T-shaped interface		corbel	
T-joint		Self-tapping yarn	
L-shaped interface			
Cross foot			
Side joint			
pleurocrus			
Adjustable foot			
Side banding			
Cylindrical tube			

The diagram illustrates the assembly of a cabinet structure. It shows two main cabinet units, a side panel, and a door. Key components and their assembly points are labeled:

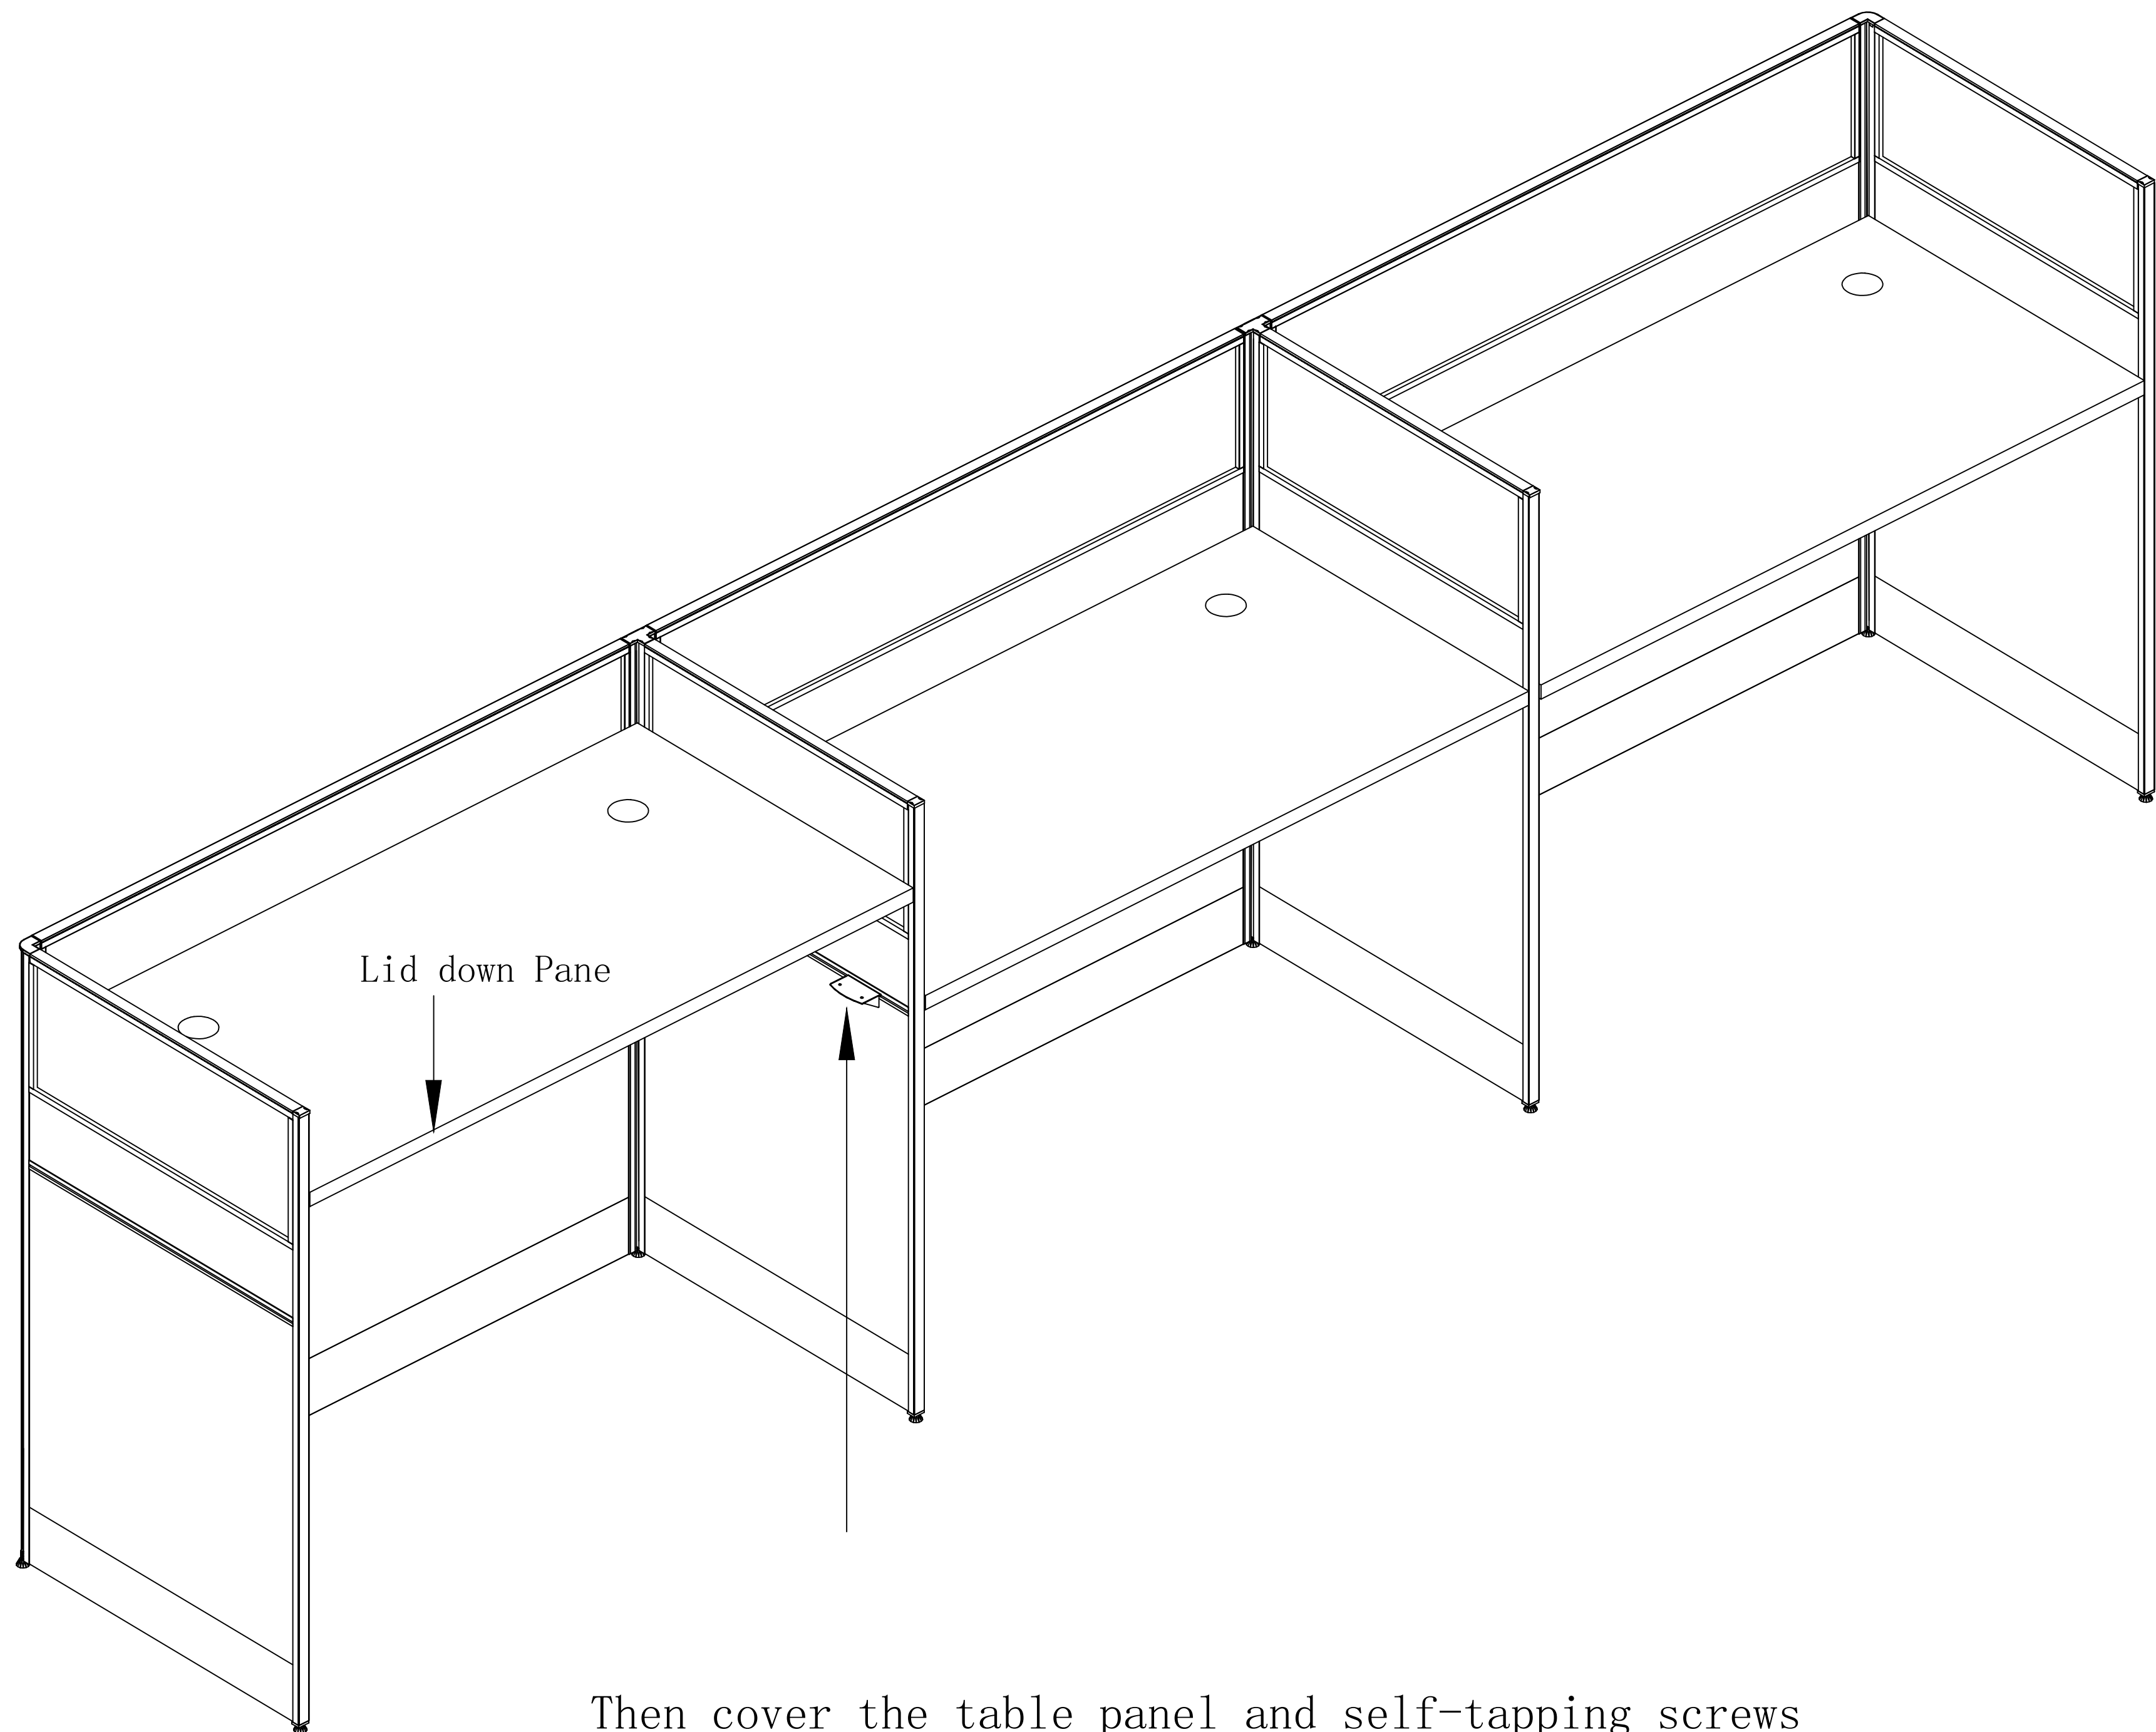

- Cylindrical tube**: Located at the top and bottom of the cabinet units.
- T-shaped interface**: Connects the cylindrical tubes to the cabinet frame.
- L-shaped interface**: Connects the side panel to the cabinet frame.
- Side joint**: Connects the side panel to the cabinet frame.
- Side banding**: A decorative strip along the side of the cabinet.
- Cross foot**: A support foot for the cabinet.
- pleurocrus**: A hinge or joint for the door.
- Adjustable foot**: A foot for the door.
- T-joint**: Connects the side panel to the cabinet frame.
- Self-tapping yarn**: A screw used to secure the side panel.
- corbel**: A support bracket for the side panel.

Step 1

The bracket arm is adjusted and fixed on the screen plate with self-tapping.

**Step 2**

Then cover the table panel and self-tapping screws  
to lock the countertop.

**Step 3**
