Product parameters

Parameter	
Model No:	TB-281
Solar panel:	Φ149.5 glass laminate, monocrystalline silicon 6V/1.8W
Battery:	18650 lithium battery 3.7V/1200mAh
Material:	ABS
Charging time:	5-6 Hours
Working time:	8-9 Hours
IP Grade:	IP54
Working mode:	Light control,adjustable luminous angle
Light source:	SMD2835 6PCS single color
Watts:	1.8W

Rotatable Round Solar Wall Sconce Instruction

Packing List

Diameter:153mm

Lamp height:61mm

Six Beam Wall Lamp

- Solar light*1
- Mounting plate*1
- Wood screws*3
- Plastic expansion tube*3

Please charge in the sun for 4 hours before using for the first time.

Instalation Instructlon

1. Use positioning paper to mark the position where holes need to be punched.

2. Punch the mark with a drill bit.

3. Align the holes in the back plate with the holes and torque the screws.

4. Then align the holes on the back of the light body with the backplate and clamp to complete the installation.

The Point to use &install

1. Please confirm the light in good condition before you use, then rock the lamp and check whether it has unfixed fitting because of rush delivery.
2. The light will work in darkness.Please use heavy light-tight thing to cover solar panpel completely,keep the switch open. If the lamp work,then do furtherinstalment.
3. Install the lamp to meet direct sunshine.The stronger sunshine, the longer time to expose sunshine, the better effect to charge.

The surrounding to forbid installing

1. Glass room (it have bad effect to light strength,not good to charge)
2. Monitor area (the infare of monitor have bad effect to light strength)
3. Under the eaves (donot install the lamp under the eaves or tree,lamp cannot charge under the shade)
4. The place with short sunshine. (keep the lamp to expose sunshine for 6h at least)

Remark

1. please place that lamp in sunshine for full charged. If you see the light donot work or work for short time, kindly link factory if it is the same situation as before.
2. It is necessary to clean the solar panel if you use forlong time already, good for charging.
3. It has effect to light strength and working time in some extent in rainy day. Please keep fire away, or else easy to explode because it has batteryinside.
