**USER MANUAL**

# Wall Mounted Lighted Makeup Vanity Mirror

INSTALLATION

## IMPORTANT SAFETY INSTRUCTION

**⚠ WARNING – TO REDUCE THE RISK OF BURNS, FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS:**

- Please read this manual carefully before using the product.
- Please do not disassemble or modify the vanity mirror by yourself.
- Please make sure the battery is fully charged before use.
- Please check the voltage of the external power supply device to make sure it's compatible with this product before charging.
- Please turn off the power first before cleaning the mirror. The mirror should be cleaned with a soft cloth, and glass cleaner is OK to be applied on the mirror surface. Do not use corrosive chemicals to clean the surface of the mirror.
- Please wait for the mirror to be dry completely before turning on the light.
- Be sure the mirror is not in a position where it can reflect sunlight. Reflected sunlight may cause fire.
- Please provide close supervision when the mirror is being used near children or disabled persons.
- Do not approach the product to fire or put it into an ignition source to avoid fire or explosion.
- Please stop using it immediately if any abnormal condition occurs during the use of the product.

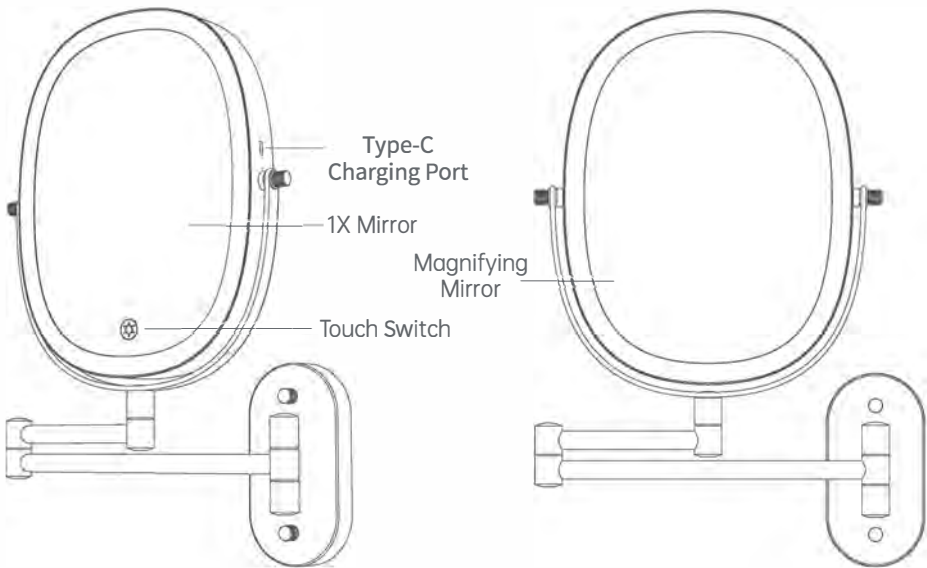

PLEASE SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

## INSTALLATION

## INSTALLATION AND OPERATION GUIDE

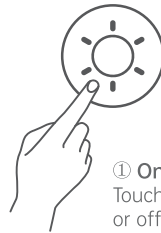

**1** Please make sure the mirror is fully charged before use.

**Charging :**  
charging indicator:(Red )

**Full charged:**  
charging indicator:(Blue)

**2** How to use this switch:

**① On/Off Lights**

Touch the switch to turn the light on or off.

**② Adjustable Brightness**

Long press to adjust brightness.

**③ Change Color Temperature**

Short press to select warm white or natural white light or daylight as you need.

### How to use magnifying mirror

4inch

**Viewing distance WITHIN 4 inch to avoid dizziness**

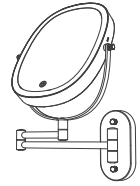

**Notes: Please make viewing distance within 4 inch to avoid dizziness and inverted image**

(When you are further from the mirror, the image is inverted. As you get closer, the image flips to the actual virtual image in magnification standard. This is because of the concave lens of the Magnifying Mirror.)

**⚠ Please make sure the mirror is fully charged before use.**

## INSTALLATION

## TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSE	CORRECTIVE ACTION
LED light not working	Battery is depleted	Charge the battery
Battery not charging	Damaged charging cable	Replace with new charging cable
	Adapter not working	Replace with new adapter
The mirror will not stay in place	Screw loose	Tighten the screws

### MIRROR MAINTENANCE:

1. Make sure that LED lights are OFF before cleaning.
2. Use a soft wet cloth to remove dirt and stains. Wipe with dry cloth afterwards.
3. You can use a velvet cloth for better result in cleaning (velvet cloth not included).
4. Be sure direct sunlight does not strike the mirror. When left unattended, reflected sunlight can cause fire.
5. To protect the mirror from dust simply store it in its original box.
6. Store out of reach of children in a safe dry location.

**For your safety and continued enjoyment of this product, always read the instruction book carefully before using.**
