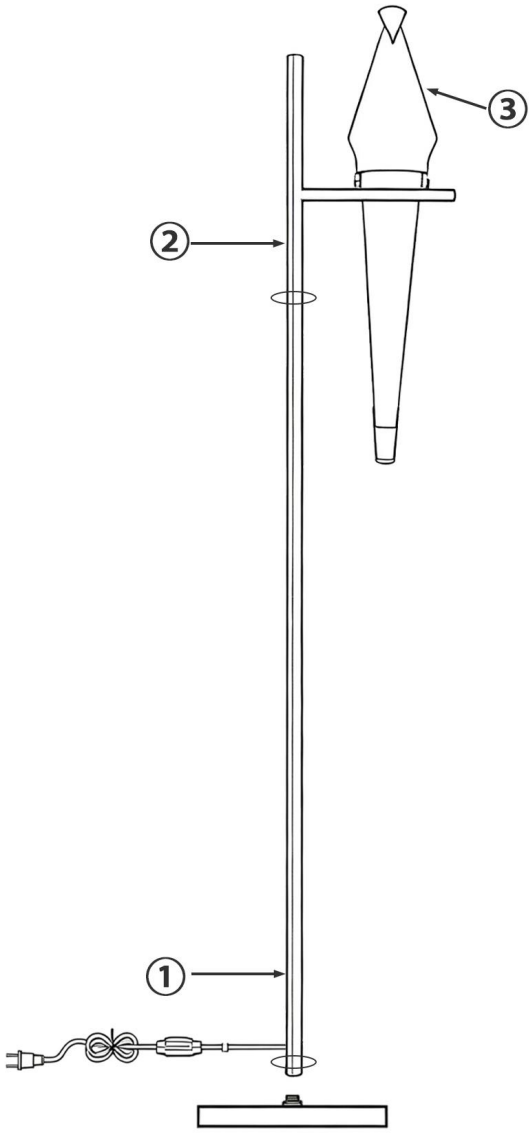
# Installation Instructions



**Please follow the steps ①②③ in the diagram to carry out the installation.**

**① Assemble the lamp post, attach it to the base**

**② Fit the lampshade and secure it in place**

**③ Screw in the bulb, installation complete**

Important Notes

1. Disconnect the power supply before installation.
2. Use only light bulbs within the rated power range.
3. Do not modify the wiring yourself.
4. Place on a level surface to prevent it from tipping over.
5. Do not wipe with corrosive chemicals.
