WARNING

Unexpected assembly or improper use may result in serious injury or even death. Please be sure to follow the following safety tips:

Keep out of reach of children: During assembly, keep all parts away from children or infants to prevent accidental ingestion or injury.

Fix the product: Products placed against the wall, any height greater than 23.6 inches, must be securely fixed to the wall to ensure that there are no hidden wires, water pipes or gas pipes in the area to be drilled.

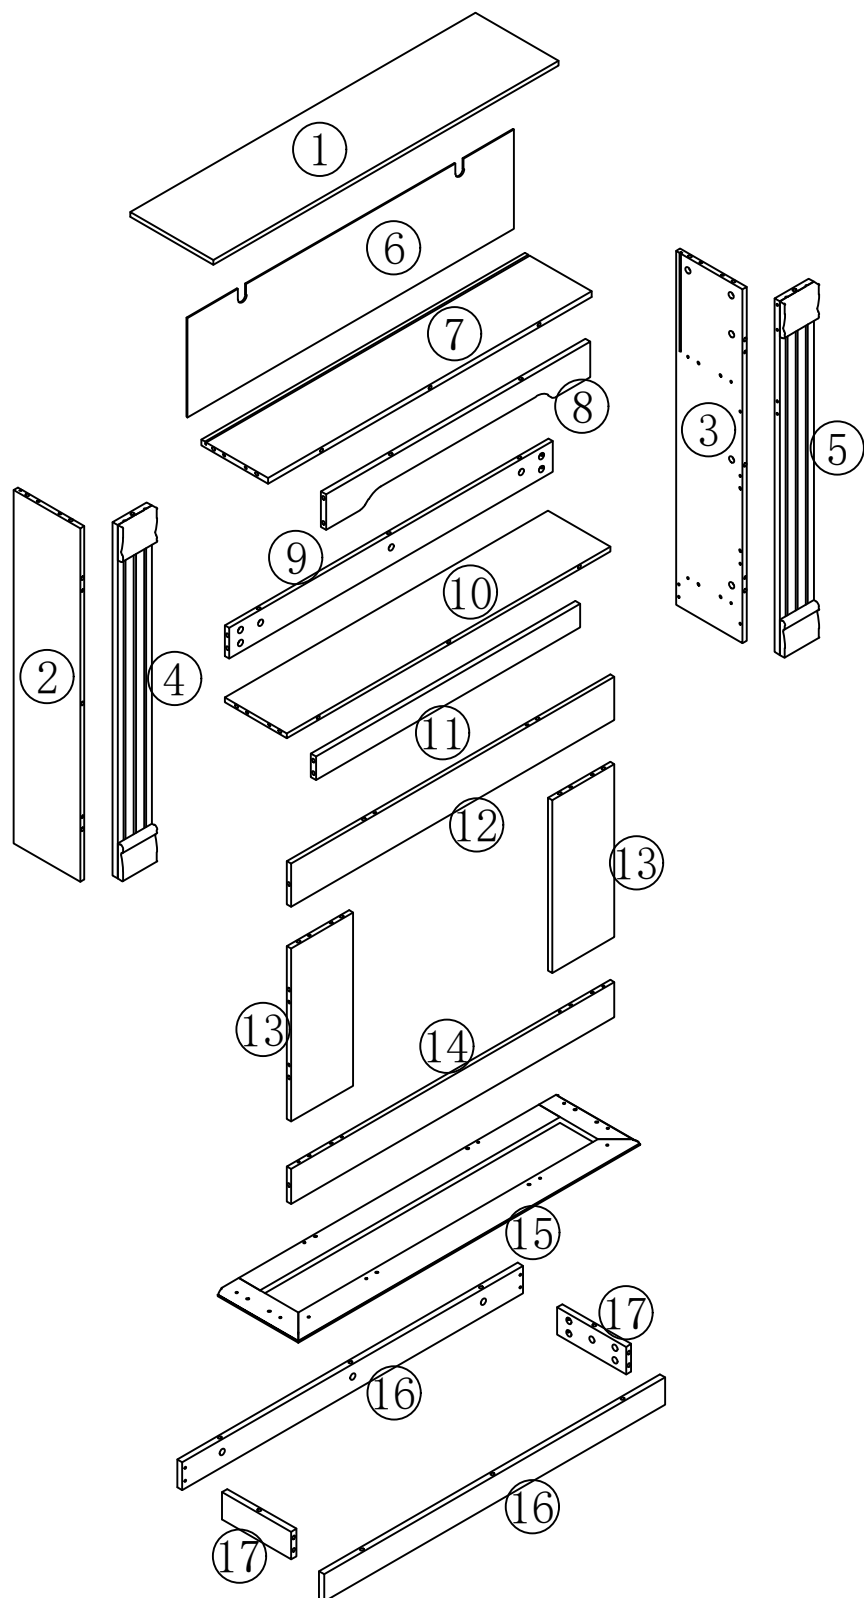

Anti-tipping tips: The use of anti-tipping devices can reduce the risk of tipping, but it cannot completely eliminate it.

Weight limit: Do not place heavy objects unless this product is explicitly designed to bear weight.

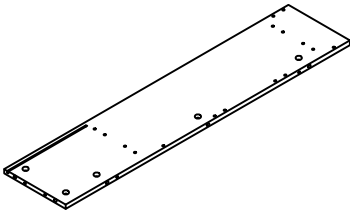

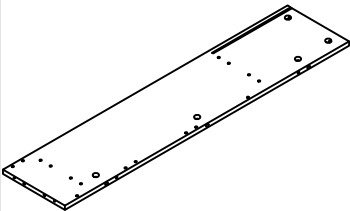

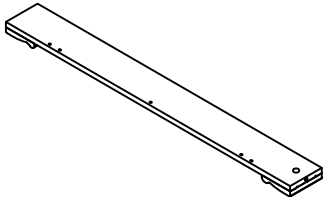

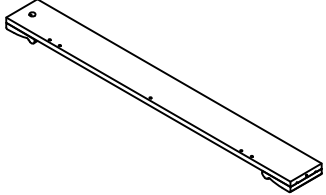

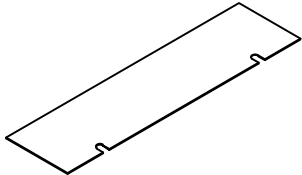

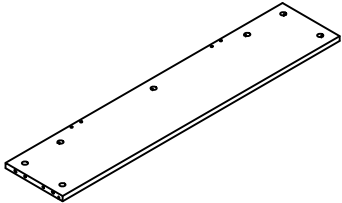

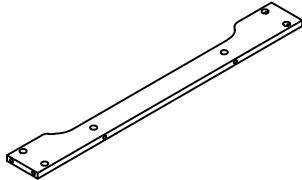

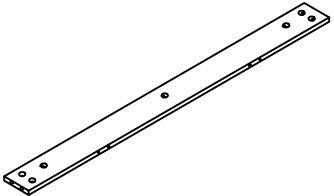

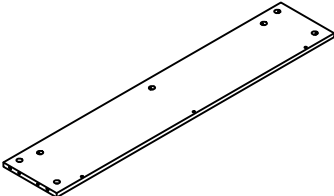

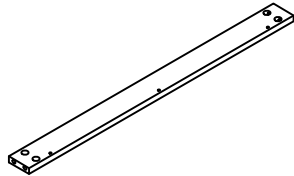

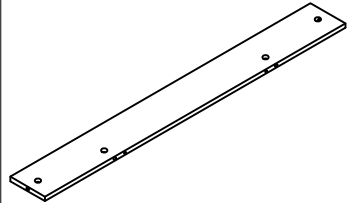

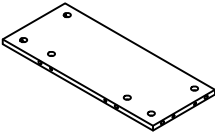

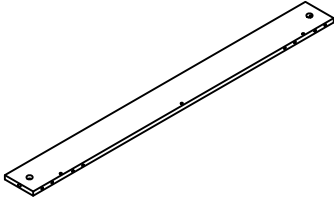

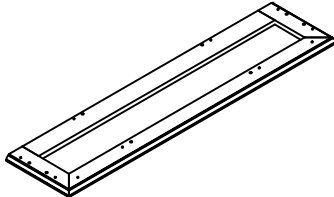

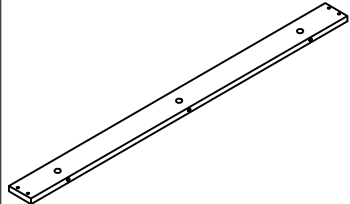

Heavy object placement: Place the heaviest items on the lowest shelf to maintain a stable center of gravity.

No climbing: Children are strictly prohibited from climbing or knocking on drawers, doors or shelves to avoid tipping or accidental injury.
