Vanity Light
INSTALLATION SHEET

NOTE :

*Make sure the power is completely turned OFF at the circuit breaker before installation.
*This fixture must be properly grounded.
*Risk of electric shock. Turn off power before installation.
*Risk of Fire - Do not install bulbs exceeding the maximum wattage rating of 60W.
*Suitable for damp locations. Do not expose directly to water spray.
*Have your fixture installed by a qualified licensed electrician.
*Prepare everything in a clear work area.
*Wear gloves at all times during installation.
*Read instructions carefully before starting assembly.
*Keep this installation sheet for future reference.

INSTALLATION STEPS：

1.Remove the fixture from its original package.
2.Separate the mounting bracket from the fixture body by removing the fixture screws.
3.Attach the mounting bracket to the electrical junction box using the screws provided in the hardware package.
4.Secure the mounting bracket to the mounting surface using the additional screws provided.
5.Make proper electrical connections:Black wire to hot (L), white wire to neutral (N), and green/bare wire to ground (GND) using the wire nuts provided in the hardware package
6.Attach the fixture body to the mounting bracket and secure it with the provided screws
7.Attach the glass shade to the lamp holder using the holder ring.
8.Install bulbs (E26 Max 60W A-Type bulbs, bulbs not included).
9.Note: The lamp holder may become slightly misaligned during transportation. If needed, gently adjust it back to the correct position with a small amount of force.
