INSTALLATION STEPS

1. Assemble the lampshade and the bulb socket by the retaining ring, then screw the light bulb.
2. Drill 2 or 3 holes in where you going to hang the light fixture according to the size of the drywall anchors.
3. Insert the anchors and then screw the hanging hooks tightly.
4. Use the plastic hooks to hold the hanging cord according to the hanging height, and then hang the lamp onto the hooks.
5. Plug into the wall outlet.

Notice: It's simple to install, but you need a drill. So, you may need a professional electrician to help you out.

QUESTION & ANSWER

Q: My lamp doesn't work, what can I do?

1. Please check whether the lamp is really powered on and the switch is on.
2. Please make sure the bulb is working well.
3. Please check whether the copper pieces inside the bulb socket contact well with the bulb.

None of these 3 steps? Just feel free to contact us for a replacement.
