

ALL ARMREST CHILDREN'S SLIDE

TOBBI

ALL ARMREST CHILDREN'S SLIDE

The slide is made of environmental friendly PE material, and it is non-toxic and harmless. The entire slide has excellent low-temperature resistance and good chemical stability. We carefully select materials and use raw materials following the standard of controlling every point.

It's easy for the mother alone to assemble and disassemble the parts according to the instruction. This slide is equipped with hand-tightening nuts, which can be turned with one hand.

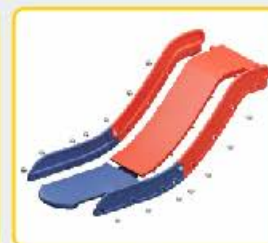

Equipped with a multifunctional basketball hoop, swing, and smooth slide, the slide can exercise kids' ability to shoot basketball, run. The swing is adjustable on height, bringing the baby a wonderful experience in childhood.
