1

First install the upper frame, lock the upper frame with 8*25mm screws

This is a spare screw hole. When the 8x16mm screw fails to be screwed in, the hole can be fixed with a 4x15mm self-tapping screw. Either way will do.

Put the table top on the table leg, make sure the reserved screw holes of the table top and the frame are corresponding, tighten 8x16mm screws to finish the installation.
