

# Installation Manual

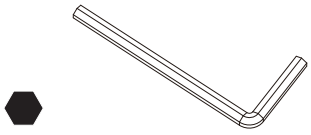

## Horizontal Storage Shed

Thanks to choose our product. Missing parts, Quality, Installation Questions, please contact with us.

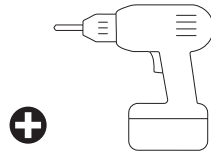

Model : CWX120A

---

## Tools you need:

Hex wrench  
(included in the box)

Electric drill  
(Not included in the accessory pack)

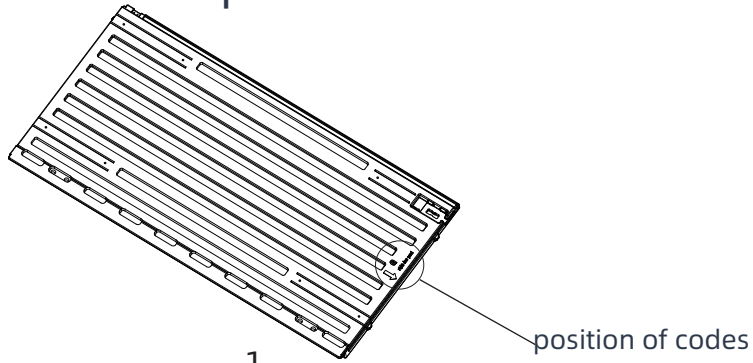

---

## Notes:

1. Before you start, separate and identify all the parts and plates to be sure that you have all the necessary parts for your building (refer to the Components List Page).
2. Finding a necessary area to assemble the storage shed, make sure the floor is flat.
3. Reviewing all instructions and the appropriate information before you begin, make sure following the step sequence carefully for successful results.
4. Following the steps to open the parts' bags and do not open all the bags in one time in case of mixture of parts.
5. The company will not be responsible for any losses caused by parts' damage due to incorrect installation methods, and the customer shall bear the responsibility on their own.
