Walnut Grove Studio Bed Walnut Grove Studio Bed

The Walnut Grove Studio Bed has been designed with a lower, smaller footprint for more compact spaces. Crafted of American black walnut, it features a 48-inch-high headboard with radiused top and side rails and random-match decorative walnut veneers, along with round, slightly tapered posts that tie in to the collection's mid-century modern design vocabulary. This platform-style bed can be used with or without a box spring, and it also accommodates an adjustable bed.
