

# Installation & Assembly

## WARNING!

For smooth assembly you can use a power screwdriver, wear safety glasses and gloves when using tools.

## THANK YOU FOR CHOOSING US!

Your new Five layer steel cabinet has arrived and it will make your life so much easier. That's why we put so much effort into designing it to perfectly fit your needs.

But first things first, we need to install it!

When we say "we", we mean we're going to guide you, step by step. We created this instructions manual so that you won't feel overwhelmed and get your new cabinet up and ready to use in no time! We also know that sometimes things just don't seem to fit, so don't hesitate to drop us a line if you have questions or need help!

Anyway, this steel cabinet can't wait to be put into use, so let's assemble it!

## MISSING A PART? DON'T WORRY, WE GOT YOUR BACK!

Compare the sketch on the next page with your package. Are all the pieces there? However, sometimes errors happen, so if anything is missing just send us an email and we will make sure to fix it!

**Before you start, here are a few quick pointers:**

The installation requires two people. so call a friend to join the fun!

For more stability, it's best to anchor the cabinet to the wall.  
In this case, along with the items provided you will also need a Level, Percussion Drill and a Hammer
