Brand: Hooker Furniture

Product Description: City Chic meets French Romance with the elegant and edgy Arabella Windsor side chair. The heavily painted charcoal finish contrasts with a warm wood finish on the seat.

Collection Features: A new take on French style that combines classic European elements with modern forms, then adds metals and a touch of glam to create an industrial luxe look. Our Arabella collection marries two of the most pervasive home furniture trends in the last several years Ã industrial interiors and laid-back luxurious looks Ã for a result much greater than the sum of two parts. The new direction takes industrial style, which can become cold and stark, and makes it softer and more romantic by anchoring the look in classic French elements with touches of glam and sparkle.

Status: Active

Finish: Heavily painted charcoal finish. Distressing includes rasping.

Features: Wood seat
Material: Hardwoods

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
