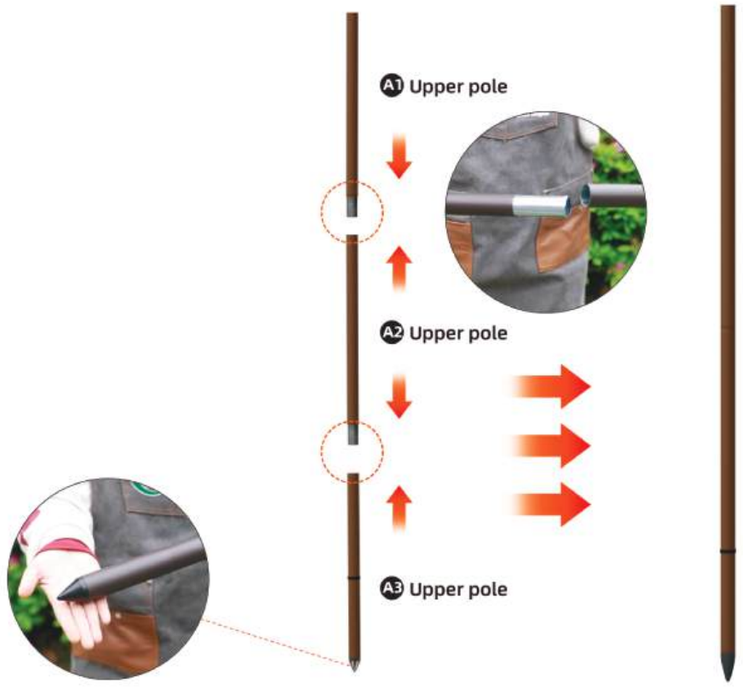
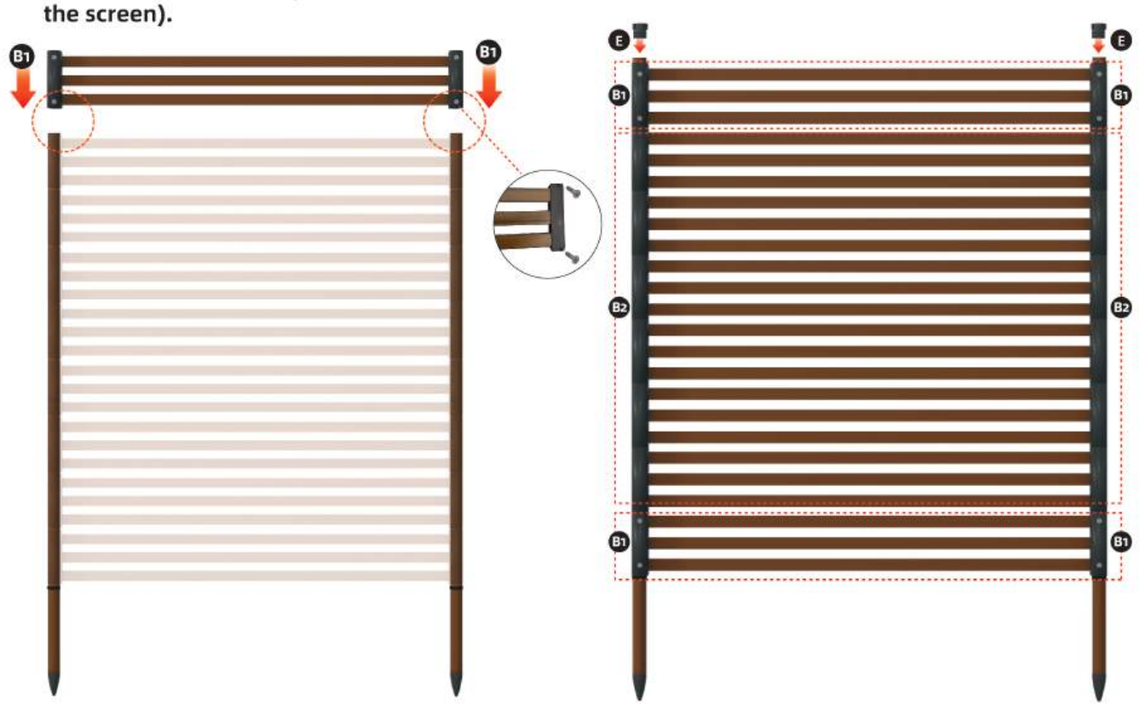
90*120cm/36*48" *3	60cm*6pcs	/	64cm*6pcs	6pcs	12pcs	6pcs	6pcs	6pcs	/	/	/	24pcs
120*180cm/48*81"	90cm*2pcs	/	94cm*2pcs	2pcs	8pcs	2pcs	2pcs	2pcs	2pcs	4pcs	2pcs	8pcs

Assembly step : When assemble at the soil 36*59" (90*150cm)

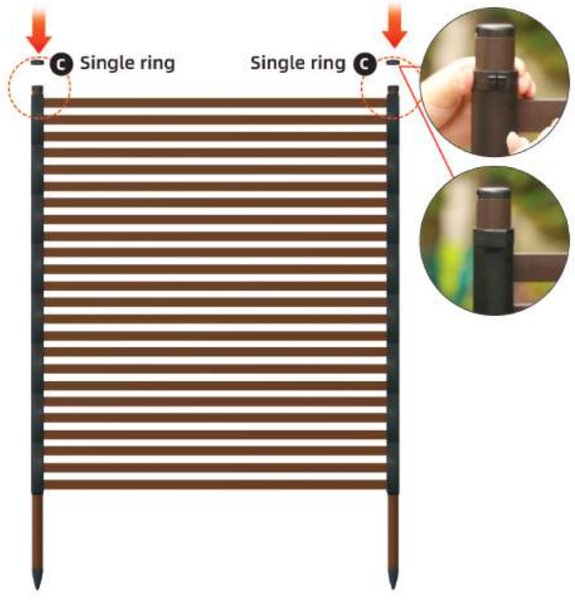
❶ Combine A1, A2, and A3 together to form A (the side pole of the screen). (The above steps require installing two)

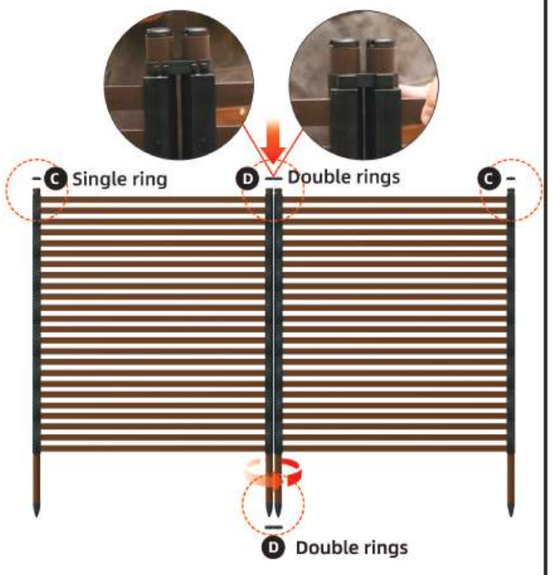


❷ Install B1、B2 into the two assembled side rods (please ensure that the rubber ring on A3 isabout 30cm away from the tip of the rod before installation, Used to insert into soil ormetal base to fix the screen).



❸ Fix C at the top of both ends of the screen (if you want to connect multiple sets of screen together, use D at the connection of the two screens).



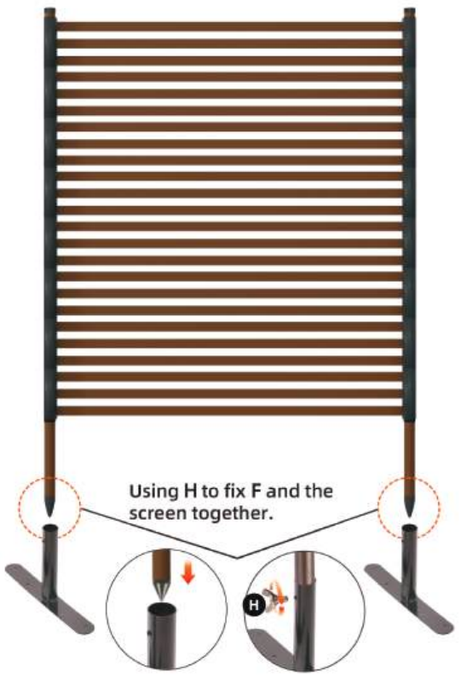


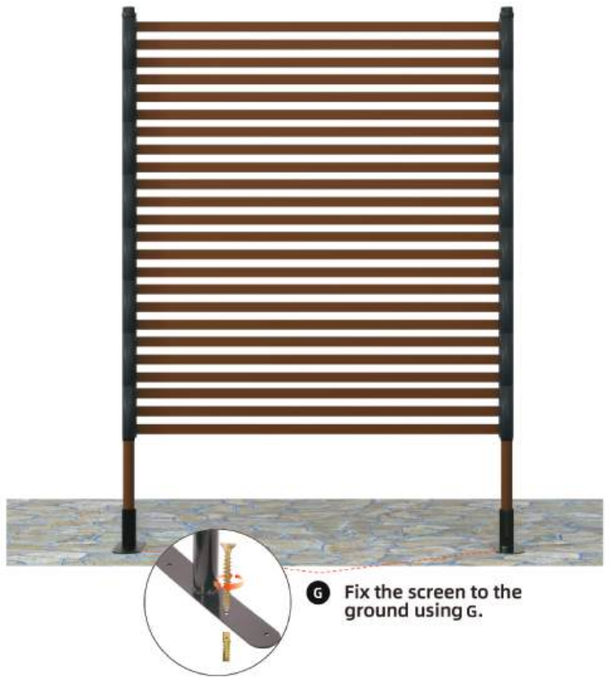
You can change the direction of the screen according to your own needs.

❹ Make a hole in the installation location in advance to ensure that the screen can be inserted approximately 30 cm.

Installation method: When assembling on the ground

❺ If you want to fix the screen on the ground, you can use E to fix the screen.





❻ After assembling all the steps, you have a screen that can block privacy!

〈Attention〉

- For safety, wear gloves when installing
- The device must be inserted into the ground 20-30 centimeters
- Please avoid climbing of Children
- Resist bad weather such as strong wind, please use auxiliary support
