback helps us the world to our brand! Wishing you the best, **The IHUESHO Team**



Manufacturing Warranty & Safety Guide

⚠ ATTENTION!

- **Adult Supervision Required:** Use the tower **ONLY** under active adult monitoring. Never leave a child unattended.
- **Heavy-Duty Capacity:** Engineered for strength, it can withstand a weight of 125 pounds while in use. Ensure your child is active standing with however, it is designed for child use only.
- **One Child at a Time:** Do not allow multiple children to climb or stand on the platform simultaneously to prevent tipping.

INSTALLATION & ASSEMBLY

- **Inventory Check:** Separate and count all parts before assembly. If any parts are missing, contact customer support.
- **Correct Installation:** Ensure all hardware is tightened securely. Incorrect assembly can lead to structural instability.
- **For Surface Only:** Always use the product on a flat, steady, and stable floor. Avoid rugs or mats that may warm the tower to slide.

WARNINGS

- **Environmental Hazards:** Do not place the tower near open flames, stoves, heaters, or windows with dangling blind cords.
- **Age Limit:** Recommended for children aged 18 months to 6 years.
- **No Exterior Climbing:** Ensure the child only uses the designated steps and platform. Do not allow climbing on the side rails.
- **Stop Use If Damaged:** Regularly check and re-tighten screws. Do not use if any part is broken or missing.

RECOMMENDATIONS

- **Safe Positioning:** We recommend placing the tower flush against a counter or solid surface for additional stability during use.
- **Static Use:** Never move or slide the tower while a child is standing on it.
- **Manufacturer Parts Only:** Use only accessories or spare parts approved by **IHUESHO**.

WHAT'S IN THE BOX?

Assembly Guide

A x 2 PCS
Main Frame Risers (Must be installed on the front/cloth side)

B x 4 PCS
Side Stabilizers (Anti-tip Support)

C x 1 PCS
Step Tray Front Set (Left & Right)

D x 2 PCS
Step Treads (The plates you step on)

F x 1 PC
Step Support Bar

G x 13 PCS **H x 13 PCS** **J x 4 PCS** **K x4PCS** **M = M6**
L x 5 PCS **L x 4 PCS** 4mm dia Straps (13 in). **Step Steel Clips** **Blackboard**

L x 1 PC
Main Frame (Includes Safety Cloth on the front & Blackboard on the back)

Installation Steps

Step 1: Assemble & Attach the Blackboard
First, install the 4 Screw Hangers (J) into the pre-drilled holes on the Blackboard (H). Then, hang the Blackboard (H) securely onto the assembled Blackboard onto the designated positions on the Main Frame (L).

Step 2: Prep the Hardware
Take the 4 Step Steel Clips (K) and press them into the top of the Main Frame (L) and keep them for Step 4.

Step 3: Unfold & Lock the Frame
Unfold the Main Frame (L) and the Side Stabilizers (B). Make sure the Safety Cloth (front) side is facing you. Fasten the Safety Latches on both sides, ensuring they click for maximum stability and to prevent collapse.

Step 4: Assemble the shock absorber pad
Place the Shock Absorber Pad (C) underneath the four corners of the standing board.

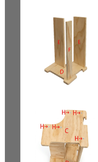
Step 5: Apply Anti-slip Strips to Platform
Apply 5 Anti-slip Strips (I) evenly across the top surface of the standing platform. Ensure the surface is clean and dry before applying for maximum grip.

Step 6: Lock the Platform
Secure the platform by either Foam Step 7 into the outer holes of the side panels to lock the platform securely.

Step 7: Install Side Stabilizers & Step Steel Clips
Take the 4 Side Stabilizers (B) and attach them to the outer sides of the front legs. Use Step Steel Clips (K) attach it (Set K) to the designated pre-drilled holes on the side frame using 4 Screws (H).

Step 8: Install Front Stabilizers
Secure the 2 Screws (G) to attach the stabilizers to the front legs (the side with the safety cloth).

⚠ IMPORTANT: These prevent forward tipping when the child is using the step stool.



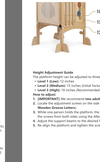
Step 9: Assemble the Step Stool
Using 4 Screws (H) and 4 Washers (C & D), insert the Support Bar (F and the two Step Treads (E) into the corresponding slots on the side panels.

Step 10: Fasten the Step Stool
Using Screw H (12 of 13), secure the step treads and support bar to the side panels for the pre-drilled holes on Part C & D.

Step 11: Apply Anti-slip Strips to Treads
Apply 2 Anti-slip Strips (I) to the top of each Step (E) Tread it strips. This provides extra traction for your child when climbing.

Step 12 : Attach Step Stool to Main Frame
Choose your preferred position (front or back) for the step stool and secure it to the main frame with the 2 Clips (K) on that side, and hook it securely into place.

Check: Press down gently on the step stool to ensure it is fully seated and locked into the 2 Clips before use.



Height Adjustment Guide
The platform height can be adjusted to three levels as your child grows:
- **Level 1 (Lowest):** 18 inches
- **Level 2 (Medium):** 15 inches (Initial Factory Setting)
- **Level 3 (Highest):** 12 inches (Recommended for younger/smaller toddlers)

How to adjust:
1. **(IMPORTANT!)** We recommend **two adults** perform this adjustment for safety.
2. Remove the 4 screws (2 screws on the side panels near the **lightening bears** and 2 **Wooden Screws Letters**).
3. While one person holds the platform, the other person should unscrew and remove the 2 screws on the side panels (Part C & D).
4. Adjust the support beams to the desired height holes (12", 15", or 18").
5. Re-align the platform and tighten the screws securely.

Q: Is there an installation video demonstration?

A: Yes! We have uploaded a step-by-step assembly video on the product detail page (within the main image and video section) to help you set up your learning tower with ease.

Q: What should I do if the product is missing parts or arrived with damaged accessories?

A: Please don't worry! You can contact us directly via Amazon Message Center (go to "Your Orders" and click "Contact Seller"). Our customer service team will provide a replacement or a satisfactory solution within 24 hours.

Q: Why do the screws feel tight or difficult to align during assembly?

A: Please ensure you are using the correct screws for each component—especially the Step Treads (E) and Side Panels (C & D)—and a phillips. This allows for easier alignment before the final tightening.

IHUESHO

Dedicated to creating meaningful moments for families and little ones. Thank you for choosing our products for every family.
