# HOW TO HANG YOUR MIRROR!!

## Included On The Back Of Your Mirror:

4 cleats (pre-installed for hanging both vertically & horizontally)

2 extra cleats (packaged with wall anchors and screws)

## Tools needed for installation:

Drill
Phillips Bit
3/16” Drill Bit
Level
Hammer
Tape Measure

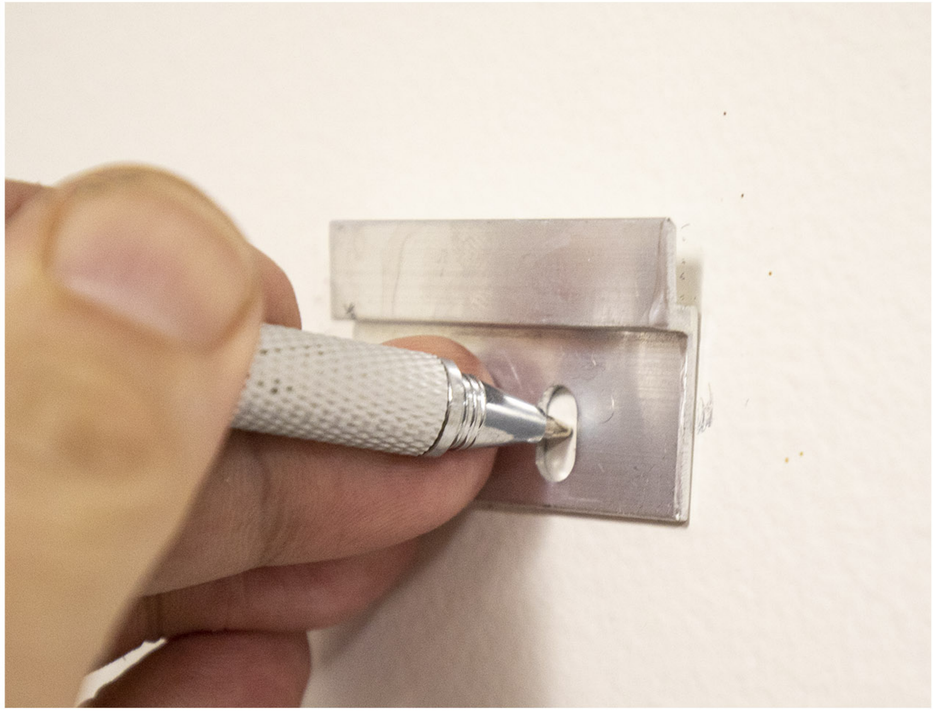
*Step 1: Remove the packaged hardware from the back of the mirror.*

*Step 2: Locate where you would like to hang your mirror and mark your center starting point.*

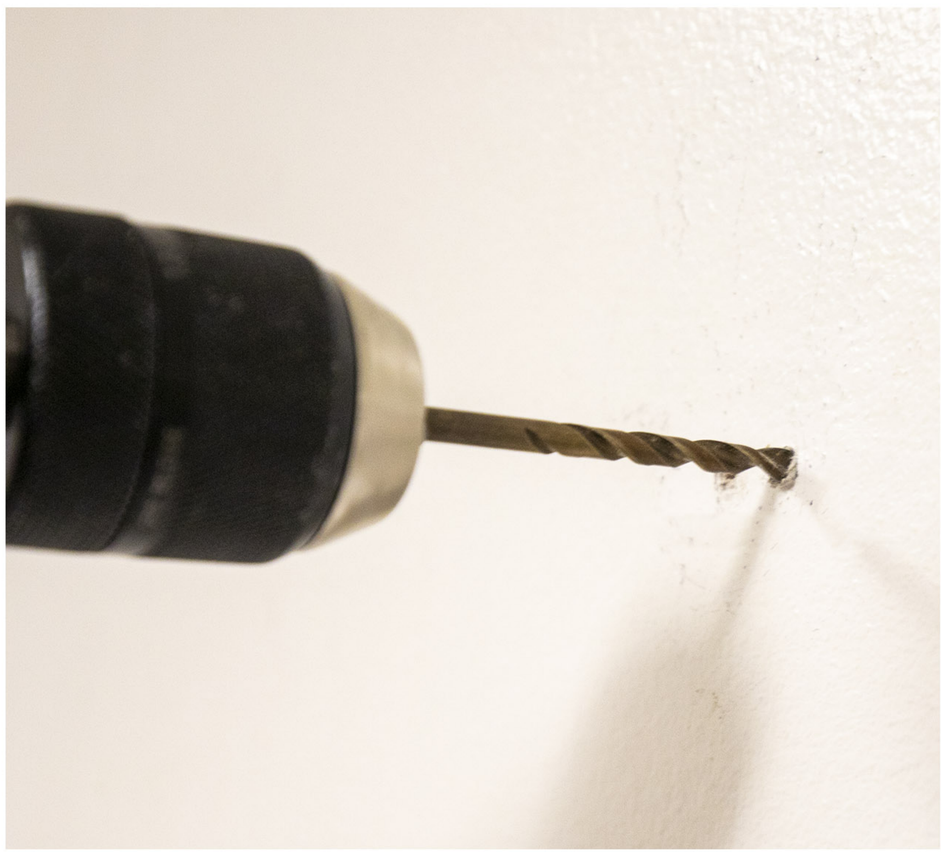
*Step 3: Decide if you want to hang Vertically or Horizontally and measure the distance between the outside edges of the pre-mounted cleats.*

*Step 4: Divide the measurement between the outside of the cleats by half and mark that measurement from the center point you marked from step 2. (repeat for both sides)*

*Step 5: Place the outside edge of a cleat next to mark you made in step 4 and mark the center of the two holes.*



*Step 6: Using a level, be sure your marks are in a straight line.*



*Step 7: Using a drill and 3/16" bit, drill holes where you marked in step 5.*

*Step 8: Use a hammer and gently tap the anchors into the holes you drilled.*

*Step 9: Using a drill with a phillips head bit and the screws provided, fasten the cleat to the wall. (repeat for the other side)*

*Your mirror is ready to hang!*

*Lift your mirror so the cleats are slightly above the ones on the wall and set it down.*

*Your Installation Is Complete!*
