

How to Care for your Items

Finishes are naturally resistant to minor everyday hazards and accidents; however, precautions are necessary to maintain the beauty of your wood furniture. Dust with a soft clean cloth slightly moistened with water, then dry completely with another clean cloth. Always rub in the direction of the wood grain. Keep cigarettes, hot dishes, moisture and harsh solvents such as nail polish and alcohol away from furniture. Do not place beverages directly on furniture. Use pads beneath accessories when writing or eating. Remove spills and smudges immediately. Pliable materials such as plastic or rubber should not be left on a wood surface; they can damage the finish. Furniture should not be placed near heat, outlets, windows, or in direct sunlight.
