Step-1

Installing the Plastic Suction Cups

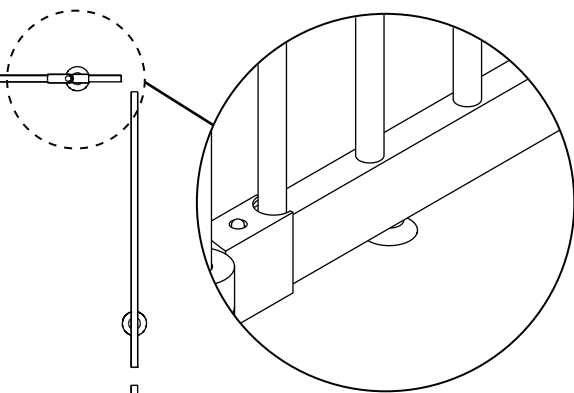

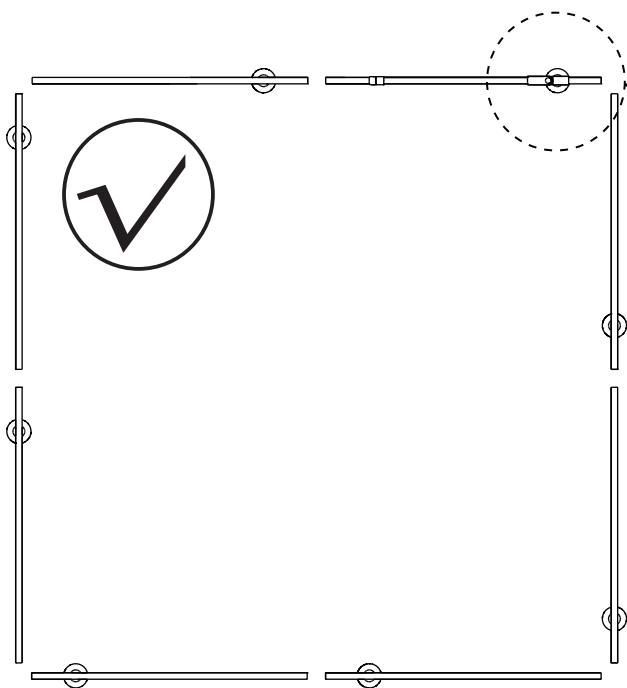

Step-2

Positioning the Suction Cups for Even Distribution

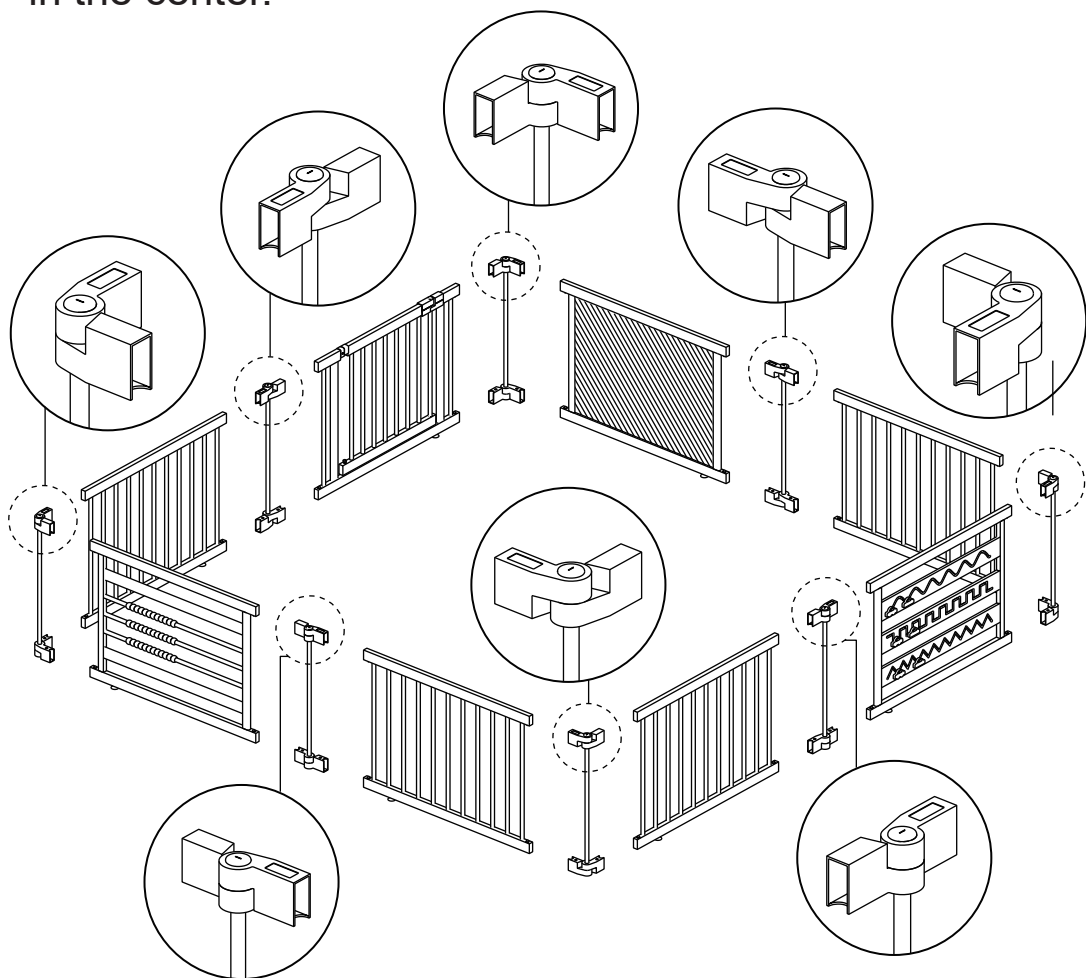

Notice:

Ensure the suction cups are evenly positioned to guarantee the overall stability of the playard and prevent deformation.

Step-3

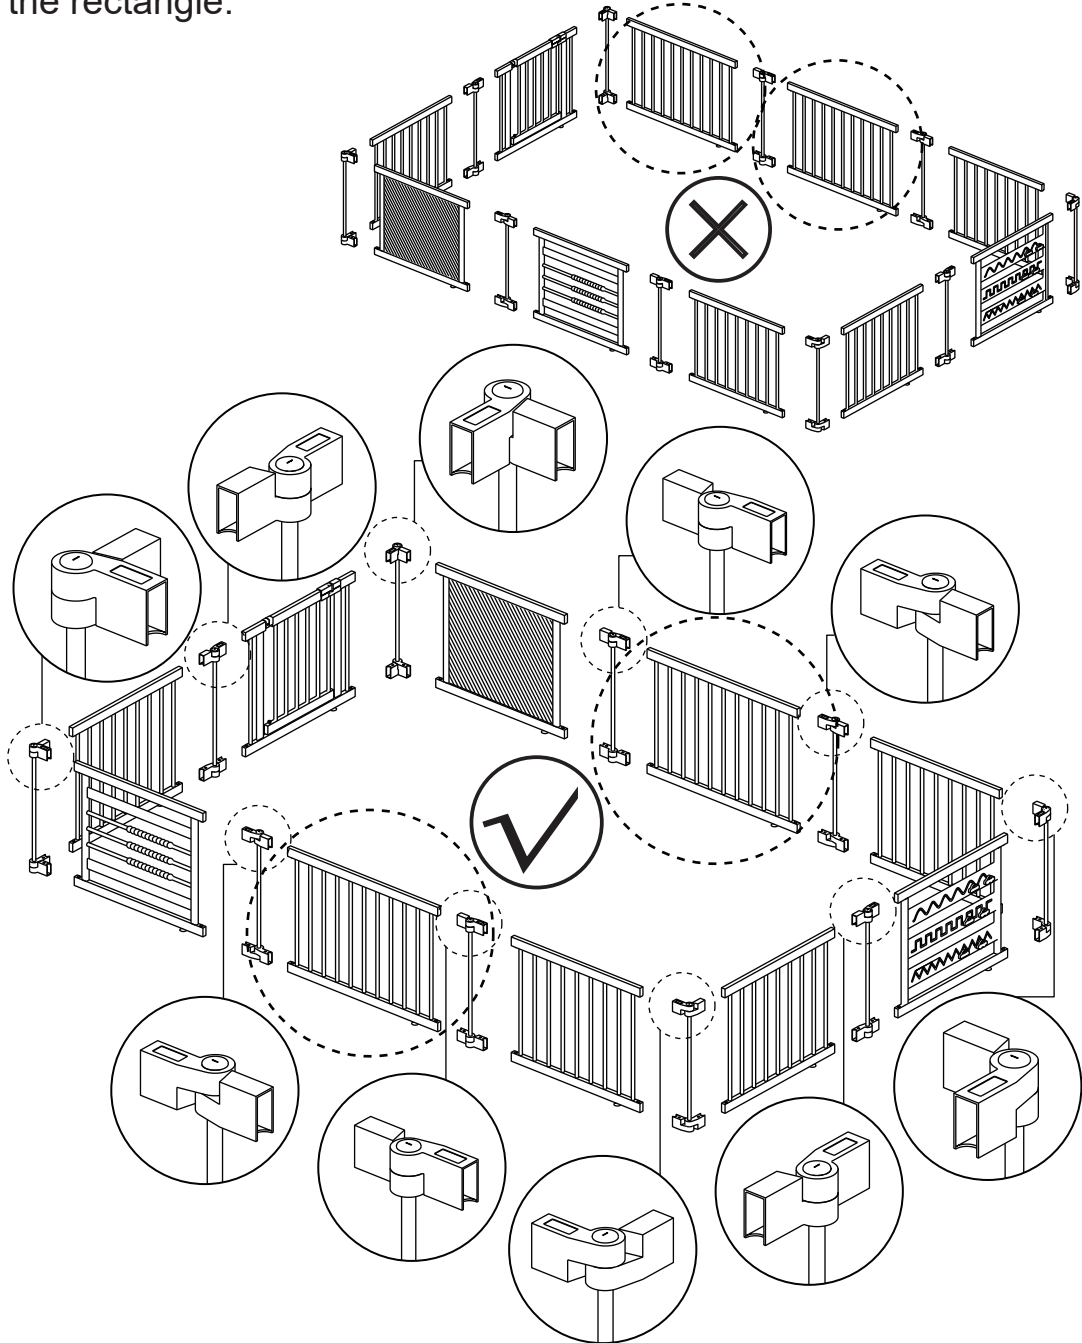

Connect the panels using the plastic clips.
Part G is on top; Part H is below; the dowel is
in the center.

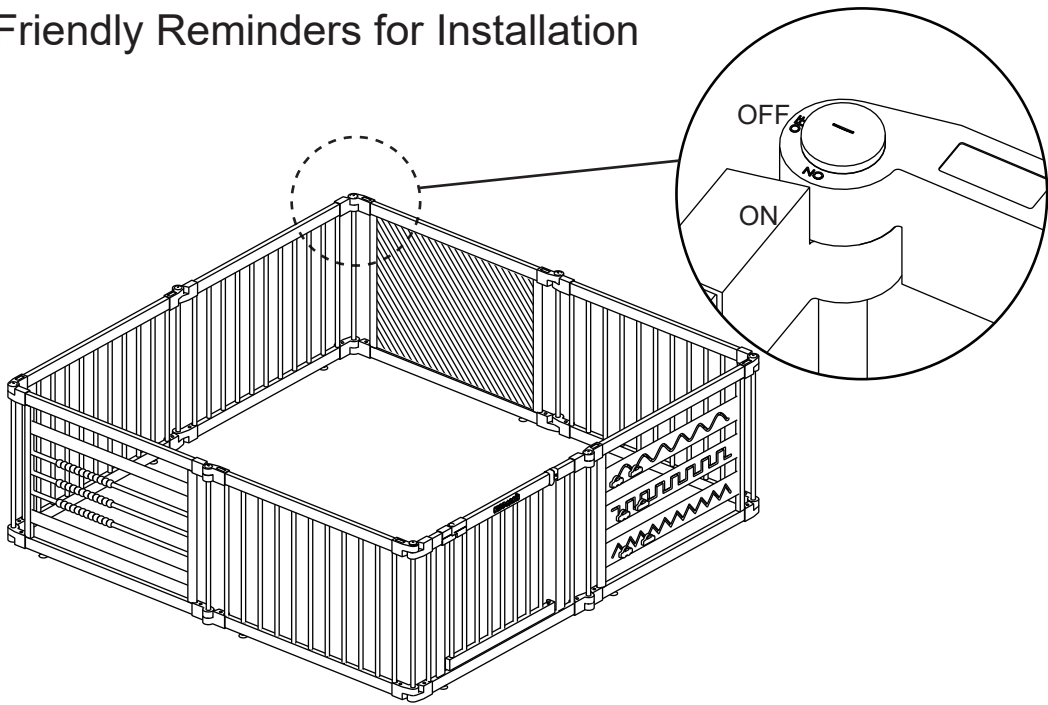

Notice: Install the plastic clips in alternating orientations (facing opposite directions) to allow the playard to fold for compact storage.

Additional Steps

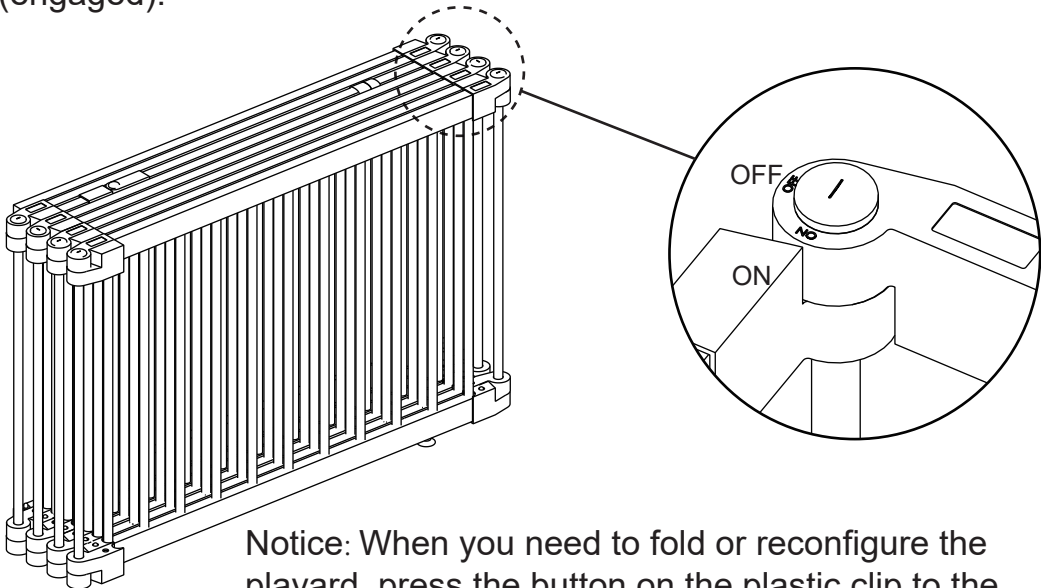

If you purchase two extra door panels that differ in size from the original ones, and you need to form a rectangular enclosure, then the two extra panels must be placed on opposite sides of the rectangle.

Friendly Reminders for Installation

Notice: Once the playard is fully assembled, press the button on the plastic clip to the "OFF" position. The clip will then be locked (engaged).

Notice: When you need to fold or reconfigure the playard, press the button on the plastic clip to the "ON" position. The clip will be unlocked and become adjustable.
