

THEODORE ALEXANDER

Whole Day 1

D1915S38297-3191

Whole Day recalls the Modern Art period of the 20th century. Dimension is brought forward in a composition of squares, ovals, and rectangles. Distinct color fields of onyx, cream, auburn, bone, and buff offer the work a sense of depth. Taken together, the work offers the viewer an expressive view of the Modern Art period.

A pleasing blend of earth tones and geometric forms, this serene work of abstract art is an original addition to ART by TA.
