NOTICE

Failure to follow all directions may cause leaks
which may result in water damage

CAUTION

Failure to follow all installation directions may
cause product to detach from the wall and
cause serious injury

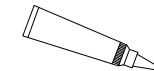

Tools Required

Basin Wrench

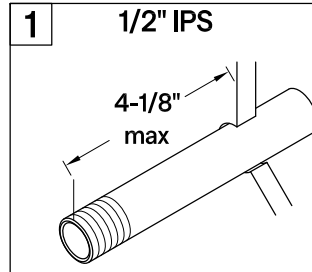

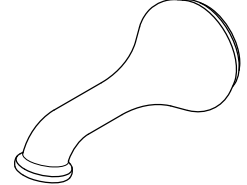

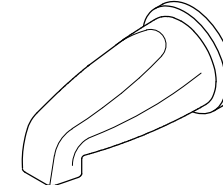

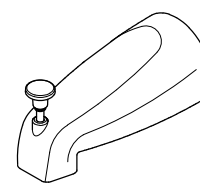

Teflon Tape

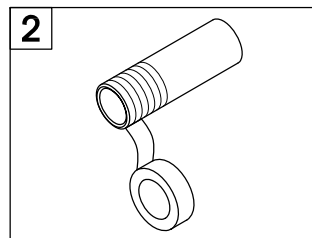

Silicone Sealant

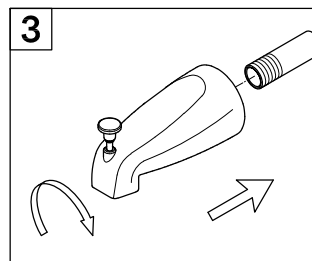

Note: This product is used to
illustrate installation.
Your product may be a
different style but will install
in the same way.

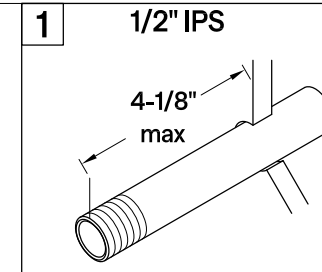

1. The stub-out pipe for spout installation must be at the length illustrated measured from the finished wall surface.

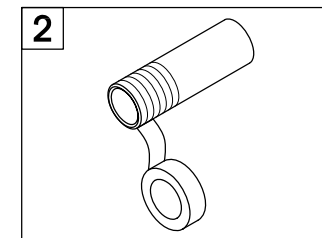

2. Apply pipe Teflon tape on the pipe nipple threads.

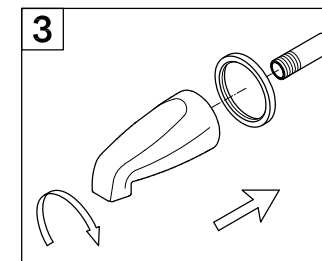

3. Slide the spout over the pipe. With the spout tight to the wall, tighten the set screw to the pipe.

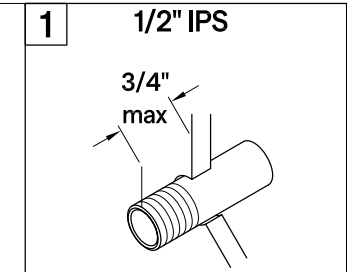

1. The stub-out pipe for spout installation must be at the length illustrated measured from the finished wall surface.

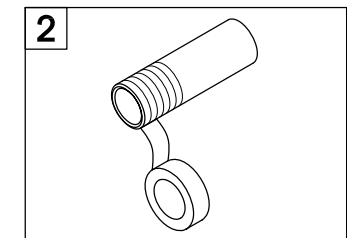

2. Apply pipe Teflon tape on the pipe nipple threads.

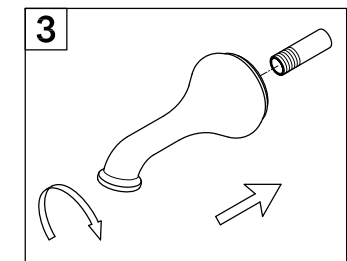

3. Slide the spout and flange over the pipe. With the spout tight to the wall, tighten the set screw to the pipe.
