

Dressing Table

Installation Steps

PREPARE TOOLS

Unpack the package and sort all panels, parts and hardware (tabletop, left & right table legs, 16 screws, 2 mirror support bars, 4 drawers, mirror).

STEP 1

Place the table top upside down and install the left and right legs.

Align the mounting holes for left and right legs (holes are inside the drawer compartment), then secure with screws.

STEP 2

Flip the table upright and install the drawers.

Align the drawer slides, slide drawers smoothly into the cabinet and test the movement.

STEP 3

Fasten the mirror support bars to the table.

Take out the mirror support bars, align them with the holes on the rear side of the tabletop, and tighten with screws.

STEP 4

Secure the mirror to the table.

Take out the mirror, place it on the tabletop, align the holes with the mirror supports, and secure tightly with screws.
