

# LA PAVONI

## GOLD OR CHROME LEVER MACHINES

Since 1905 craftsmen have built each machine by hand using only the finest materials. Superbly polished chrome or brass finishes accent the highly efficient design which dates back to 1961. la Pavoni has set a standard for quality and style only found in old world cafes, now available for home use. Enjoy the world class espresso machine built in Italy, the home of espresso coffee.

Each machine is designed to last years and give consistently perfect espresso with each pull of the lever. Design features incorporate the best of modern technology such as nickel plated non-corrosive brass boilers, long life stainless elements and reset safety fuses. All are triple plated to maintain years of beauty and tested to meet the standard that has kept la Pavoni the premier name in the industry. Each unit is United States ETL safety listed. Plated base models include both a standard frothing arm and our new "Cappuccino Automatic" frother. Demonstration DVD included.
