Instruction Manual

Material: Carbon Steel
Surface Treatment Type: Powder Coating
Shape: Rectangle
About this product
High Flexibility - This automotive paint rack can accommodate up to 4 wheels simultaneously, but it can also be converted into a body panel rack by disassembling the wheel supports, allowing it to be used for painting larger items such as engine hoods.
Durable - This heavy-duty wheel repair stand weighs up to 300 pounds, ensuring long-lasting use and providing a stable, reliable platform.
Easy to use - The support rod and cone can be easily adjusted to the optimal height. Rotate the wheels on the cone so that each wheel can be fully painted on the rack, accommodating various wheel sizes and weights. The outwardly tilted wheel support provides a very comfortable and convenient operating angle for users.
Corrosion-resistant - The wheel painting rack is made of sturdy powder-coated steel, offering rust, corrosion, and scratch resistance.
Mobile Paint Booth Dimensions: 39.37 inches x 32.6 inches x 31.8 inches (Length x Width x Height), Weight: 13.5KG

Wheel: Heat-resistant, 360° swivel casters with 2 brakes.
