ANTI-TIPPING INSTALLMENT INSTRUCTIONS

FURNITURE TIPPING RESTRAINT

WARNING

Injury may result from tipping furniture.

This restraint may protect against tipping furniture.

Do not allow children to climb on furniture.

This restraint is not a substitute for proper adult supervision.

Failure to detach this restraint before moving the furniture may result in injury and damage.

1. Attach one of the mounting brackets securely to the back edge of the furniture. Use the short screw.
2. Determine where the furniture is to be placed and mark location on the wall for the mounting bracket screw hole approximately 2" below the bracket mounted to the edge of the furniture.
3. Drill a 3/16" hole in the wall. Press the plastic wall plug into the hole and gently tap until the flange on the wall plug is against the wall surface.
4. Position the bracket over the wall plug and use the long screw to securely attach the bracket to the wall.
5. Place the furniture so the bracket on the back edge is in line with the bracket on the wall.
6. Lace an end of the cable tie down through each bracket. Bring both ends together and slide the beaded end of the cable tie through the keyhole shaped slot on the other end until snug. Pull down on the beaded end until it snap locks into the keyhole slot.
7. To double lock return the beaded end back through the keyhole as shown.
8. Check to make sure the cable tie is securely laced and locked to the brackets.
