Crescent Floating Wooden Shelf
Installation Guide

Package Contents
1 × Crescent wooden shelf
1 × T-shaped metal bracket
2 × Plastic wall anchors
2 × Self-tapping screws

Installation Steps
1. Take out the bracket
Remove the T-shaped metal bracket from the back of the wooden shelf and get all accessories ready.

2. Mark, drill and fix the bracket on the wall
Place the bracket on the wall at your preferred height and mark the two hole positions.
Drill holes on the marked spots. Tap the plastic anchors into the holes.
Secure the bracket to the wall by tightening the screws.

3. Attach the shelf to the bracket
Align the holes on the back of the wooden shelf with the two metal rods of the bracket. Insert the shelf onto the rods.

4. Installation completed
Adjust the shelf to keep it level. You can put books, diffusers and decorations on it.

Important Warnings
- Install on solid brick or concrete wall. Drywall / hollow wall is not recommended.
- Confirm no hidden wires or water pipes before drilling.
- Do not overload the shelf. Only light decorative items are allowed.
- Keep small hardware away from children to avoid choking risk.
