

SS14

Frameless Single Sliding Door with Soft-closing System

Simple design and more safety with high cost-performance.

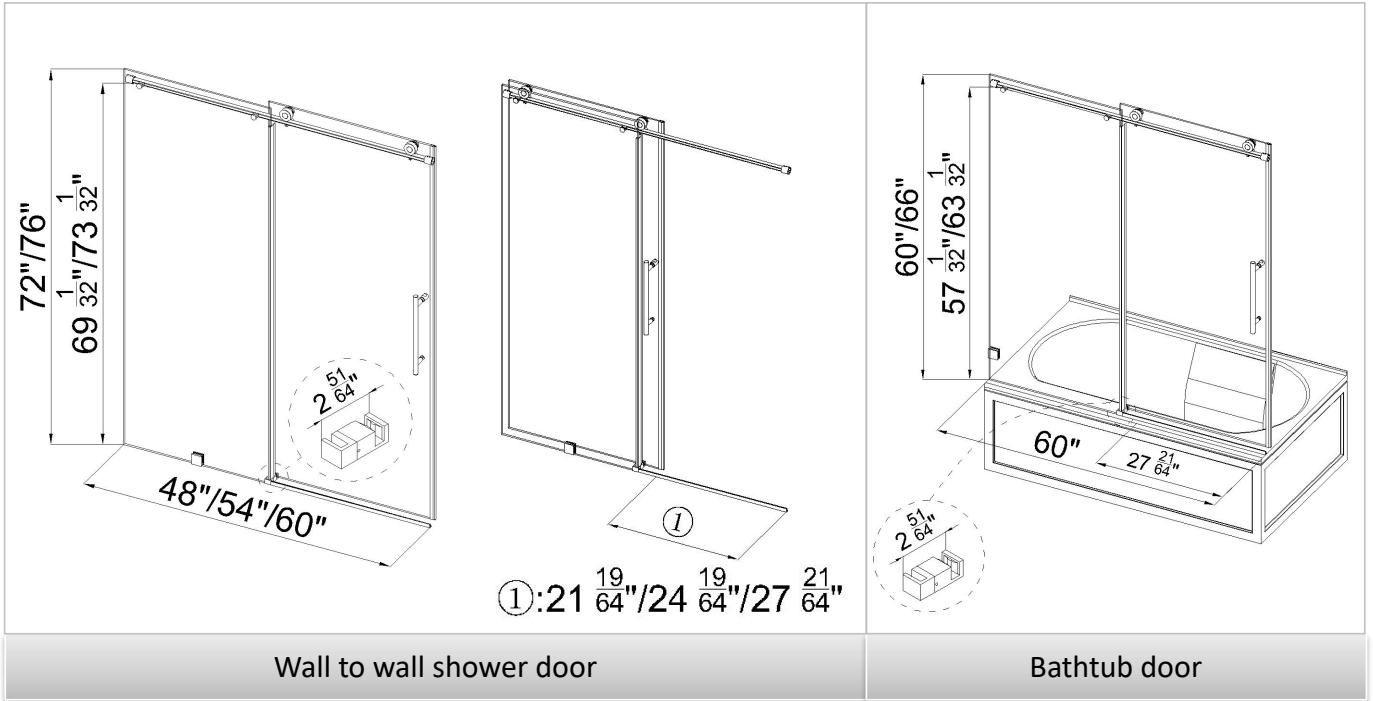

304 Stainless steel hardware:

5/16" (8mm) tempered glass in United States standards.

Its width can be adjusted in about 4" (100mm),
and reversible for left or right opening, with easy & quick installation.

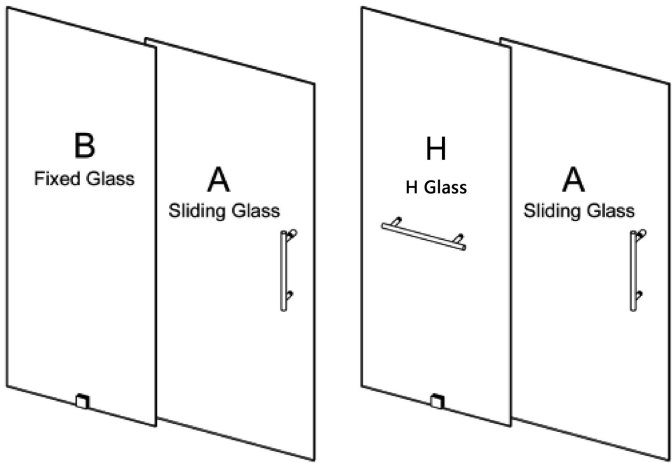

After 100,000 times sliding test,
the door has 10 years warranty.
