# Installation steps

## Step 1

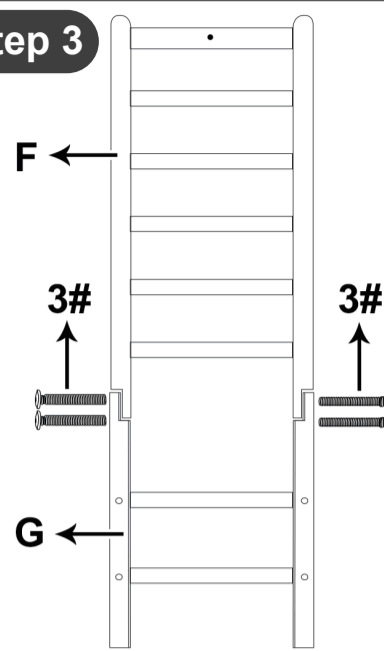

Inset 8pcs Screws(4#) into A and B to connect C

## Step 2

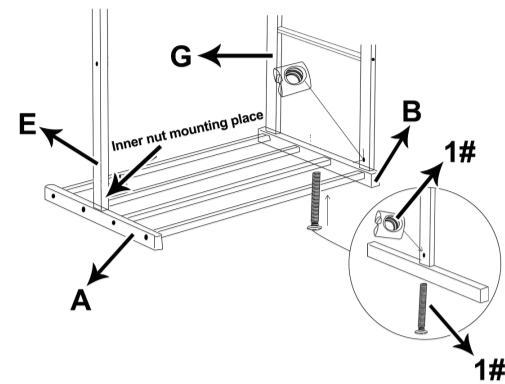

Connect D and E with 2pcs (2 #) screws

## Step 3

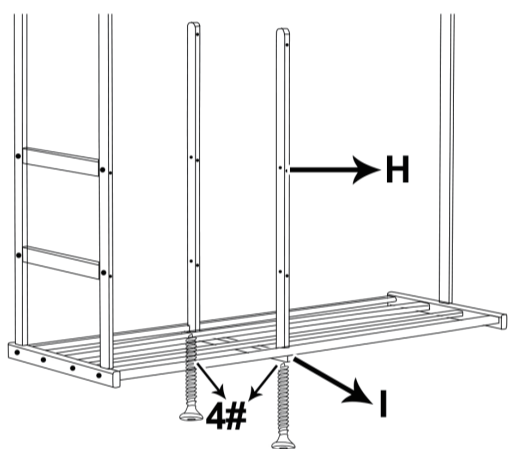

Connect F and G with 4pcs screws (3#)

## Step 4

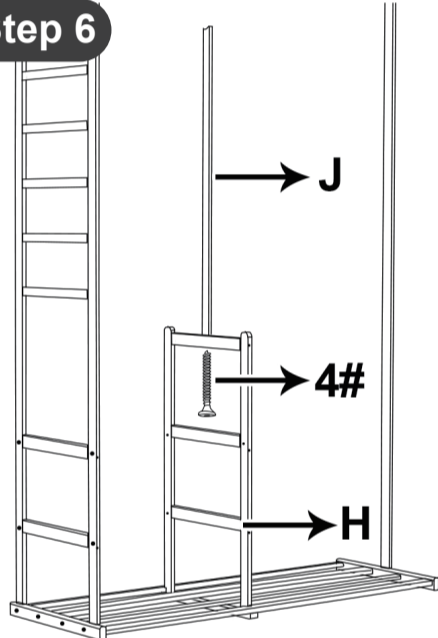

Use 3pcs long screws (1#) to install E on A, G and B. The inner nut is installed on the side of the rack, connected and tightened with the bottom screws as picture

## Step 5

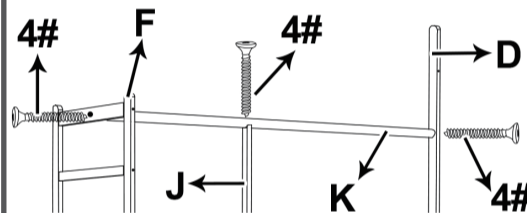

Inset 2pcs screws(4#) to connect H and I as shown (do not tighten the screws at once,needs to adjust the position in the step 8 according to installation needs)

## Step 6

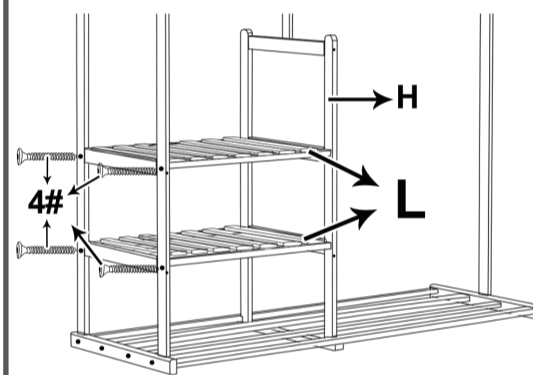

Use 1 pc screw(4#) to install J on H.

## Step 7

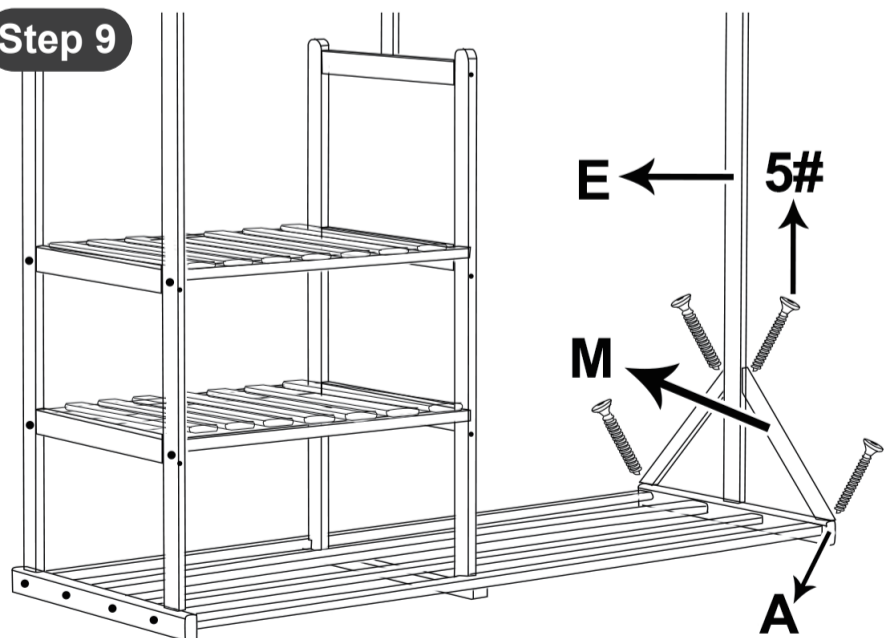

Install K on F and D with 2pcs screws (4#), and fix it on J with 1pc screws (4#)

## Step 8

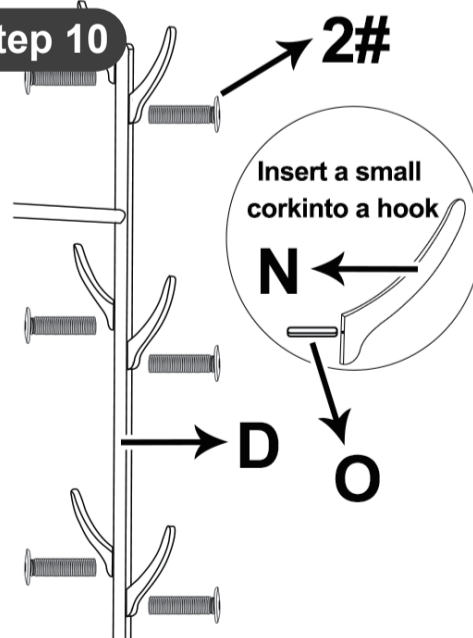

Install two L on H and G with 8 pcs screws (4#)

## Step 9

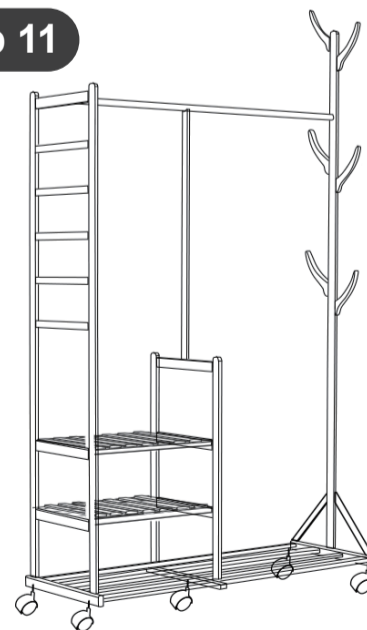

Use 4pcs screws (5#) to install M on A and E

## Step 10

Connect O to N (total of six), and then use 6pcs screws (2#) to connect them to D

## Step 11

Use a universal wheel wrench to install the five universal wheels on the bottom of garment rack and tighten
