

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

Step 1: Unscrew and remove the nut from the fixture.

Step 2: Securely tighten the decorative finial at the base of the fixture.

Steps 3-9: Assemble Suspension Rod

· Thread the main wire through the suspension rod.

· Firmly attach the suspension rod to the lamp body.

· Ensure the rod is securely installed for fixture stability.

Step 10: Connect the lamp body's positive wire and negative wire to the corresponding wires of the LED driver.

Step 11: Secure the mounting plate to the junction box using the provided screws. Ensure the plate is firmly attached.

Step 12: Junction Box Wiring

· Use wire connectors to connect the fixture's white (neutral) wire and black (hot) wire to the corresponding supply wires on the junction box.

· Secure the fixture's ground wire to the grounding terminal using the green screw. And Pigtail it to the house ground wire using a wire connector.

· Carefully tuck all wires into the junction box. Ensure no bare conductors are exposed.

Step 13: Place the canopy over the backplate, and secure it by tightening the decorative nuts.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
