2	Pliers	

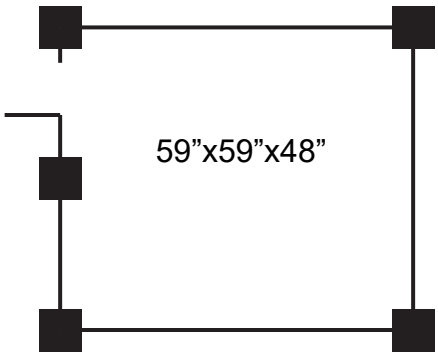
Assembly Instructions

Step 1:Site Preparation

Choose a site that is flat and free of foreign objects,toxic matter,and pests.

For the safety of your pet,protection from the weather should be considered in choosing a location.

Confirm that the dog run configuration (59”x59”x48”) fits within the chosen site.



Step 2:Assembly Preparation

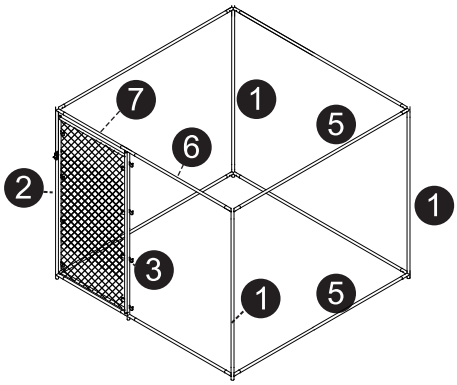
Carefully unpack contents of box and identify all parts as shown on the parts list.

CAUTION:Wear gloves during assembly as some parts may have rough edges.

Assembly Instructions

Step 3:Dog kennel Frame Assembly

Lay out 3# Door brace -B 6#/7# horizontal brace and 5# horizontal brace at inner;1# 4 way verticality brace and 2# Door buace-A at corner.

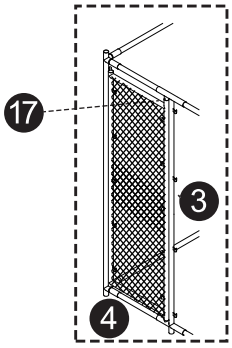


Put fitting #13 Plastic Cap in the holes of the top frame.

Step 4: Install Gate

Insert # 4 Door on the # 3 Door brace-B and flated with #17 self-tapping screw.

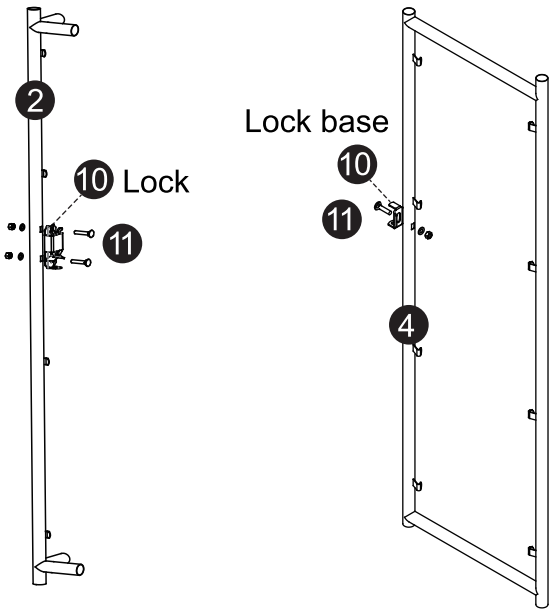
Put Small #13 Plastic Cap in the holes of the # 4 Door brace.



Step 5: Install lock and lock base

Fix #10 Lock on the #2 Door brace-A.

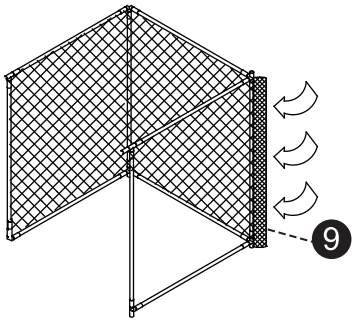
Tighten screws as right Figure with wrench.



Assembly Instructions

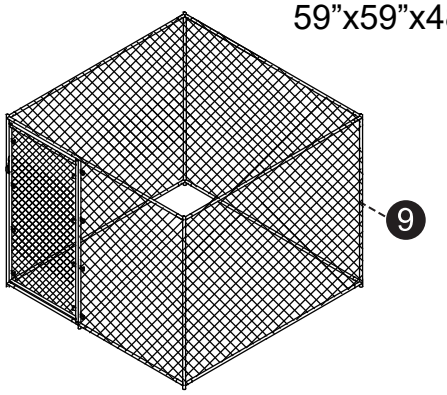
Step 6: Install Around steel net

Place the rod on the end of # 9 Around steel net in the tension rod clips(starting from either side).



Unroll the Around steel net as possible around to the other side.The plastic on the top and bottom is there to ensure Around steel net does not tangle and may be removed once Around steel net is unrolled.

59”x59”x48”



Using pliers secure the Around steel net mesh to the gate with #12 Steel wire ties and #16, plastic zip ties .For the safety of your pet, make sure that the ends of the steelwire ties are on the outside of the dog run.

Please refer Figure 1 and Figure 2.

Fasten #12 steel wire ties and #16 plastic zip ties through the Around steel net onto the top and bottom rails(#5~#7).

The ends of the wires should face the outside to ensure safety of the pet.
