Product Description: With its Parisian flair and chic silhouette, the Corsica Oval Back Side Chair adds a romantic elegance to any dining or living room setting. Crafted in exotically beautiful Acacia wood, known for its rustic charm and tactile hand, the side chair is finished in a wire-brushed artisan natural finish with a reclaimed character. The neutral-colored fabric on the comfortable upholstered seat and back is 80% Cotton, 20% polyester.

Collection Features: Like the Mediterranean island for which it is named, Corsica is a melting pot of timeless design influences with a sun washed ambience and casual attitude. Gracefully shaped architectural forms of Italian, French and Belgian origin are accentuated by a wire brushed artisan finish with a reclaimed character.

Status: Active

Finish: A wire-brushed, artisan, light natural finish with reclaimed character is on exotic beautiful Acacia wood, known for its rustic charm, tactile hand, knots and color variations in serene organic hues of gray, rose and natural. Distressing includes wire brushing, rock, worm holes, scratch antiqueing and sandblasting.

Material: Acacia Veneers and Fabric

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
