Instructions Pertaining to a Risk of Fire, Electric Shock, or Injury to Persons that is associated with the use of the furnishing, such as operation, user-maintenance, storage, and, as applicable, grounding or double-insulation.

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical furnishing, basic precautions should always be followed, including the following. Read all instructions before using (this furnishing).

DANGER - To reduce the risk of electric shock: Always unplug this furnishing from the electrical outlet before cleaning or servicing.

WARNING - To reduce the risk of burns, fire, electric shock, or injury to persons: Unplug from outlet before putting on or taking off parts.

Close supervision is necessary when this furnishing is used by, or near children, invalids, or disabled persons.

Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

Never operate this furnishing if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the furnishing to a service center for examination and repair.

Keep the cord away from heated surfaces.

Never operate the furnishing with the air openings blocked. Keep the air openings free of lint, hair, and the like.

Never drop or insert any object into any opening.

Do not use outdoors.

Do not operate where aerosol (spray) products are being used or where oxygen is being administered.

To disconnect, turn all controls to the off position, then remove plug from outlet.

MOTION LAMP

INSTRUCTION

ASSEMBLY AND OPERATING INSTRUCTIONS:

1. Carefully unpack lamp from the box. Assemble lamp on a flat and clean surface.
2. Pre-Installed bulb in FIGURE 1, use only 20 WATT R39 Max reflector bulb for replacement.
3. Insert body (B) into the base (A) as shown in FIGURE 2.
4. Place cap (C) onto body (B) as shown in FIGURE 2.
5. Plug in and turn switch on. Please allow 2.5-3 hours for the lamp to fully warm up for best performance.
6. Do not place near sources of heat or cold, such as an oven or air conditioner vents.
7. Always unplug this furnishing from the electrical outlet before cleaning & touching.

MAINTENANCE

- The lamp is designed to operate in an average room temperature of 22-25℃ (71.6-77℉).
- Make sure the lamp is at room temperature before starting. Operate lamp only on room temperature surface.
- Do not operate lamp on any warm or hot surface.
- Do not place near sources of heat or cold such as heat and air condition vents.
- The lamp will function best if it is operated no longer than 10 hours at a time.
- Do not open the cap or add any fluids or solids to your lamp.
- The air space at the top of the vessel has been provided to allow for expansion.
- Operation or storage of lamp in direct sunlight will cause colors to fade. The color hue of the wax will mellow after about 10-20 hours of operation.
- Always operate the lamp on a firm, stationary surface.
- Use only a soft cloth to clean the surface. Always unplug it before cleaning.

CAUTION

- The glass vessel and base will be hot in operation and hot to the touch after the unit has been turned off/unplugged.
- Keep out of reach of children and pets.
- When the lamp is operating, be sure not to move or shake it in order to avoid making the liquid murky and permanently damage it.
- The lamp should never be heated up by any other means than the lamp base provided. It should also never be cooled down artificially.
- Do not operate lamp if the glass vessel is cracked or damaged.
- The external flexible cable or cord of this luminaire cannot be replaced; if the cord is damaged, the luminaire shall be destroyed.
- Do not leave liquid lamp unattended.
- We do not recommend running the liquid lamp while sleeping as this is a novelty item and is not intended to be used as a night light.
- The bulb will become hot during use. Not intended for use in any other application.
