

SOLAR STEP LIGHTS

▶ PACKAGE INCLUDED

			
6 Pack	×6	×6	×1
12 Pack	×12	×12	×1
16 Pack	×16	×16	×1

▶ HOW TO ASSEMBLE LIGHT

1. Using screw for a long time.

① Remove isolator tab.

② Drilling.

③ Assemble expansion plastic screw.

④ Assemble screw 5-8mm.

⑤ Hung up light.

2. Using 3M mounting tape for short time.

▶ OPERATIONAL INSTRUCTIONS

How to use

- Before the first use, turn the switch on and allow the light to charge for a minimum of 8-12 hours. Charging it fully will optimize its performance.
- The light is designed to turn on automatically at dusk and turn off at dawn. It will function seamlessly, providing illumination when needed.

How to replace the battery

- If you need to replace the battery, kindly adhere to the following instructions:
- Locate the switch underneath the solar panel and turn it to the OFF position.
- Carefully remove the old battery and ensure proper recycling or disposal.
- Install a new battery of the same type. (Check the battery type in the Specification form)

Note: The screws need to be removed before removing the battery, so it is not recommended to replace the battery.

▶ SPECIFICATIONS

Product Type	Step Light
Design	Classic
Fixture Color	Silver
Material	PP & Stainless Steel
Light Color	Warm White/Cool White
Package Quantity	6 / 12 / 16
Number of Light Sources	4 LEDs Per Item
Power Source	Solar Powered
Light Output	8 Lumens
Light Duration	10-12 Hours
Charging Time	5-6 Hours
Rechargeable Batteries	1*1.2 Volts, 600 Mah, NiMH AAA Batties Required. (Included)
Ingress Protection Ratings	IP 44

▶ TROUBLESHOOTING

Problem	Solution
<ul style="list-style-type: none"> · The lights are not turning on in the evening. · The nightly runtime is shorter than expected. · The lights appear dim. · The lights are flickering. 	<ul style="list-style-type: none"> · If applicable, ensure that the switch is in the ON position. · Clean the solar panel to remove any dirt or debris. · Make sure there are no objects or shadows obstructing sunlight from reaching the solar panel. · Keep the lights away from any other direct light sources. · If applicable, toggle the switch back and forth several times. · If applicable, place the light bulb facing upwards and gently tap it on a tabletop. · If needed, reinstall or replace the battery using appropriate methods (e.g., unscrewing).

▶ CAUTIONS

Placement

- Choose an outdoor location for the solar panel that receives a minimum of 8 hours of direct sunlight each day.
- The amount of sunlight the solar panel receives will vary based on factors such as geographical location, weather conditions, and seasonal light availability.
- Avoid placing the solar light near bright light sources, such as street lights or lamp posts, as this may cause the light to turn off automatically.
- Avoid pressing the solar panel with your hands or heavy objects.

Safety

- It is important not to throw batteries in domestic garbage or dispose of them in a fire. Batteries contain hazardous materials and should be recycled.
- Do not use solar light in high temperatures or corrosive environments.
- The packaging of the product contains small parts that could be swallowed by children. Please keep it away from children and pets.

Warranty

- Products are covered by a 6-month warranty.

▶ MAINTENANCE INSTRUCTIONS

It is essential to keep the solar panel clean and free of dirt and debris. If the solar panel becomes dirty, it will hinder the battery from fully charging, resulting in shorter battery life and potential light malfunction. We recommend regularly cleaning the solar panel with a dampened cloth or paper towel.

If you prefer to store your lights indoors, it is advisable to remove the battery if there is no waterproof adhesive tape on it. This will help maintain the battery's longevity.
