Parts List

Part #	Description	Quantity	Part #	Description	Quantity
A	Head Up Heron Body	1	X1	Flat Head Screws	8
B	Head Down Heron Body	1	X2	Long Screws	4
C	Right Leg	2	Y1	Washer	4
D	Left Leg	2	Y2	Nut	4
E	Base	1			

Friendly Reminders

- * During assembly, place the empty carton beneath the casting parts to protect the finish from damage
- * Do not over-tighten! Aluminum is a soft metal, insert screws carefully and don't over-tighten.
- * HOUSEHOLD TOOLS REQUIRED:
Adjustable wrench and Philips screwdriver

1. Lay Heron body on the ground, starting with one Heron body. Place left leg and screw onto the heron's "Thigh" by using X1 flat head screws. Proceed to next leg. Follow same instructions for the second bird. Tighten all screws.

2. After both herons have been assembled, lift one heron and place the legs on base. Screw the first leg onto the base with X2 long screw, Y1 washer and Y2 nut, but not too tightly yet. Then screw the other leg, once secure, tighten all screws. Continue with second bird with same procedure.

Special Notes

This statue is made with an old world, traditional hand-crafted look. Because of the nature of cast iron or aluminum, you may find roughness on the surface of the design. Slight pinholes are also present in the metal casting that is customary to hand-crafted original iron work. These irregularities enhance the individuality of the piece. They should not be considered defects.

Care and Maintenance

1. Should the finish get scratched down to the metal surface, cover the scratched area with enamel paint as soon as possible to keep the best condition.
2. Cleaning - Use mild soap and water. Do not use harsh abrasive material, cleansers or bleach products. Rinse with clean water and dry thoroughly with rags or direct sunlight.
3. Periodically check and tighten all bolts.
