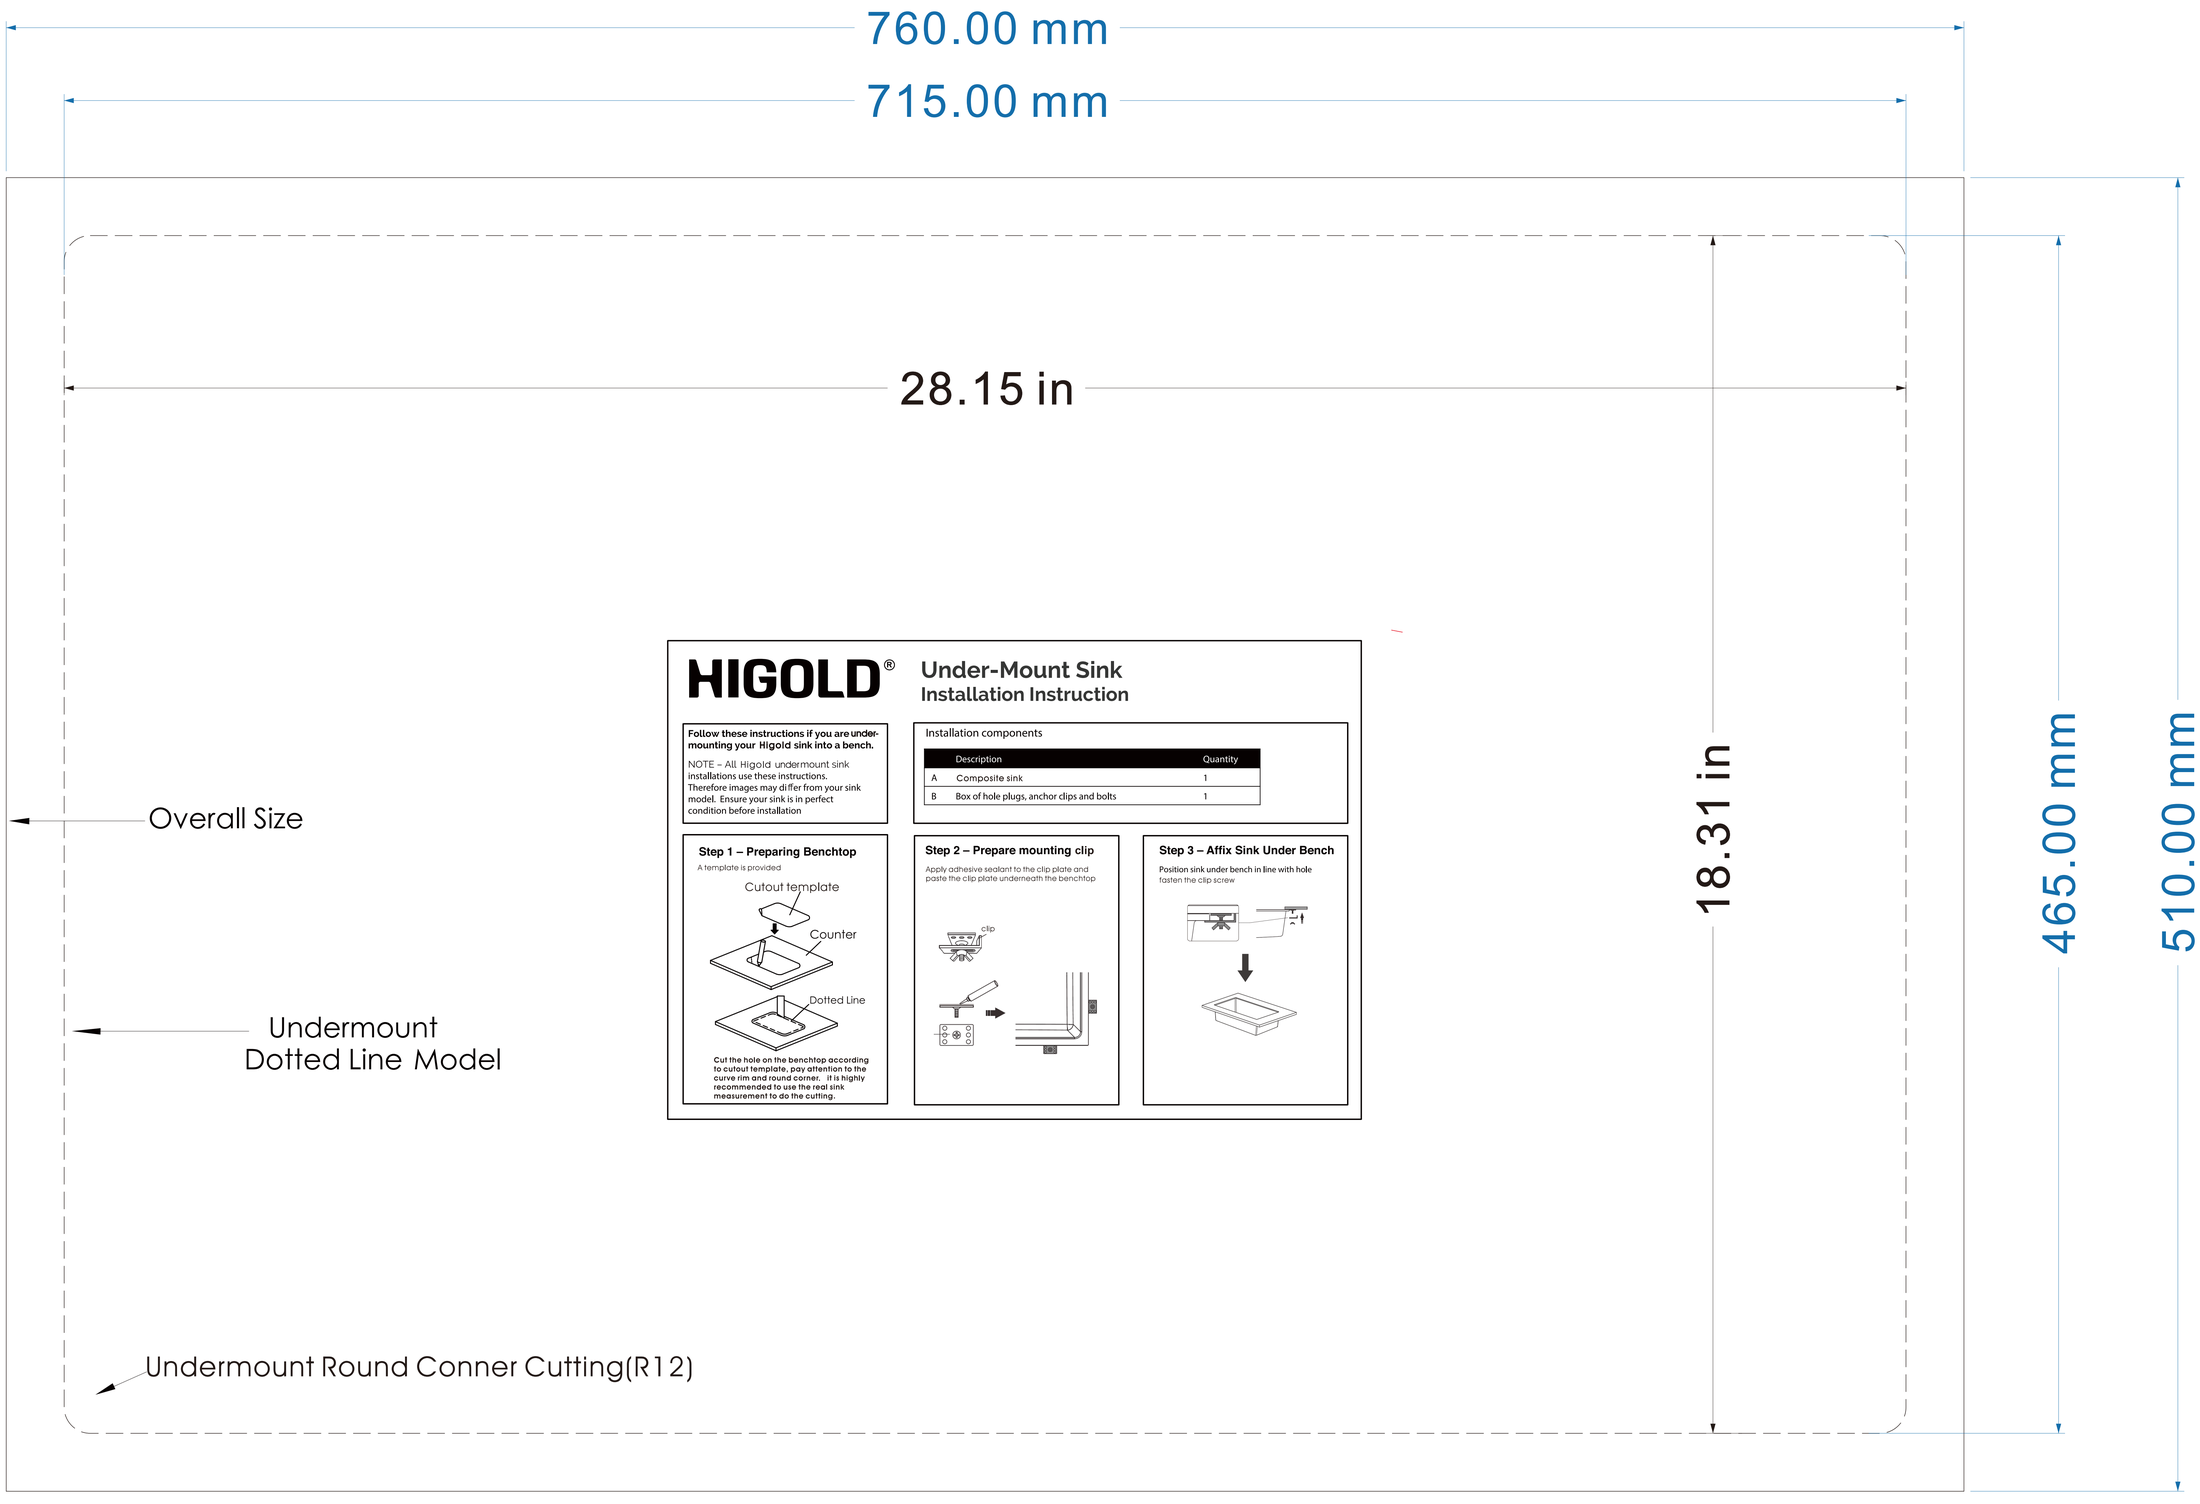
Orifice plates & Installation instructions

For 30 inch Quartz Single Sink (935022)



HIGOLD®

Under-Mount Sink
Installation Instruction

Follow these instructions if you are under-mounting your Higold sink into a bench.

NOTE – All Higold undermount sink installations use these instructions. Therefore images may differ from your sink model. Ensure your sink is in perfect condition before installation

Installation components

	Description	Quantity
A	Composite sink	1
B	Box of hole plugs, anchor clips and bolts	1

Step 1 – Preparing Benchtop

A template is provided

Cutout template

Counter

Dotted Line

Cut the hole on the benchtop according to cutout template, pay attention to the curve rim and round corner. It is highly recommended to use the real sink measurement to do the cutting.

Step 2 – Prepare mounting clip

Apply adhesive sealant to the clip plate and paste the clip plate underneath the benchtop

clip

Step 3 – Affix Sink Under Bench

Position sink under bench in line with hole

fasten the clip screw
