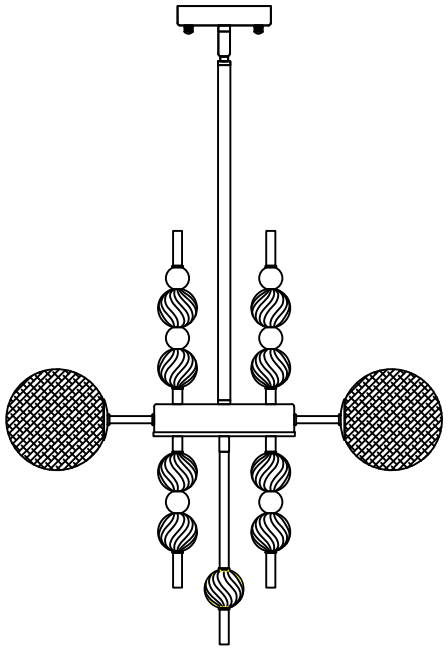
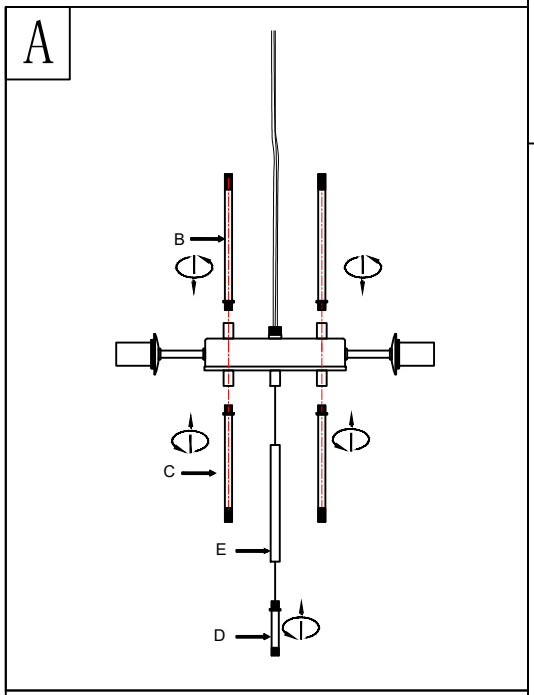
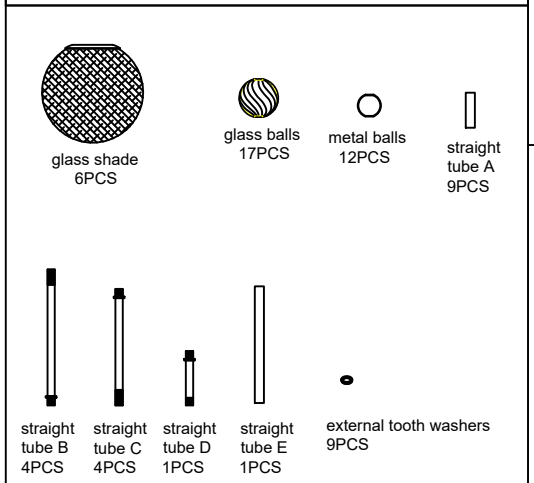
ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.







Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1.Secure the straight tube to the fixture body as shown.

Safety Instructions:

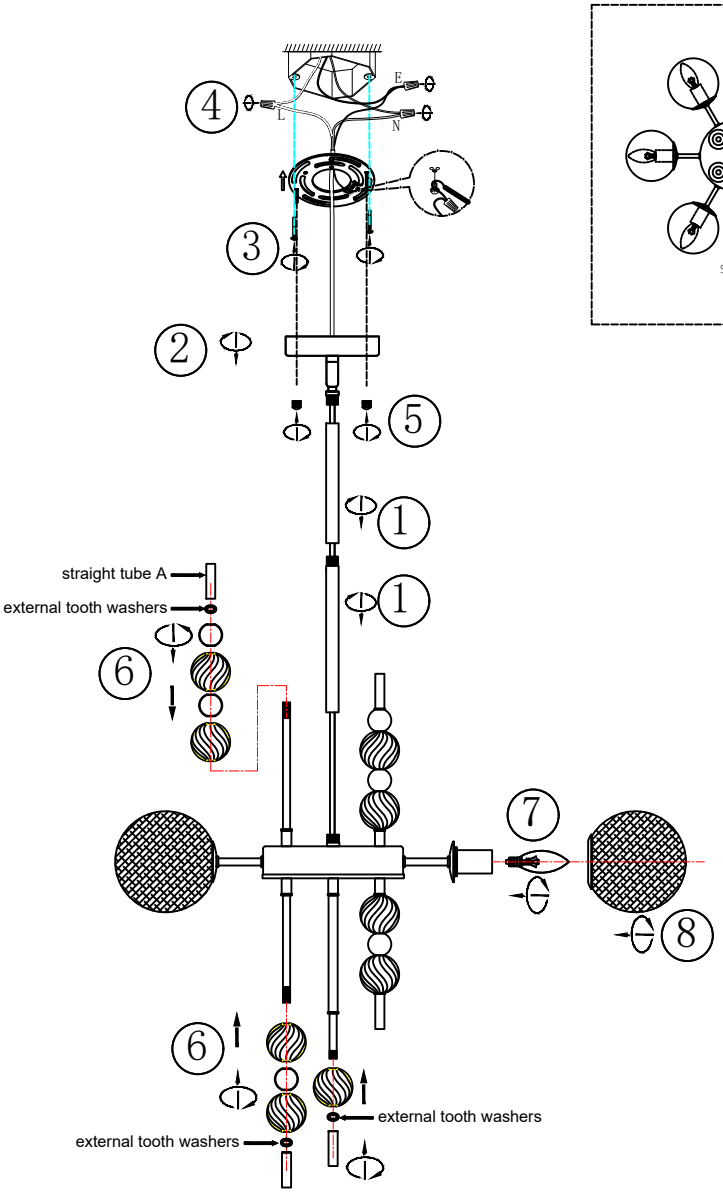
To avoid fire, shock, and serious personal injury, follow all instructions carefully.

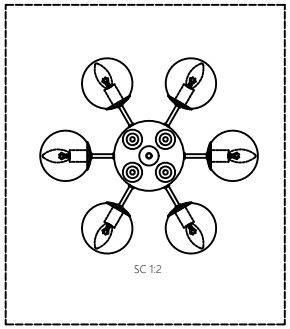
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

B





Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1.Pass the fixture wires and ground wire through the downrod, then thread the downrod onto the fixture body and tighten securely. (Downrod sections can be joined for extended length.)
2.Pass the fixture wires and ground wire through the canopy swivel assembly. Then thread the swivel onto the downrod and tighten securely. (Compatible with sloped ceilings.)
3.Secure the mounting plate inside the UL-listed junction box using the mounting screws.
4.Connect the fixture wires to the supply wires using wire connectors as follows:
· Connect the fixture hot wire (L) to the supply hot wire (L).
· Connect the fixture neutral wire (N) to the supply neutral wire (N).
· Ensure no bare wire is exposed to prevent shock.
· Connect the ground wire to the household ground wire, then secure the fixture ground wire and the supply ground wire to the mounting plate with the green grounding screw.
5.Place the canopy over the mounting plate and secure it with the nuts.
6.Following the illustration, insert the glass spheres and metal balls into the tube in sequence. Secure them with the external tooth washers, then thread straight tube A onto the tube.
7.Install the light bulb into the socket (Bulb Not Included).
8.Install the glass shade onto the socket. Carefully align the threads and tighten gently—do not over-tighten.
Installation is complete.
