Assembly Steps

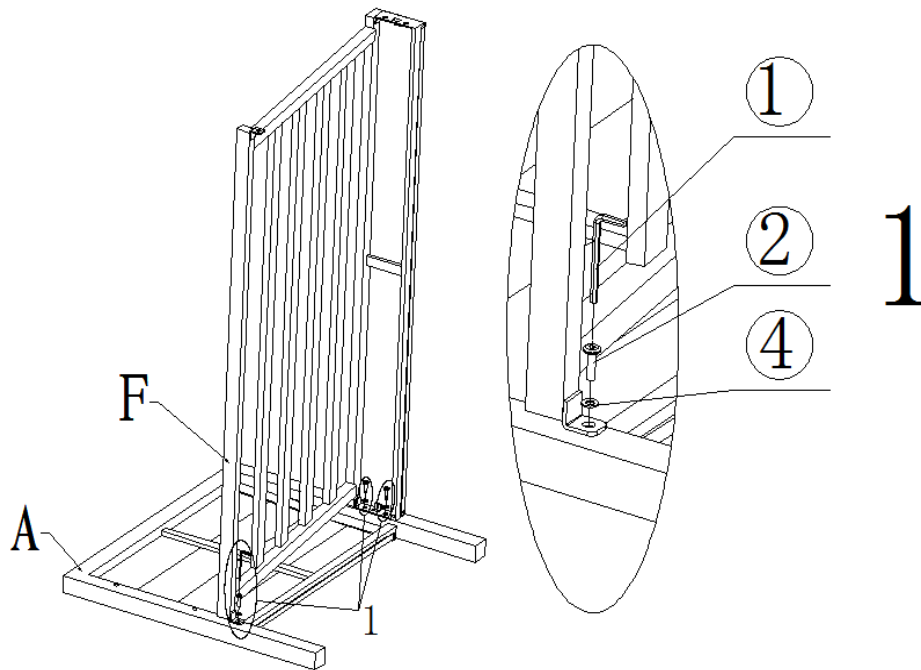

Overview

This Table has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

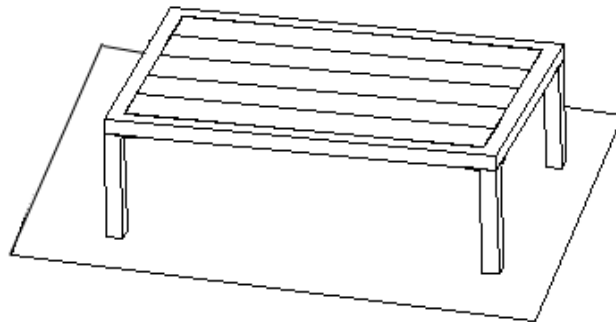

Open the carton and place all the parts onto a clean, non-marring surface.

Place the Table Top(I) facedown on as pictured.

Attach Leg(J) to Table Top(I) using Bolts(2) and Washers(3) with Allen Key(1). **Repeat the same process with the remaining three Legs(J).**

Do not fully tighten the Bolts.

Stand the Table right way up. Place the Table on a **LEVEL SURFACE** to check for wobbles.

If it wobbles, lift the Table some 20cm to 30cm high from the ground.

Keep your feet and toes well away from the drop zone.

Drop the table freely and vertically with all four legs, hitting the ground, at the same time.

This Drop Test will help to ensure that all Bolts and gaps reach full alignment status.

Test again for evenness on a **LEVEL SURFACE**.

If no wobbles are found, slowly and carefully, turn the Table facedown.

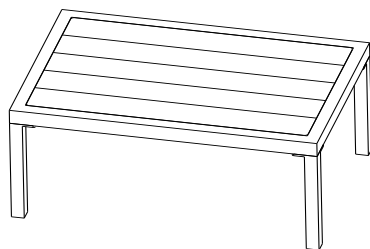

Then, proceed to tighten all Bolts in a sequential manner.

When tightening the Bolts, tighten sequentially.

DO NOT tighten any Bolt fully and then move on towards the next one.

If there are still wobbles, loosen the Bolts and execute the same drop test.

Step 3

Your Table is ready for use.

This Table can only be used on a flat, level surface.
