2. Brightness down / Speed down	
3. ON. (Press and hold ON button for 3 seconds can reset the light.)	
4. OFF	
5. Static colors.	
6. Dynamic light effects: JUMP3/JUMP7/FADE3/FADE7	
7. Music Sync.	

Install APP and Log in

Install APP on your phone

You can either log in by Email verification code or by password.

- (1) New user or forgotten password please select verification code to log in, then set the password on APP setting page.
- (2) Once you set password, you can use password to log in.

The image shows a login screen with a blue background. At the top, there are two tabs: "Verification Code" (which is selected with a white underline) and "Password". Below the tabs, there is a light blue input field for "Email" with a person icon on the left. Below that is another light blue input field for "Verification Code" with a lock icon on the left. To the right of the "Verification Code" field is a "Send" button. At the bottom, there is a white "Sign in" button. A small note at the bottom left reads: "* New user or forgotten password, please select verification code to log in".

The image shows a login screen with a blue background. At the top, there are two tabs: "Verification Code" and "Password" (which is selected with a white underline). Below the tabs, there is a light blue input field for "Email" with a person icon on the left. Below that is another light blue input field for "Password" with a lock icon on the left and an eye icon on the right to toggle visibility. At the bottom, there is a white "Sign in" button. A small note at the bottom left reads: "* New user or forgotten password, please select verification code to log in".

Set Account Password

You can set up your account password on APP setting page. Then you can use password to log in and to link third-party services.

Turn on phone Wi-Fi and Bluetooth

Turn on bluetooth and Wi-Fi on your smart phone and connect phone to 2.4GHz Wi-Fi. (After config device online, you can switch phone to other Wi-Fi)

Note:
5GHz Wi-Fi is not supported.

Reset Device

Once a device is configed online, it must be reset before it can be configed by another account.

Two methods to reset device:

Method 1: Power on the device, then hold the "ON" button on remote until the lights start flashing.

Method 2: Plug in and then plug out power supply for at least three times, till the lights flash.

Add Device and Config online

Click "Go to search" to search nearby devices.

Click "Add", then the device will be added to your device list.

Go on to connect device to WiFi on device info page.

Wait for connecting. After the connection is complete, click "OK".

Device detail information.

Setting Wi-Fi

remove device

Link third-party services.

Method 1: Bind voice assistants on APP(Recommended)

- (1) Go to APP setting page and click voice assistants tab to call LINK page.
- (2) Then just click LINK on the link page.
- (3) Wait a second. Done. You can find device on APP.

Note: Ensure the device is WiFi-connected and APP already logged in, before you link to voice assistants.

Main User Interface

1. Device status information.

2. Dimmer: Change the color, adjust brightness.

Trouble Shooting

a) APP can not find the device.

Make sure the phone bluetooth is on.

Allow the permissions of APP. APP needs them to connect. Check the light is on.

Kill APP, turn off bluetooth and turn on bluetooth again, then start APP to add device again.

Ensure phone within 4ft from product when connecting.

Your phone may be incompatible with the APP, try another phone.

b) Failed to connect to Wi-Fi.

Check Wi-Fi supports 2.4GHz. Not 5GHz.

Reset device by power on and off 3 or 4 times until light flash. Bring device close to Wi-Fi router to improve signal.

Add device and connect it to Wi-Fi again.

c) Device not shown on voice assistants APP.

Remove device from APP and add again.

Unlink voice assistants, and Link voice assistants again.

d) All lights don't work.

- Check power is on.
- Press ON and press "brightness up" multi times on remote.
- Connect APP and turn on light and turn up brightness.
- Reinstall all parts.

e) Some light beads keep off or fail working.

- Contact our support team.

Attention

- Use the product with provided adapter and control box only.
- Do NOT extend more strip to avoid overload which is unsafe.
- Do NOT bend strip otherwise beads and parts may damage.
- Please turn off the power and unplug the adapter when the strip light will not be used for a long time.

After-sale & Warranty

Please contact us if you get a defective product.
We will reply to you within 24 hours.

All products come with a limited warranty of 12 months
from the date of purchase.

We will do our best to help you resolve any problems you
might have about our products until you are satisfied. We
appreciate your support and cooperation.
