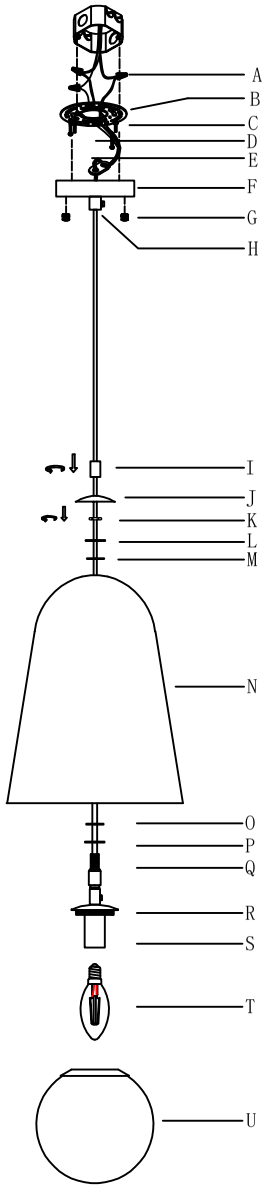
ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.



Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1.Turn off the power supply before beginning.
2.Pass the threaded rod (Q) through washer (P), rubber gasket (O), lampshade (N), rubber gasket (M), washer (L), and nut (K), then tighten with nut (K).
3.Pass the wires through the cover (J) and the metal piece (I). Hand-tighten the metal piece (I) to secure.
4.To adjust the height, loosen the plastic screw (H), slide the figure-8 clip to the desired height, then retighten the plastic screw (H).
5.Secure the mounting plate (B) to the junction box using screws (C).
6.Connect the fixture wires (D) to the house supply wires using wire connectors (A).
·Connect the fixture's positive wire, negative wire to the corresponding wires from the junction box. Secure the ground wire (E) to the grounding terminal using green screw, and connect the supply wire using a connector.
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
7.Secure the canopy (F) to the mounting plate (B) using the decorative nuts (G).
8.Install the light bulb (T) (not included) into the socket (S).
9.Screw the glass shade (U) onto the aluminum piece (R).
10.Turn on the power to verify operation.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
