

POOL TABLE ASSEMBLY INSTRUCTIONS

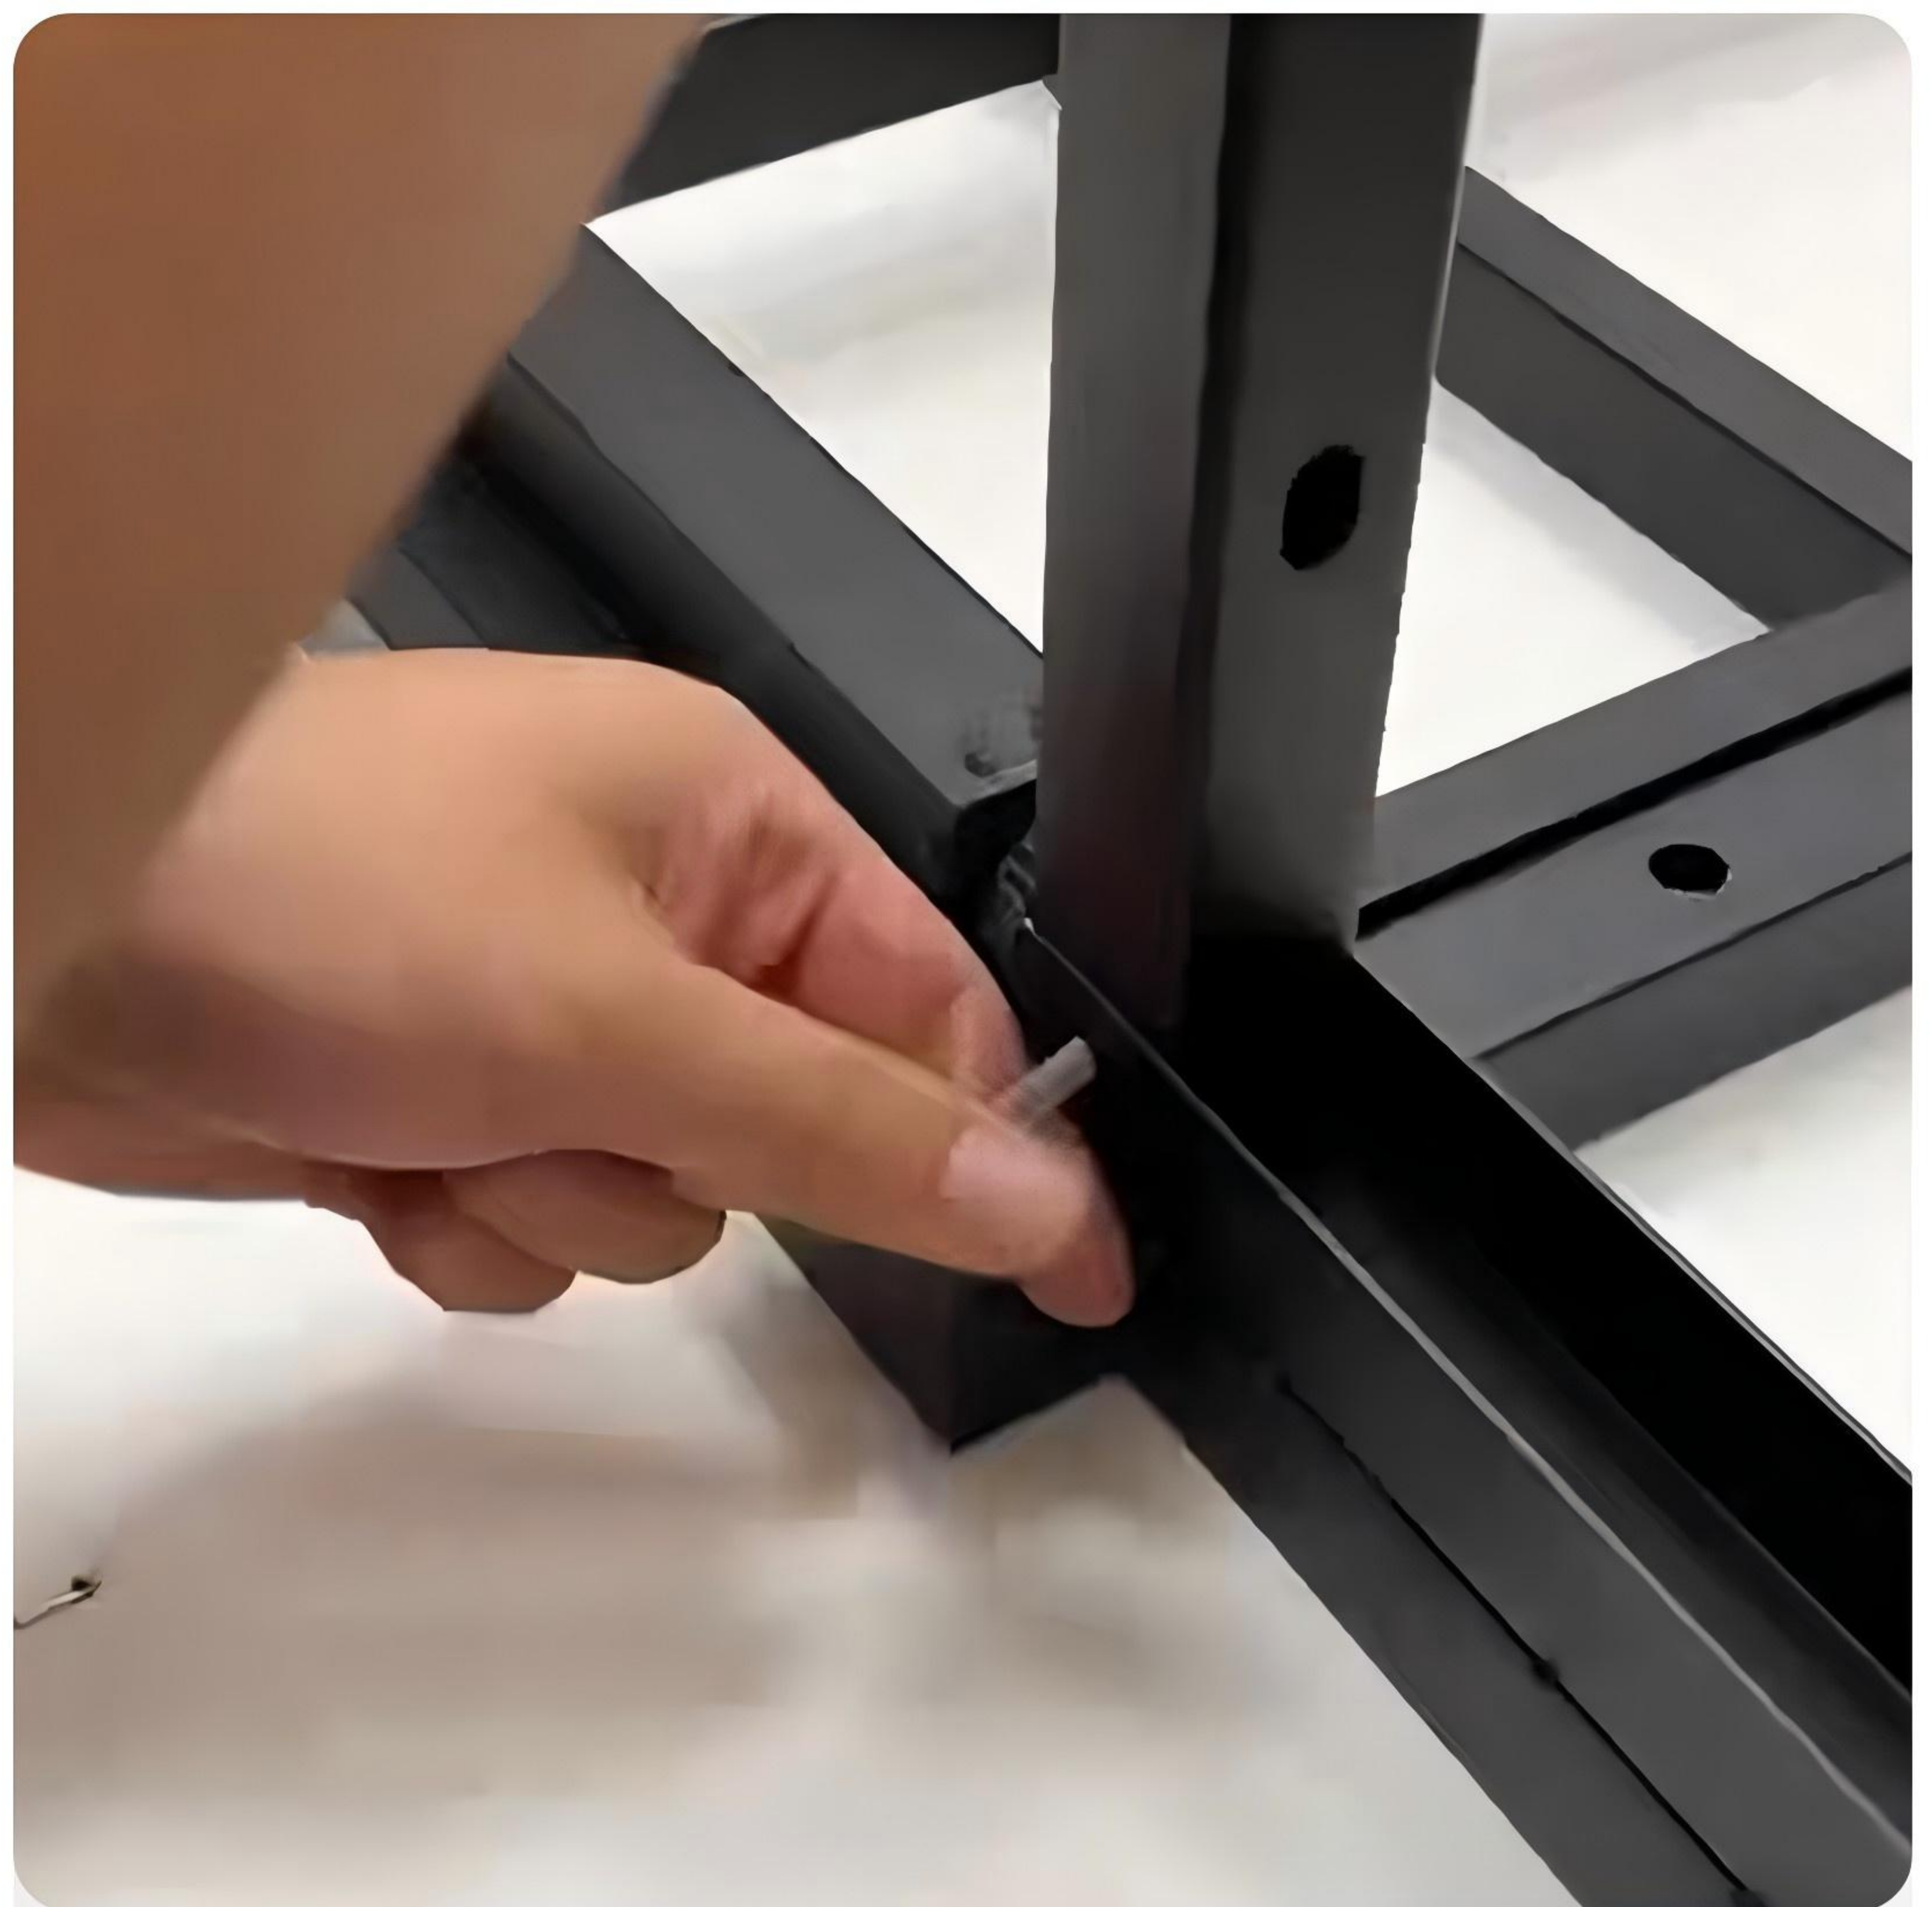

Unpack the package and first place the two triangular brackets, one rectangular bracket, and the fittings to one side.

Step 1: Take one triangular bracket, place it in the installation position shown in the diagram, and align it with the pre-drilled holes.

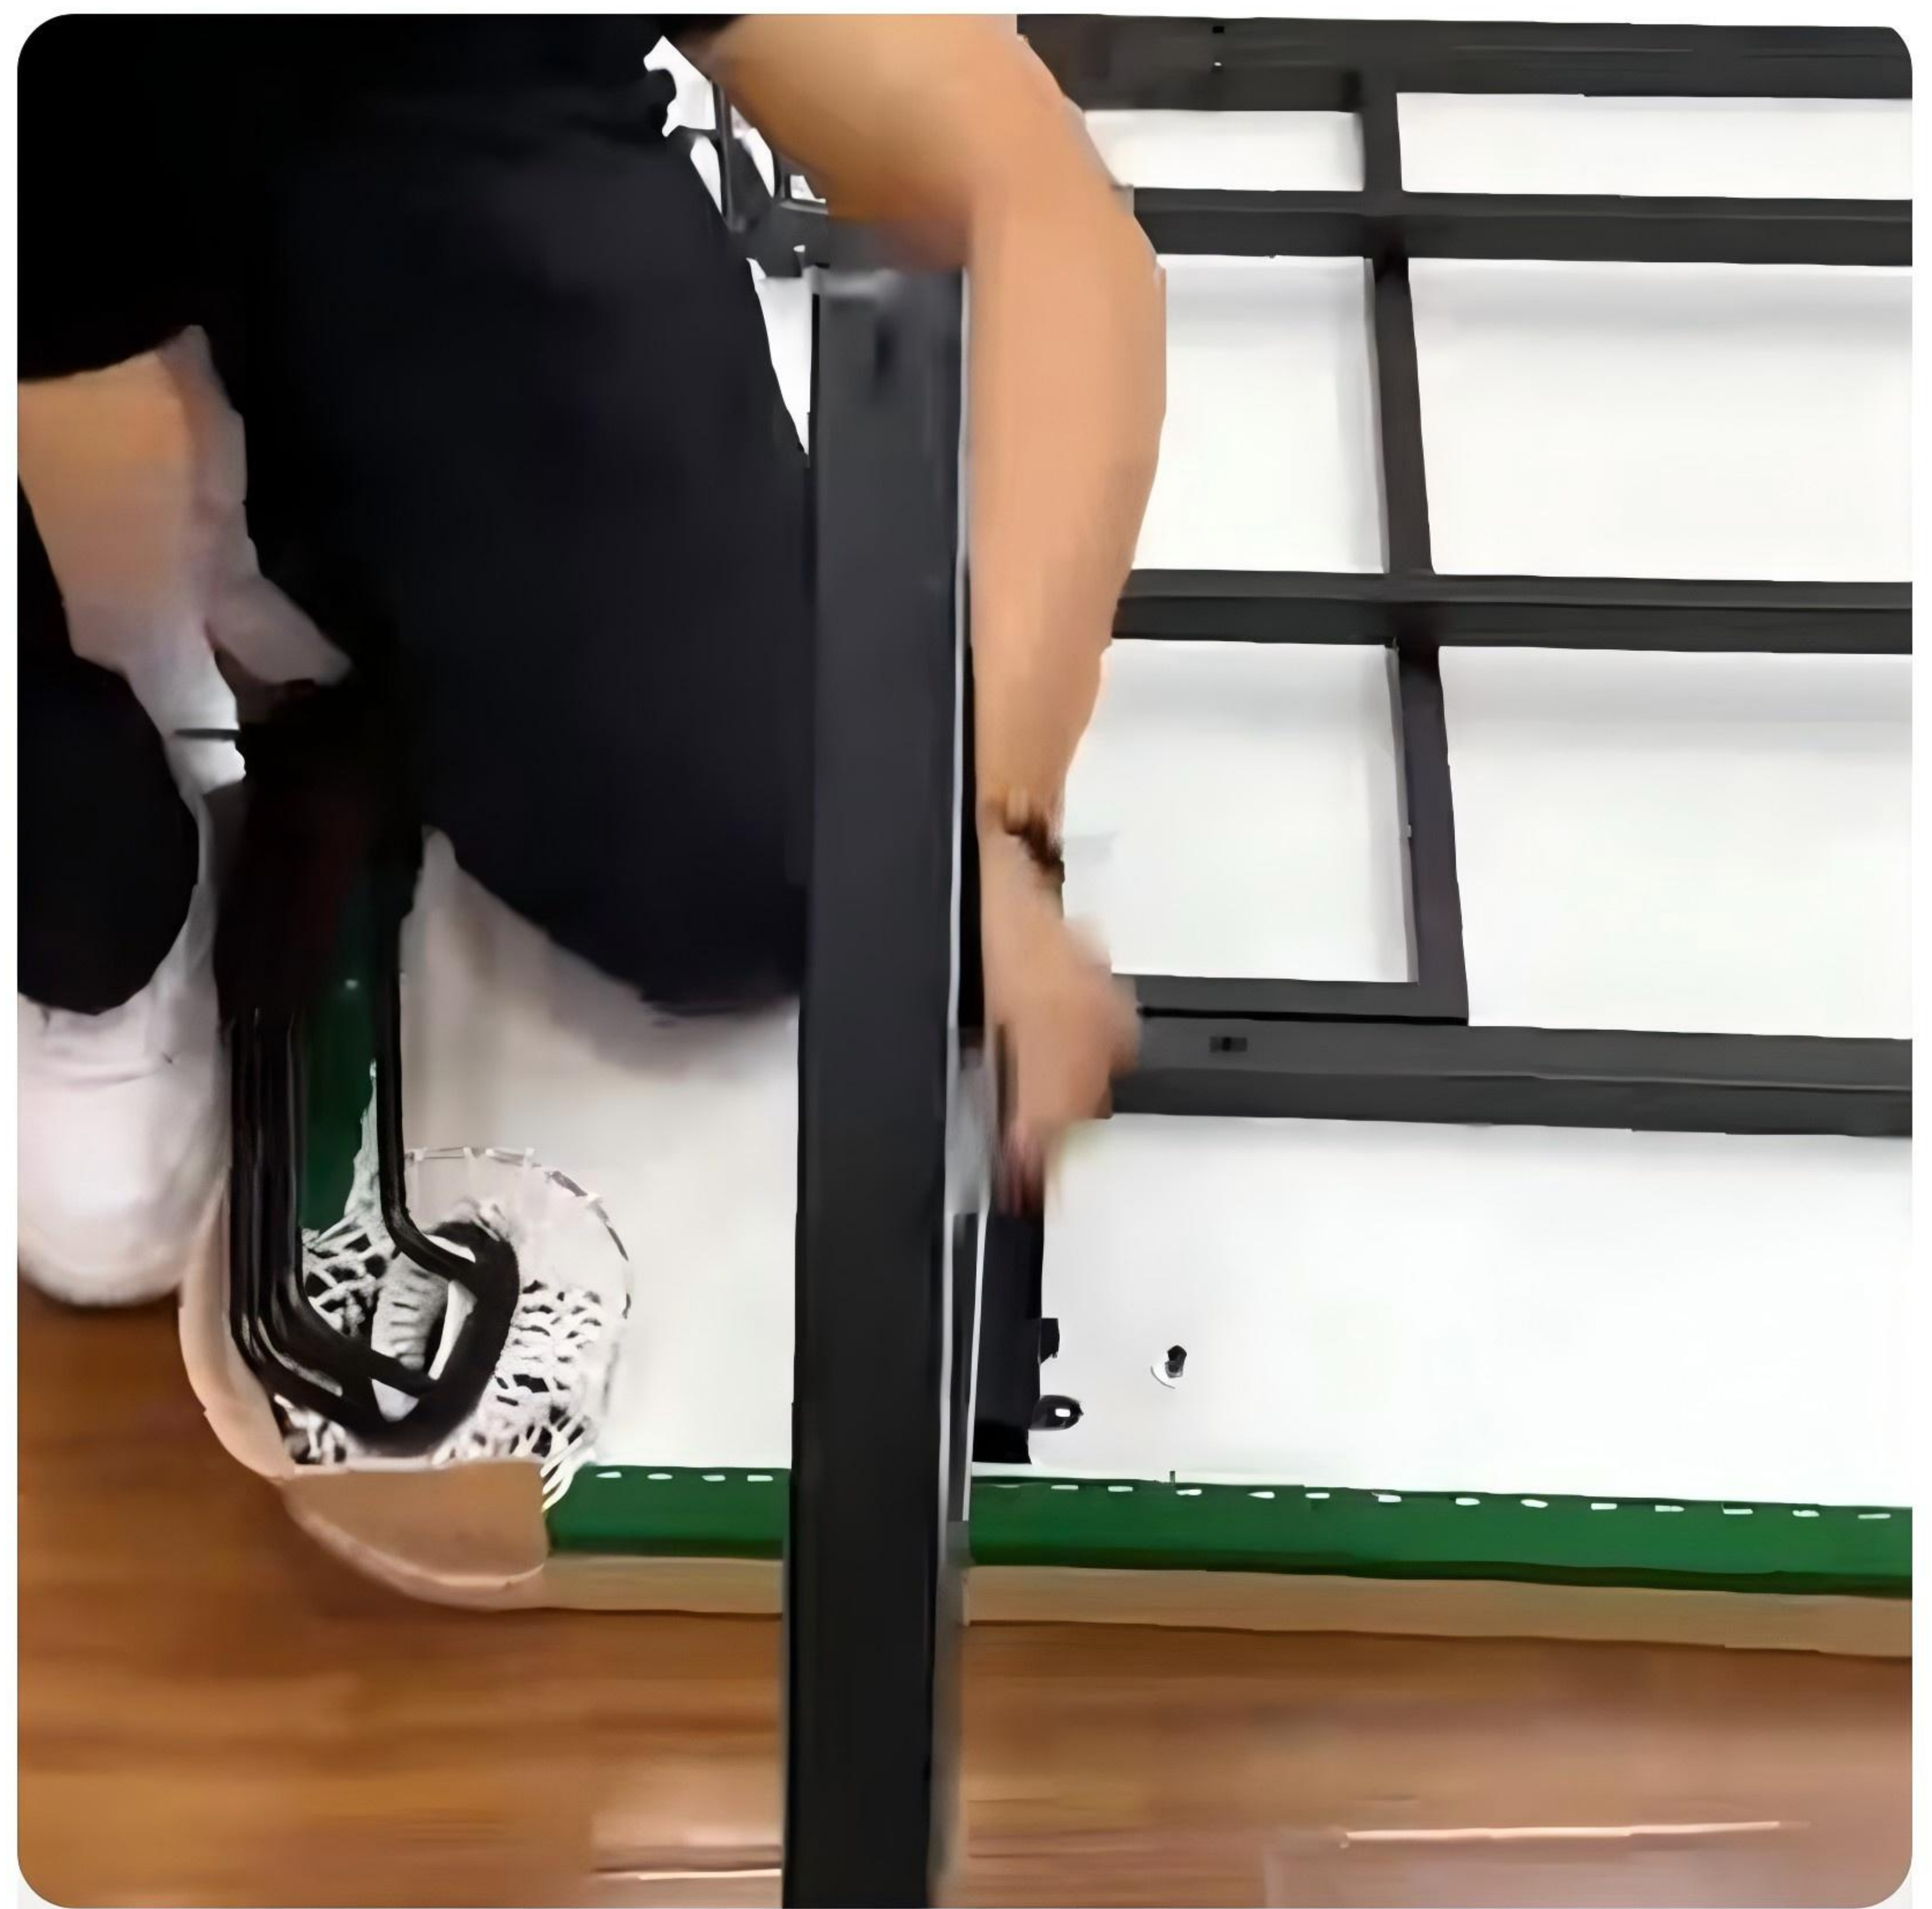

Then, find the screw shown in the video/diagram.

Separate the screw and the nut, and insert it into the hole of the assembly you just put together.

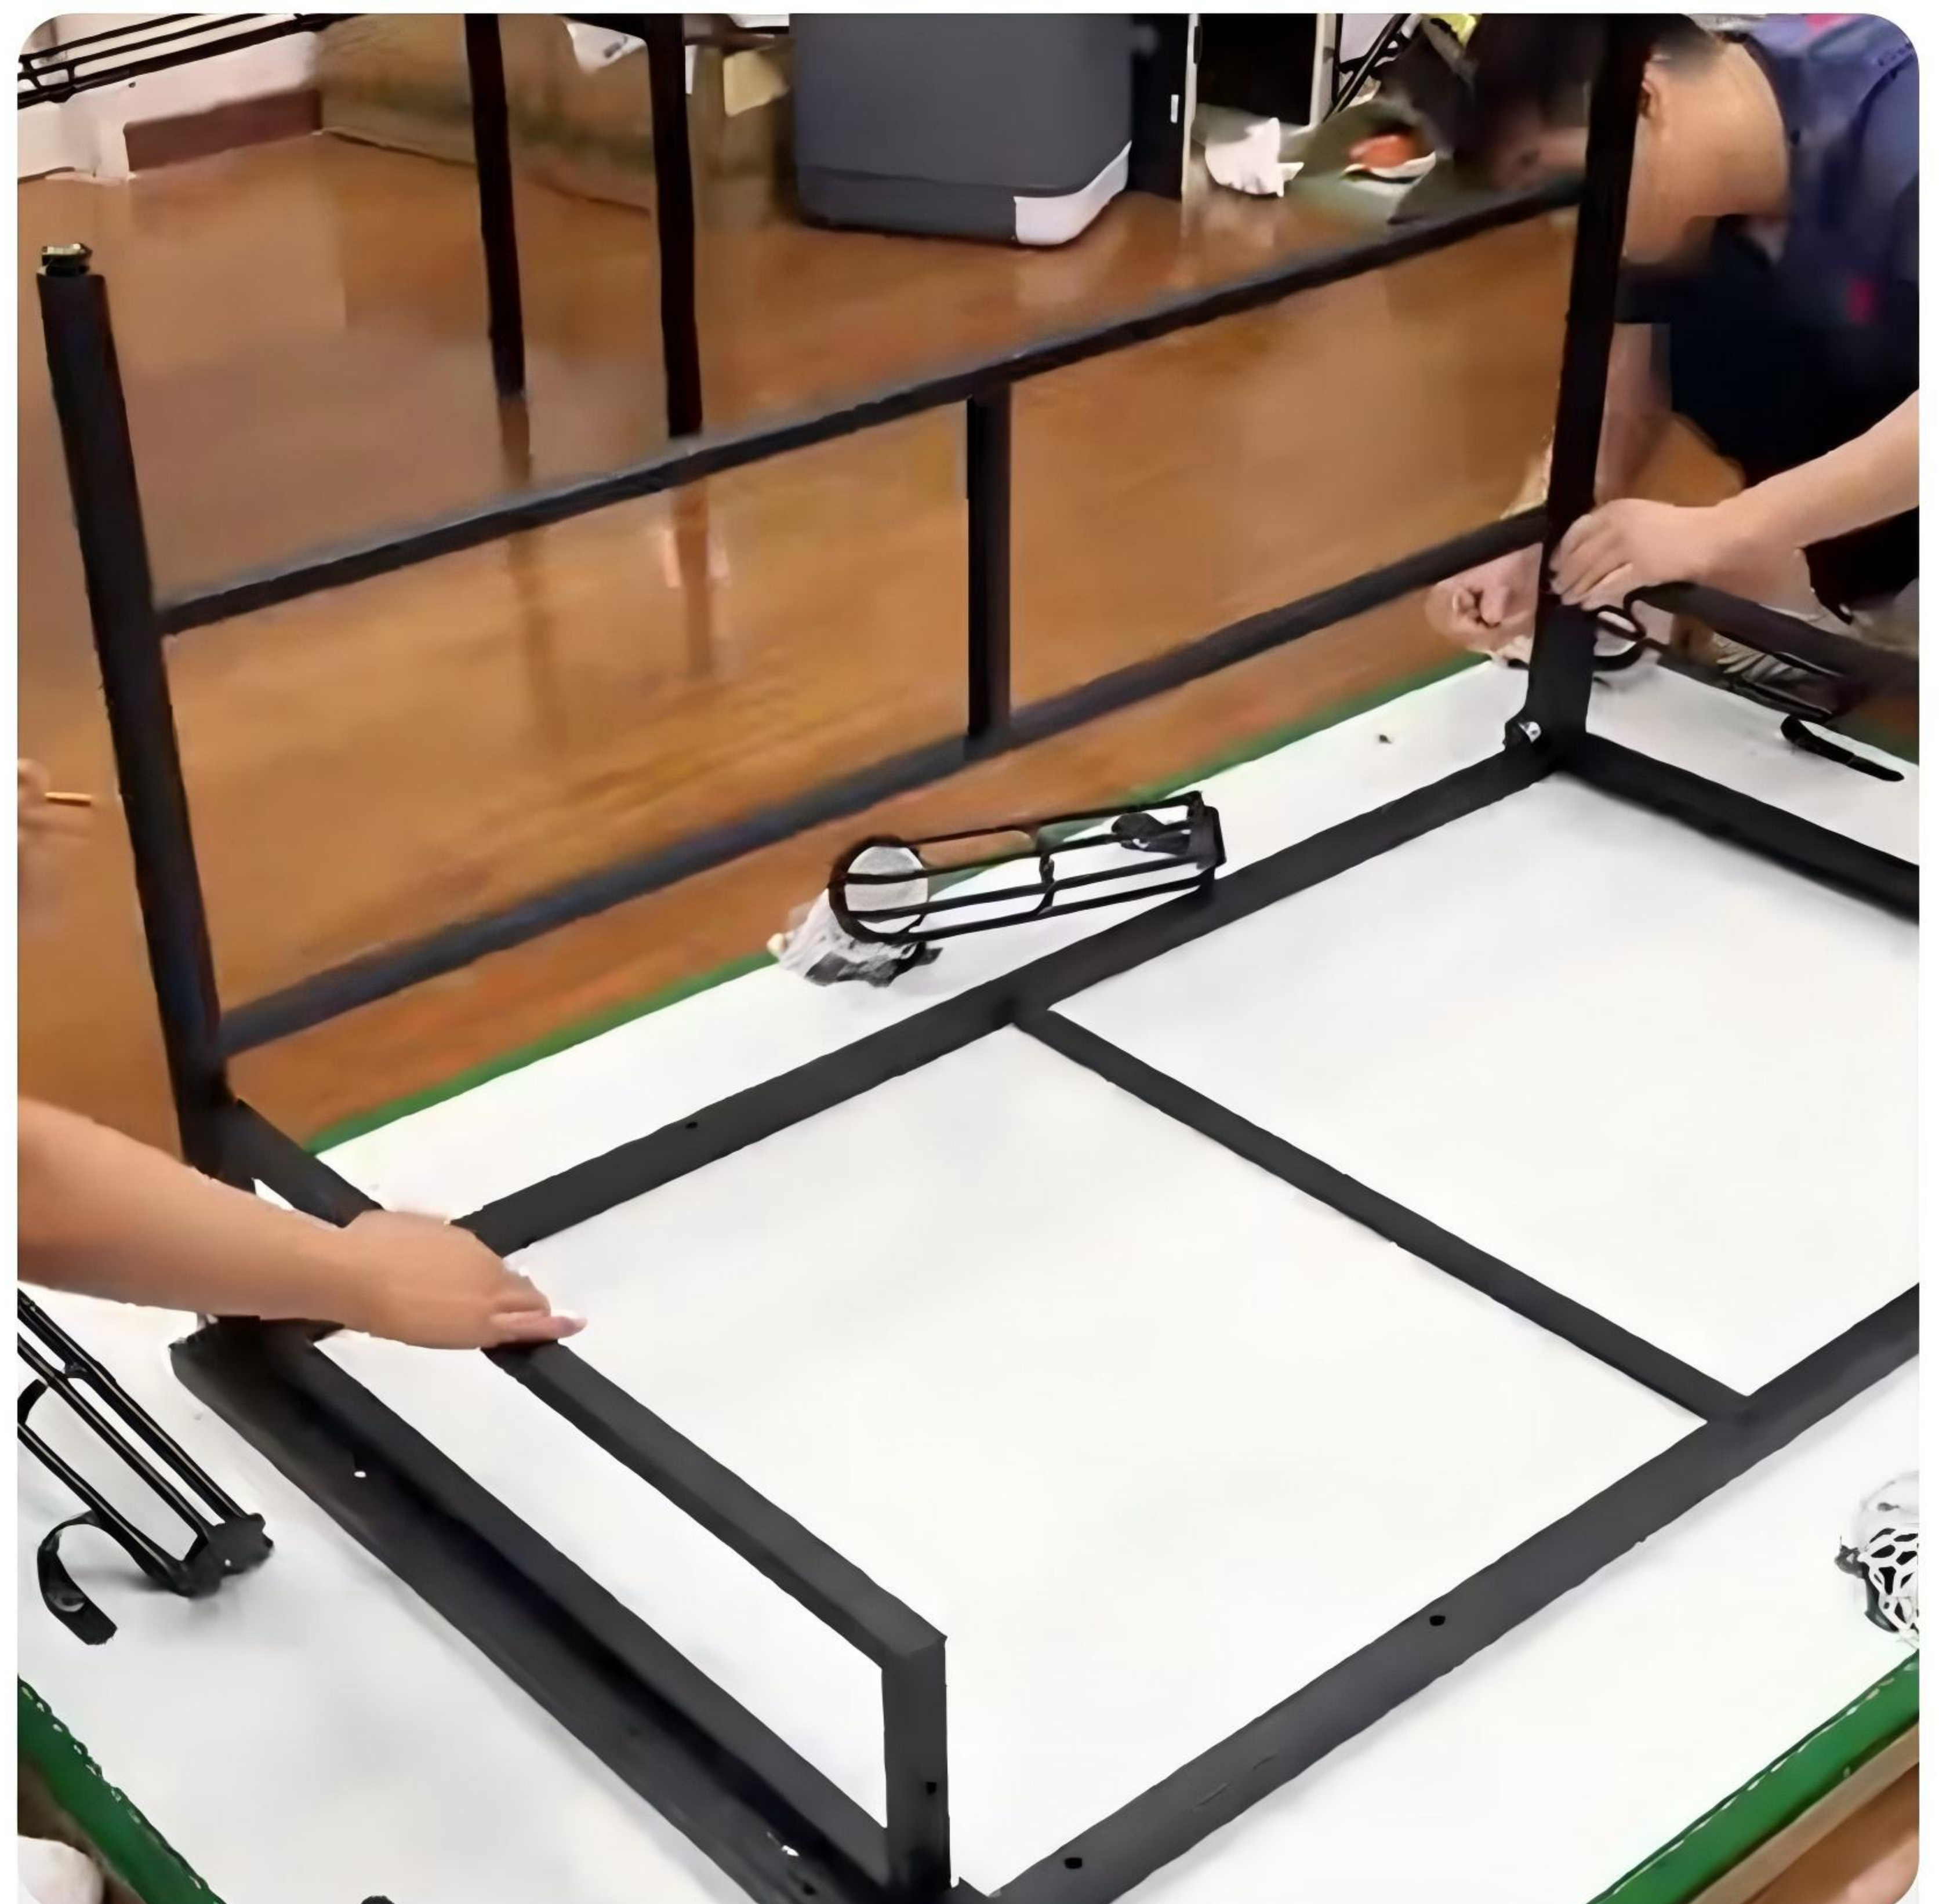

Tighten the nut to secure it.

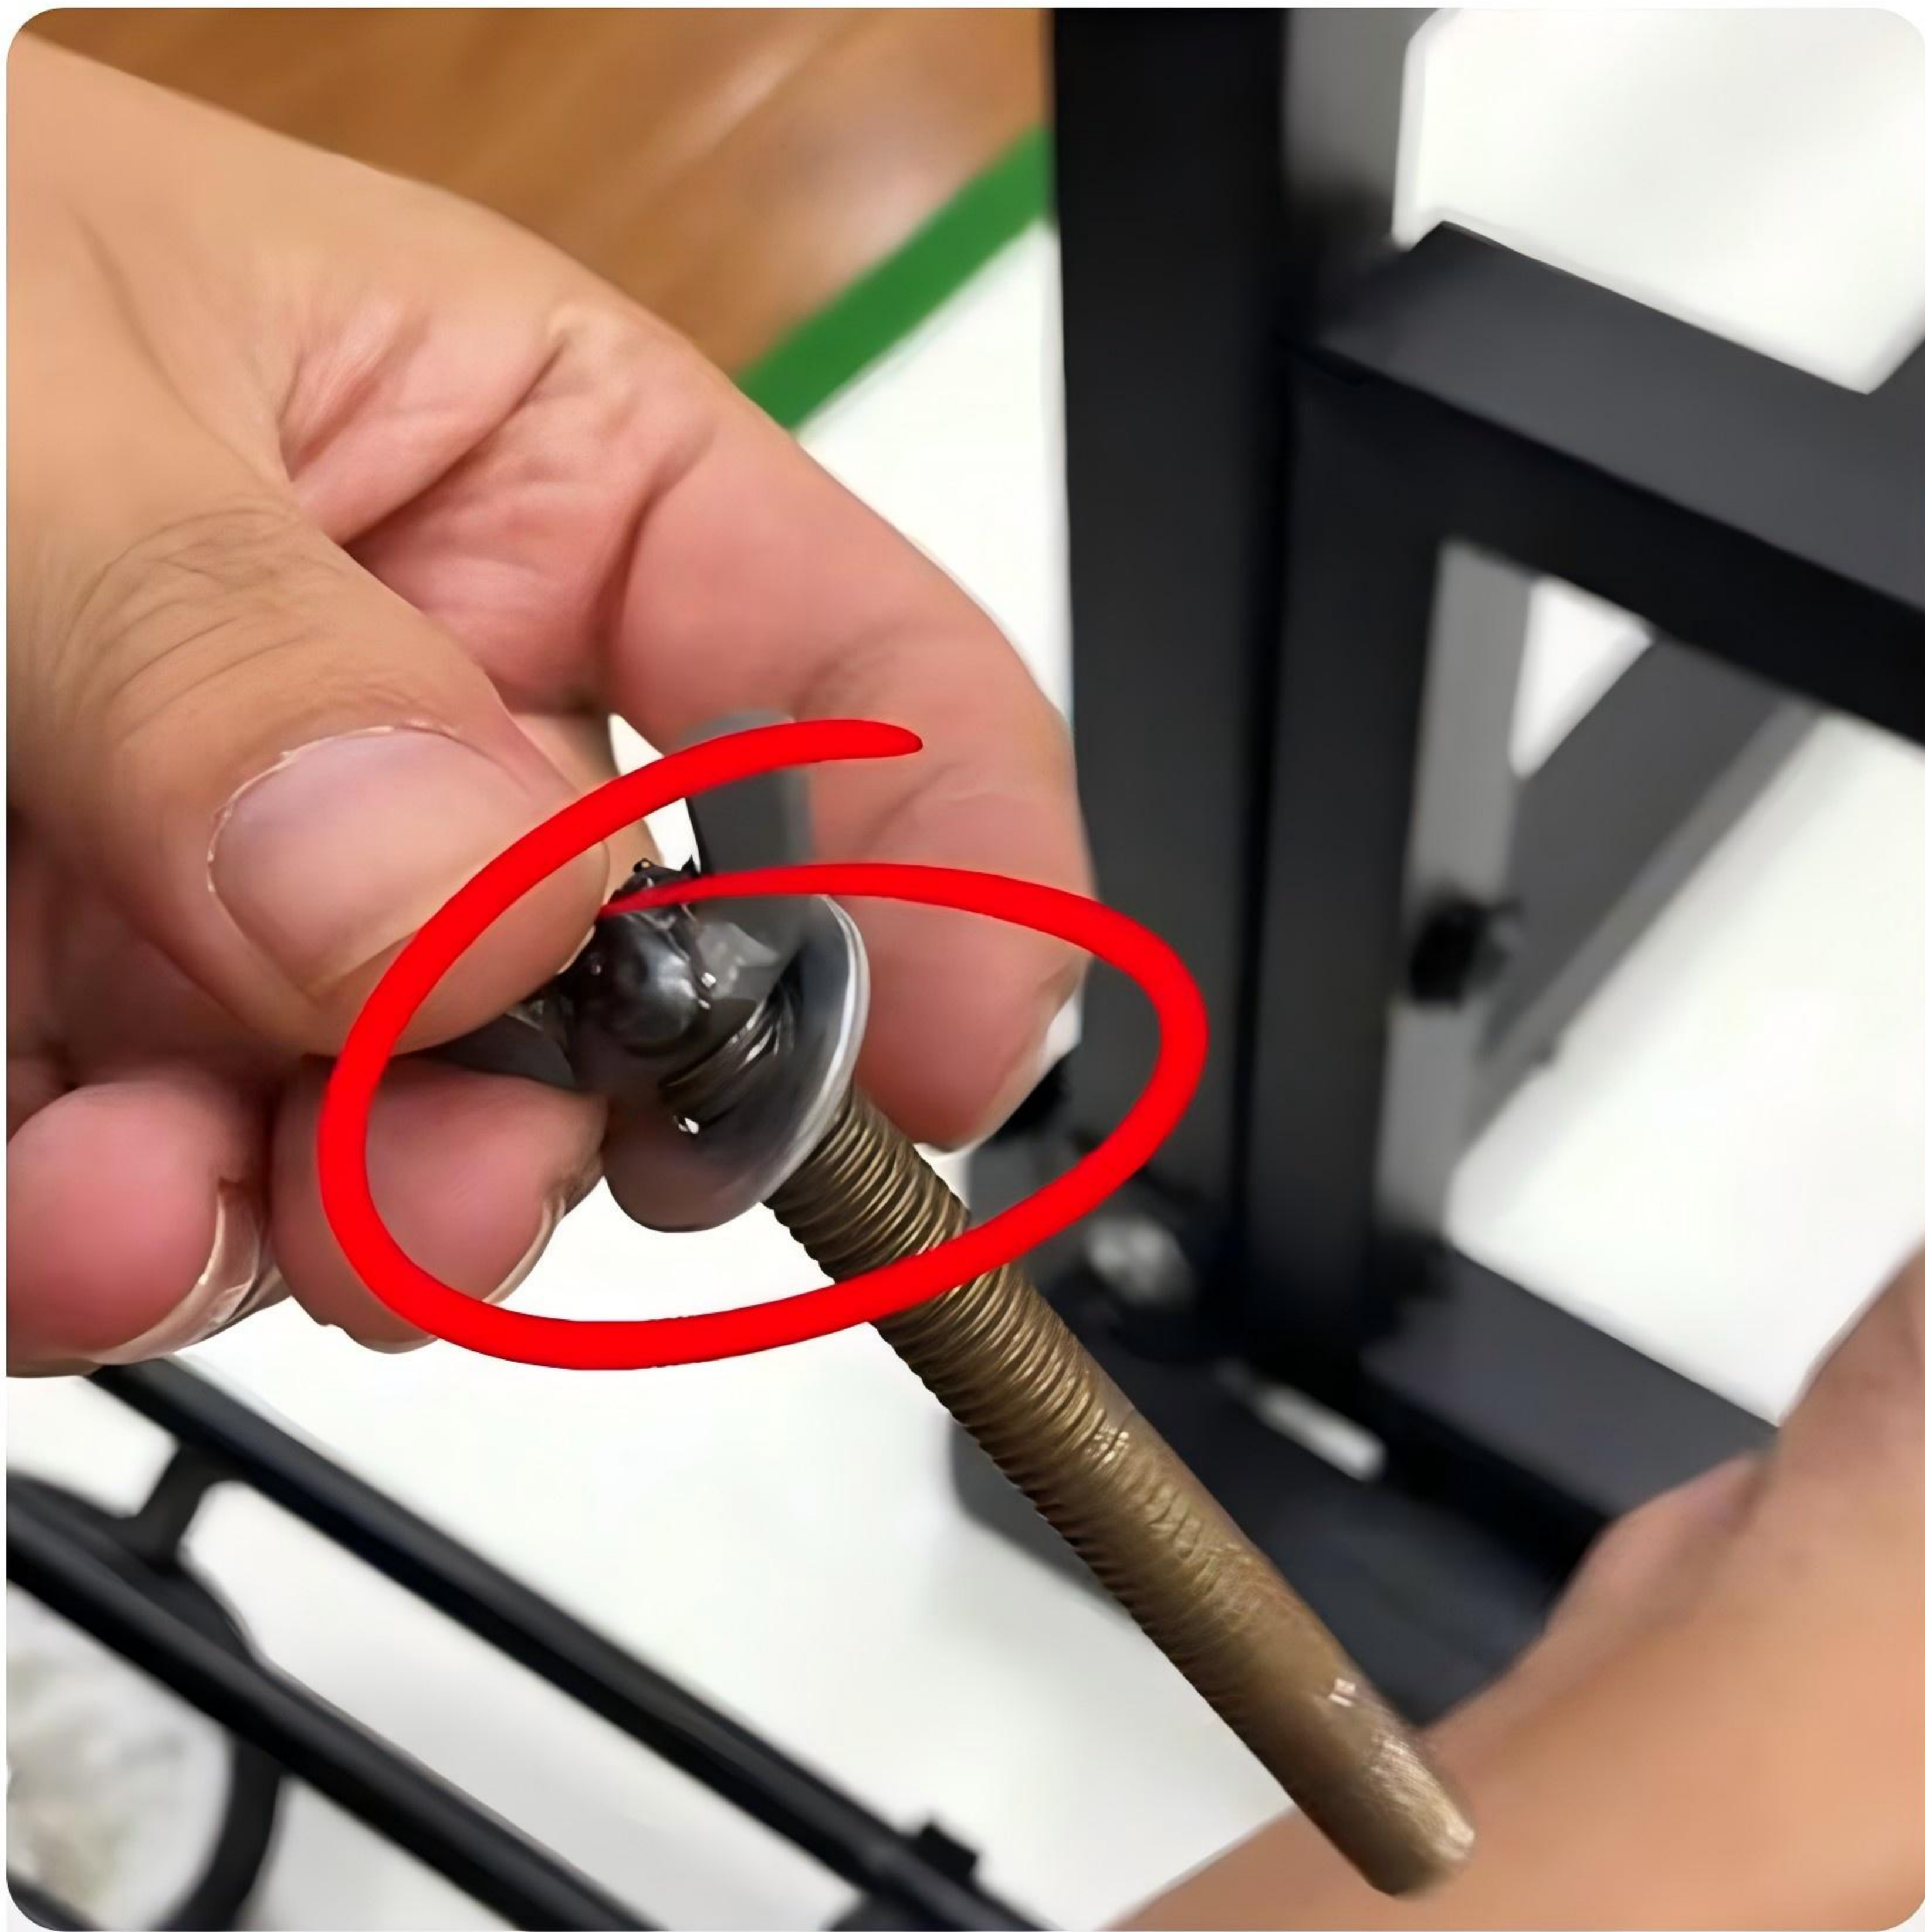

With the bracket installed, it becomes articulated

Install the other side following the same procedure.

Step 2: First, unfold the other folding leg and the two side rails. Then, align their pre-drilled holes with the corresponding points, as shown in the diagram.

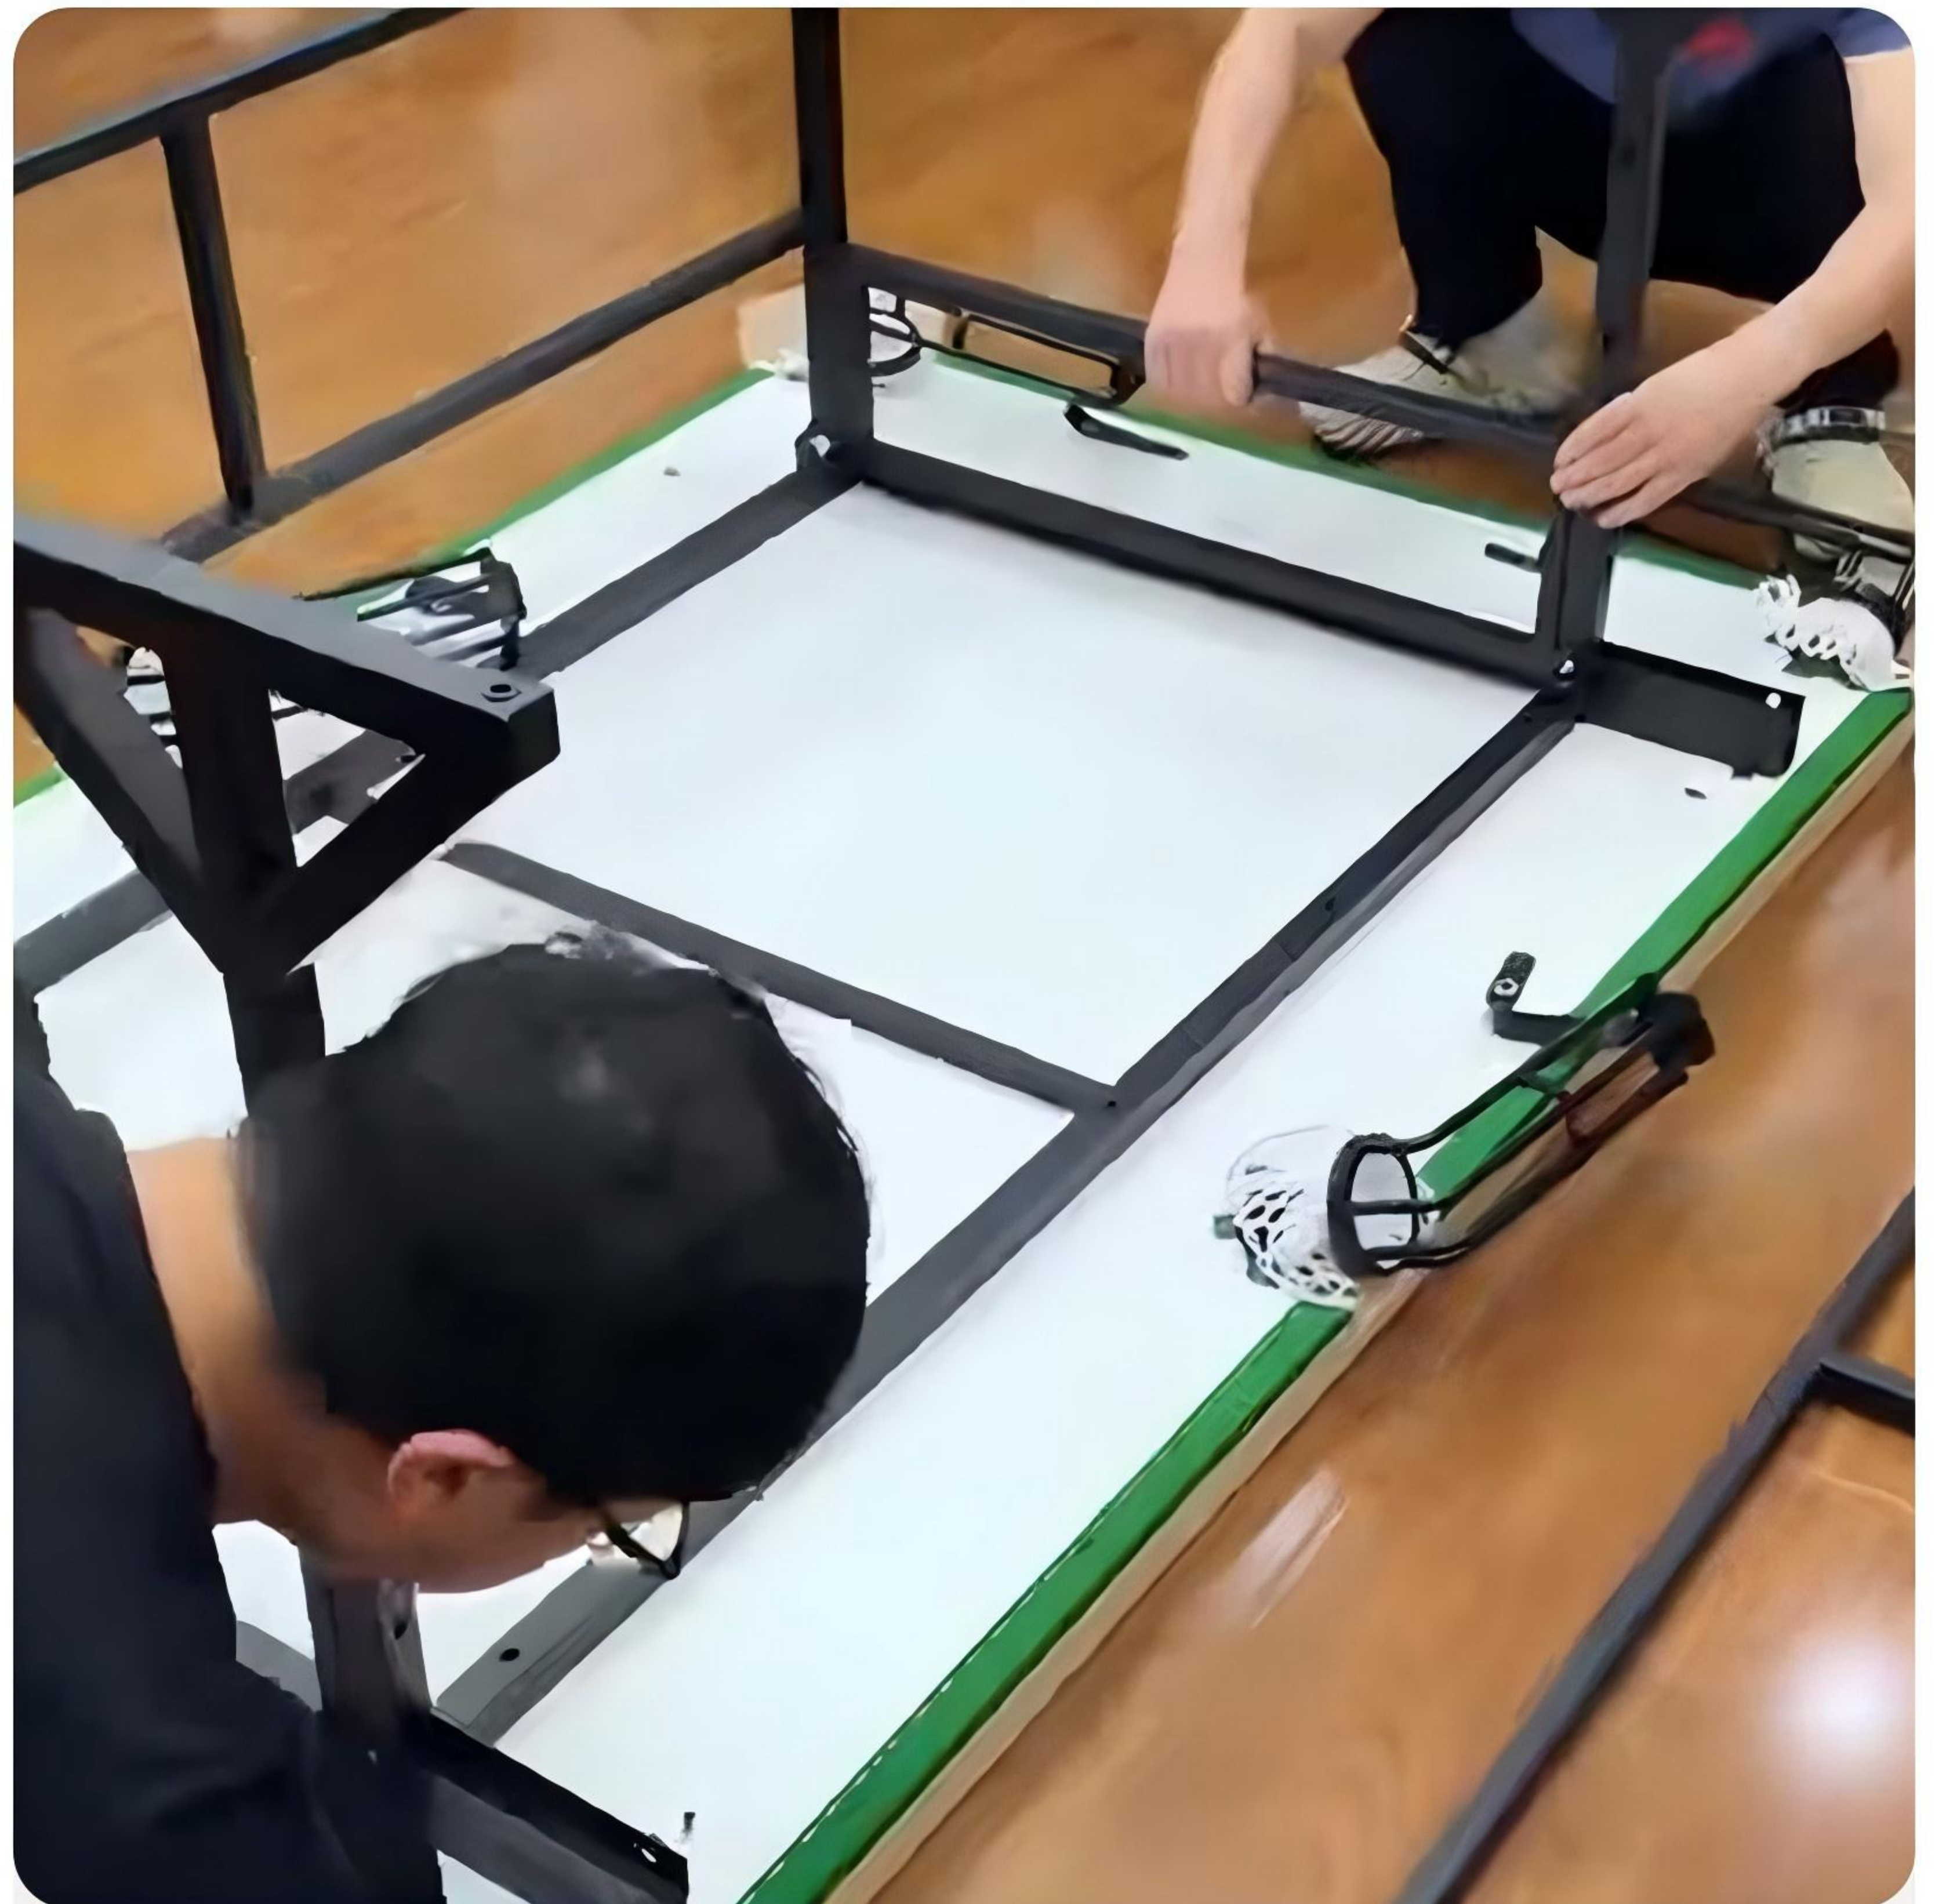

Locate the screw(s) shown and fit the washer(s) onto them.

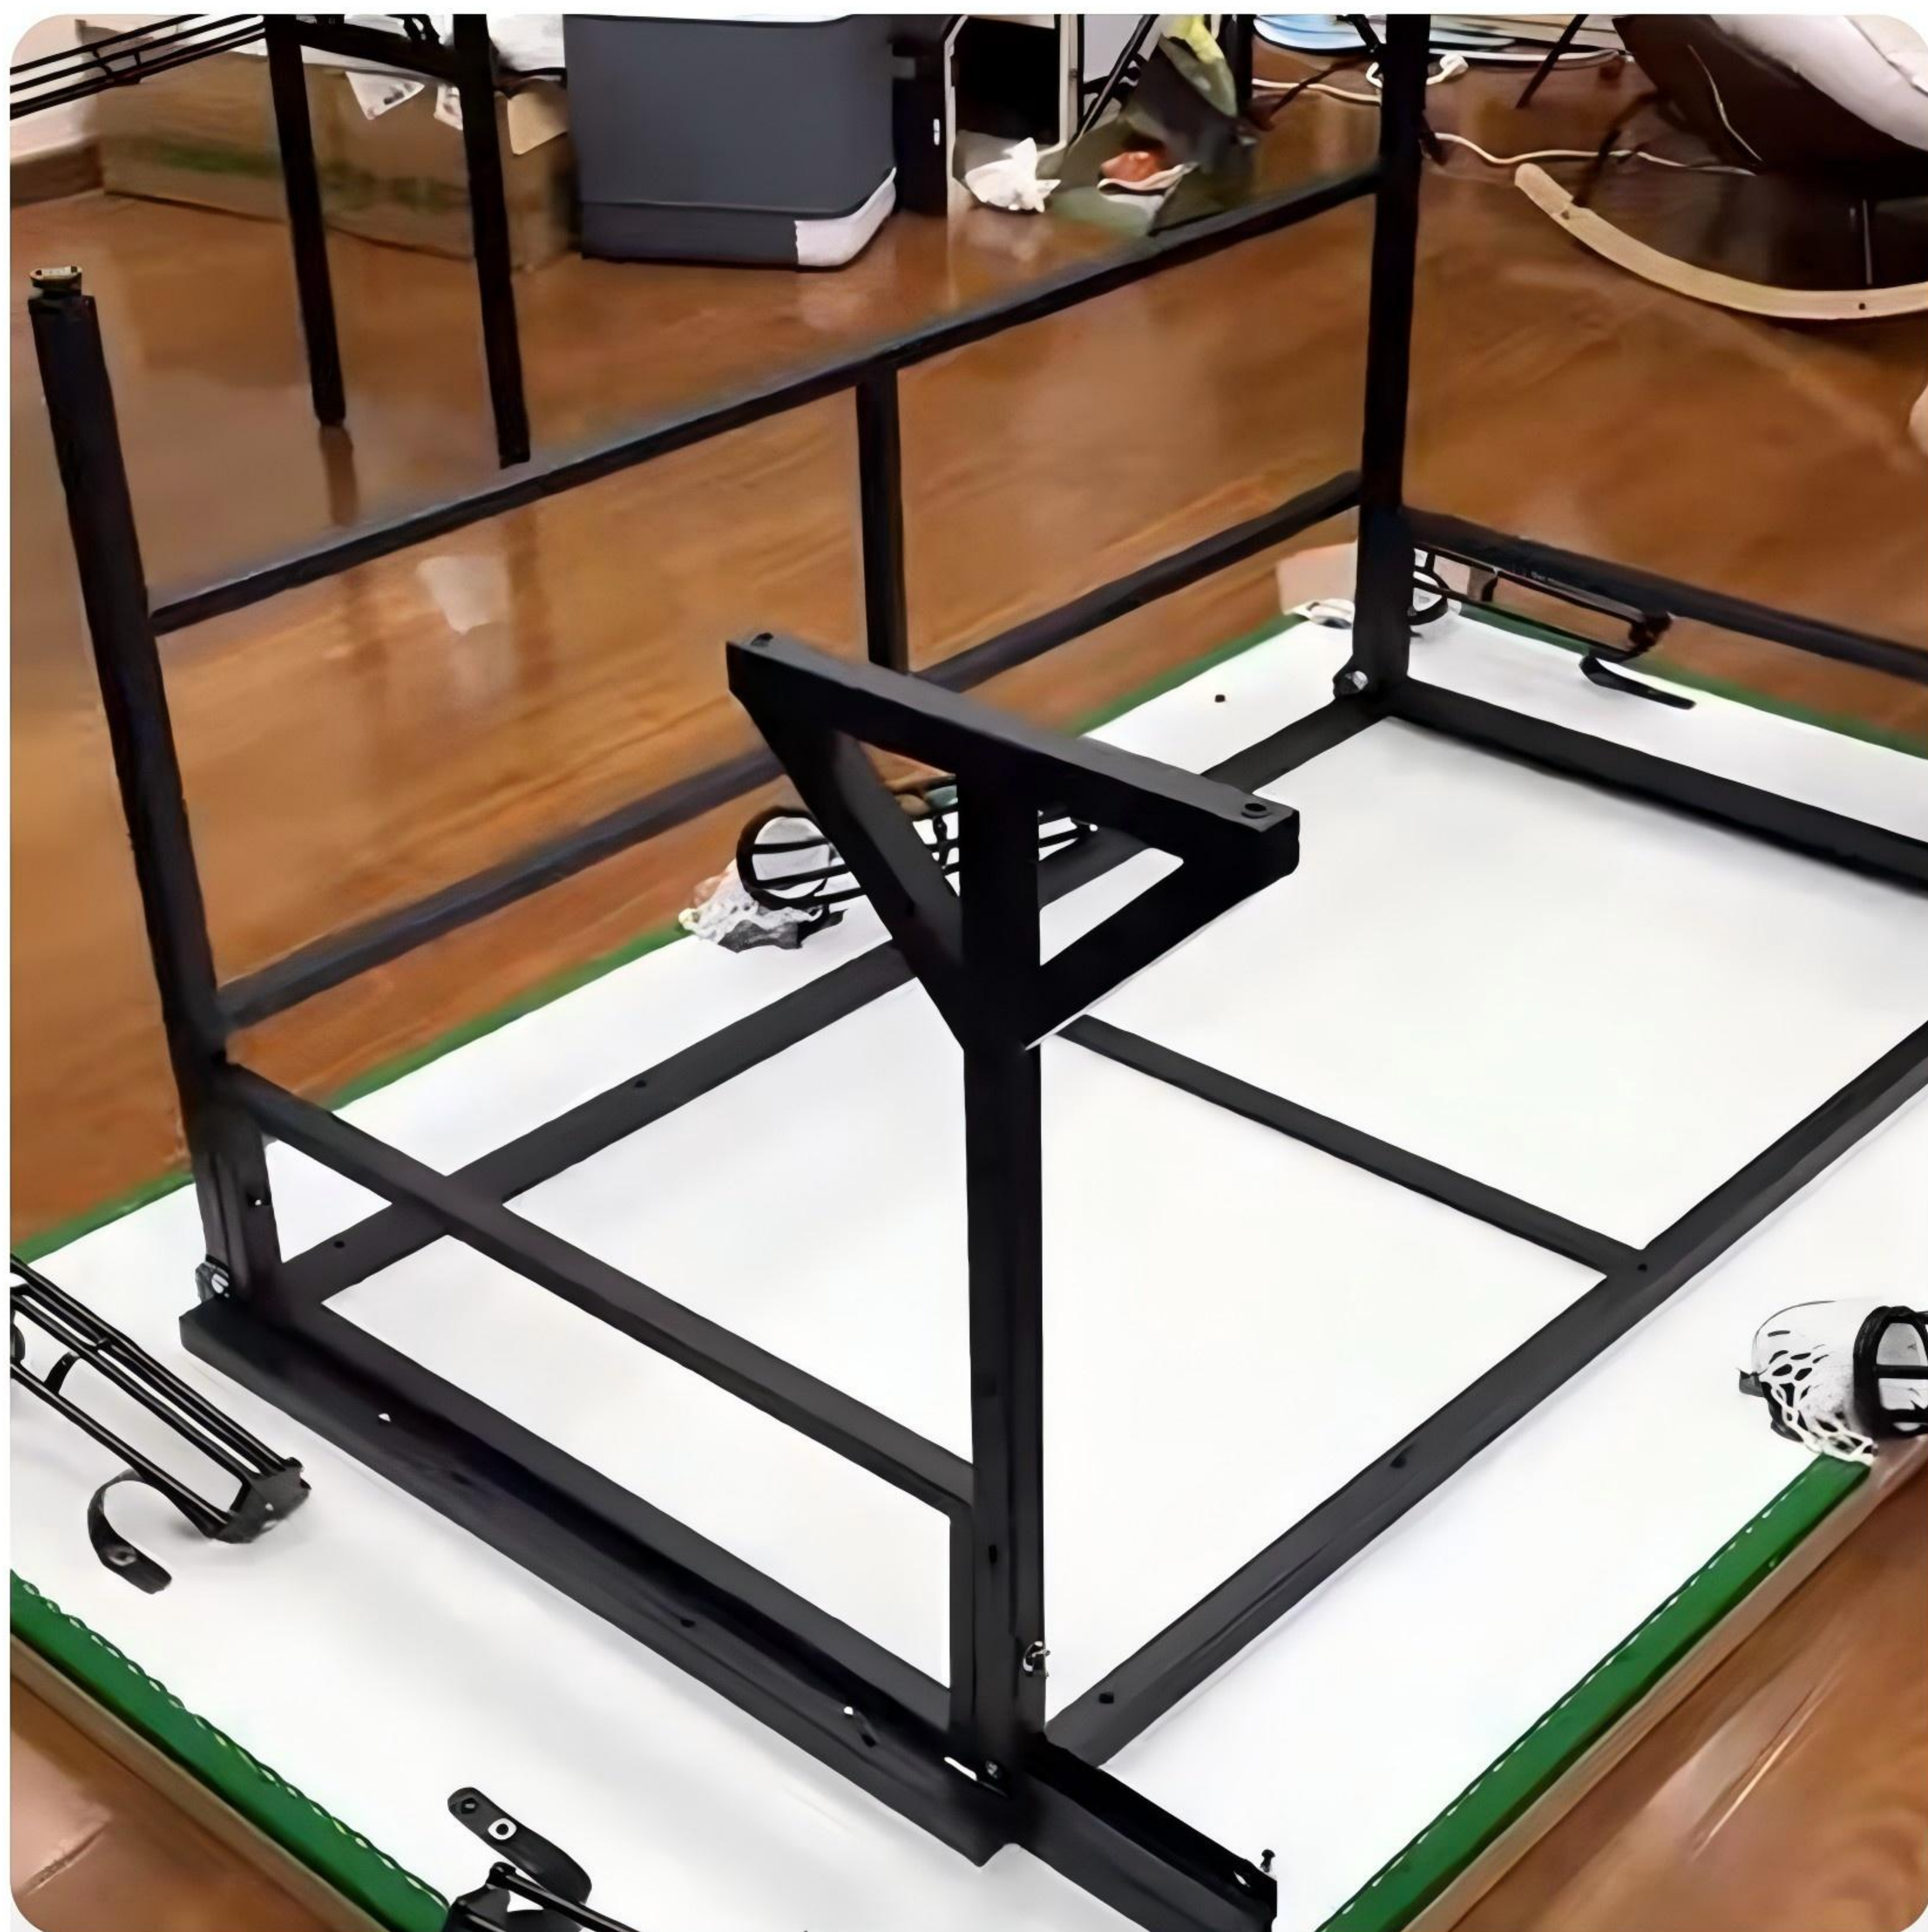

Insert the screw into the hole and tighten it to secure.

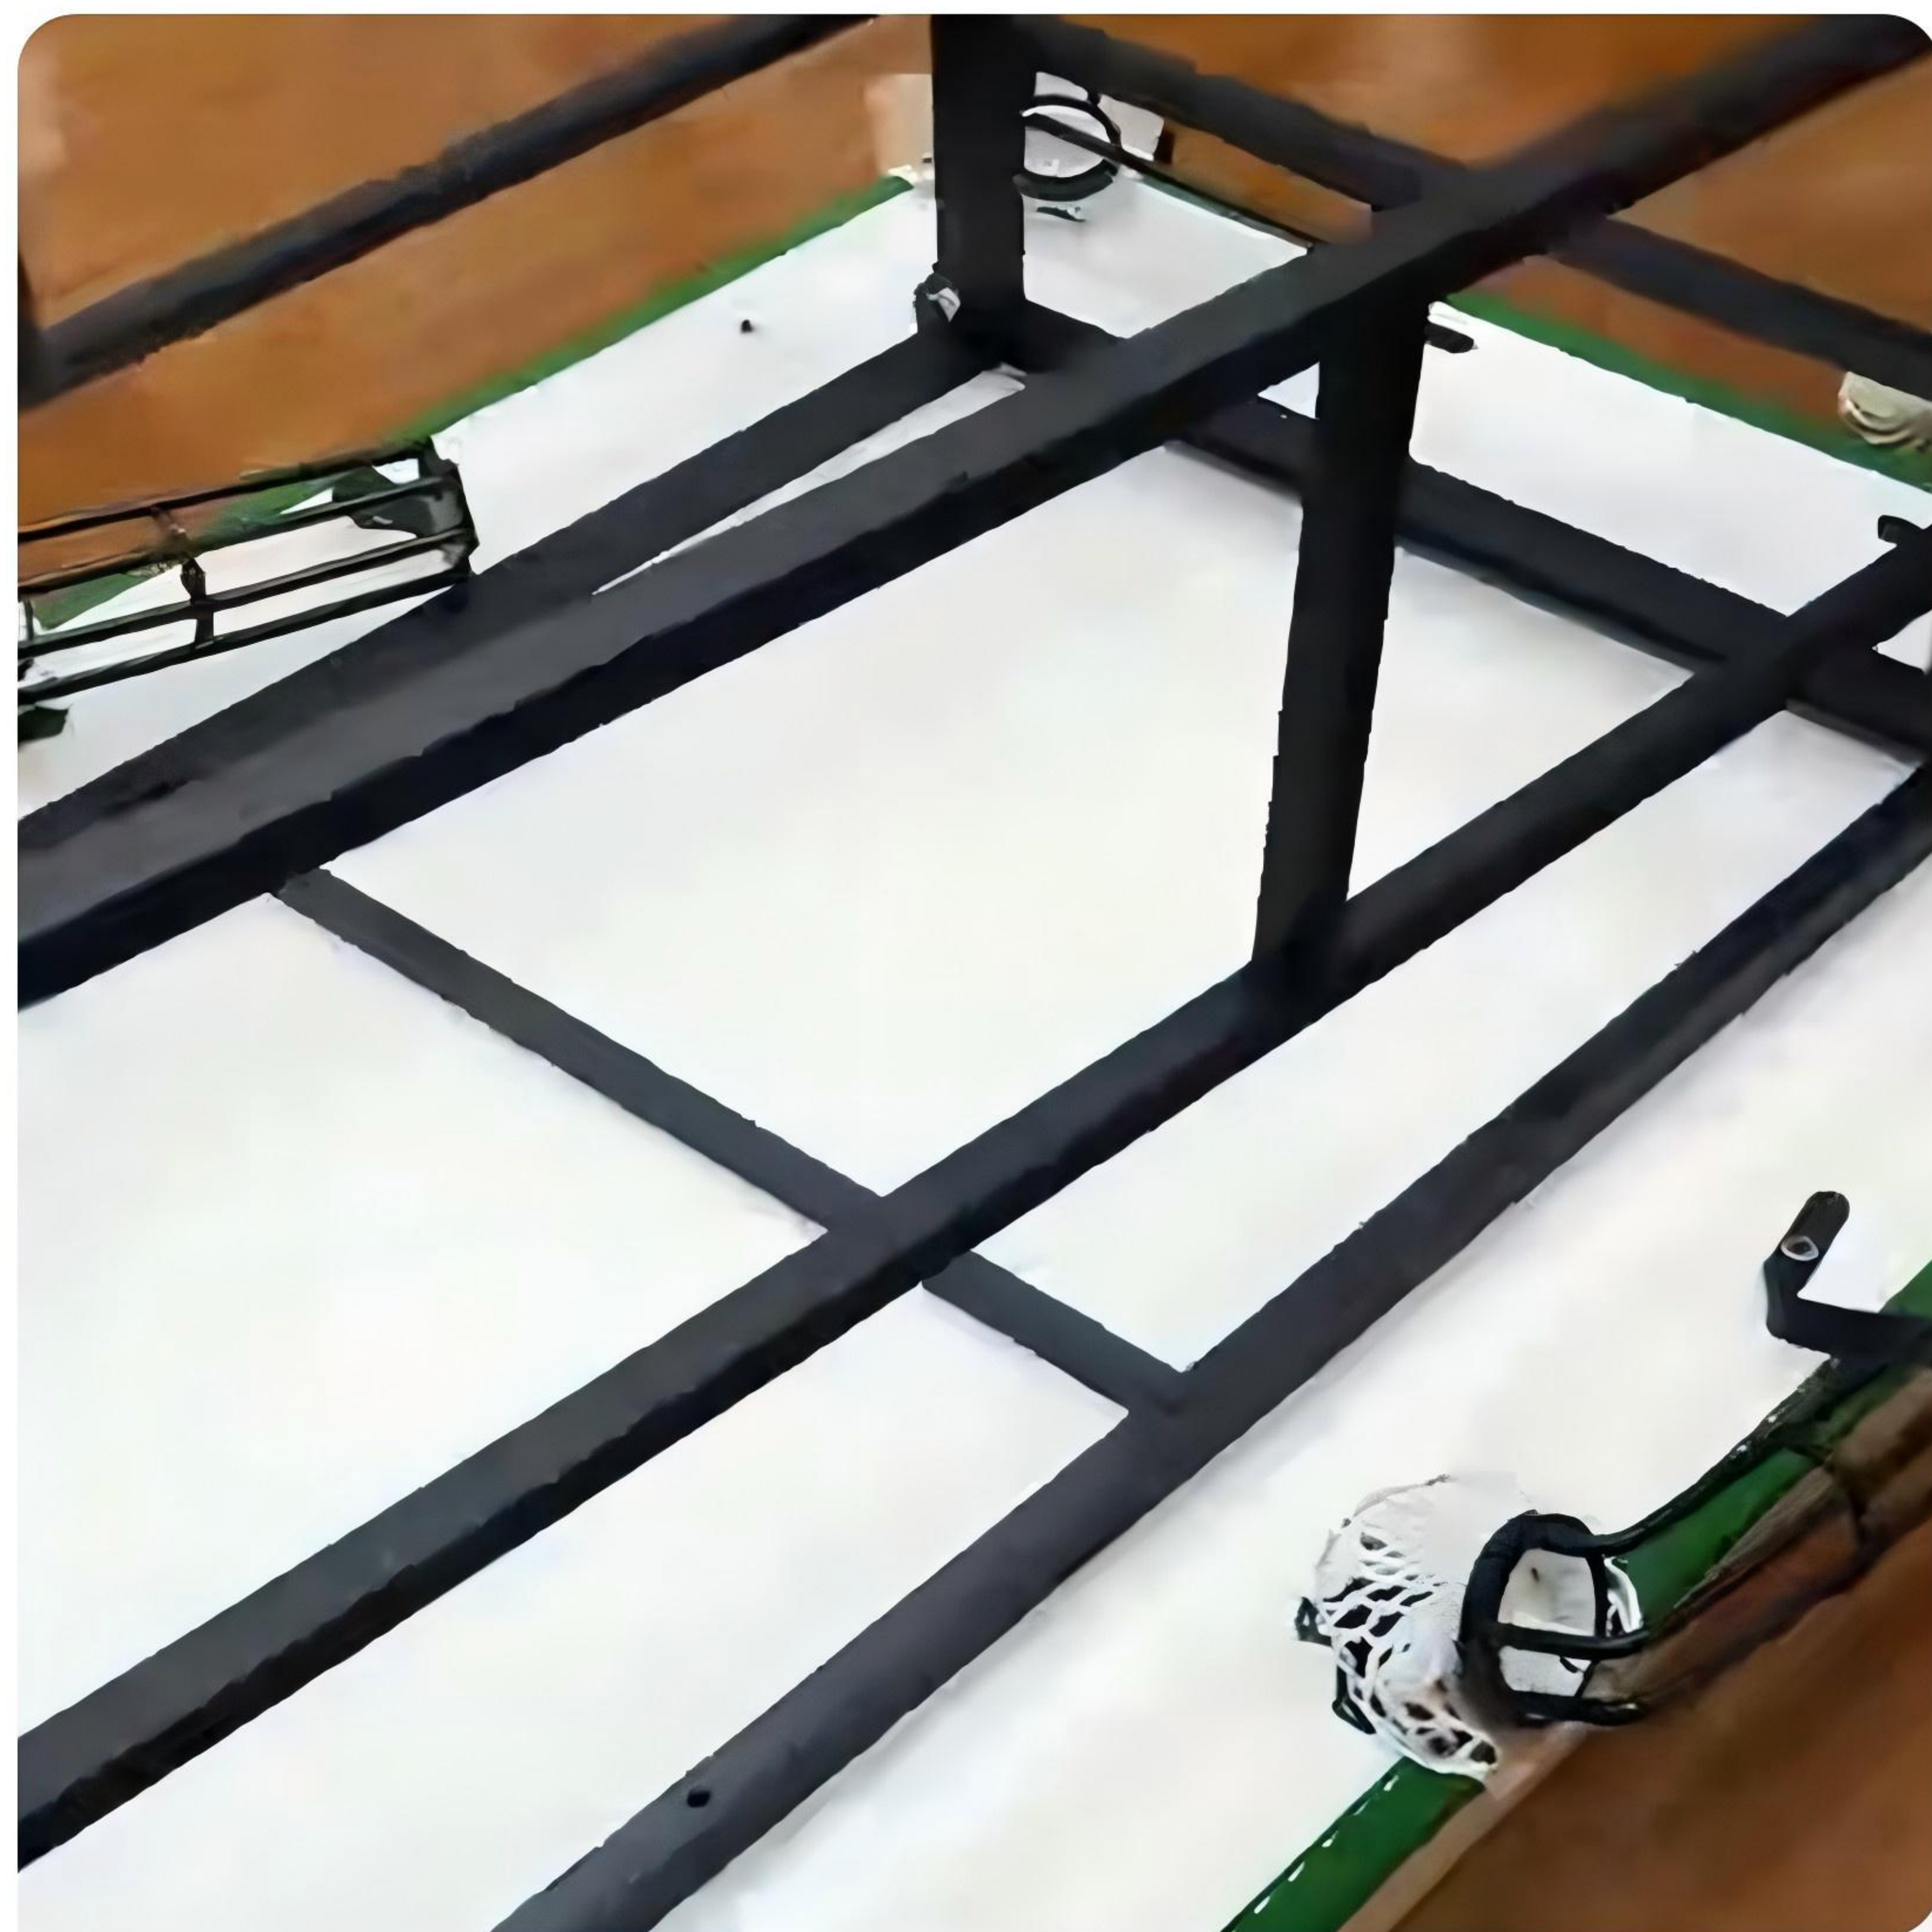

Secure the other side in the same manner.

Step 3: Lift the two triangular brackets into position, align them with the holes on the crossbar, and secure them.

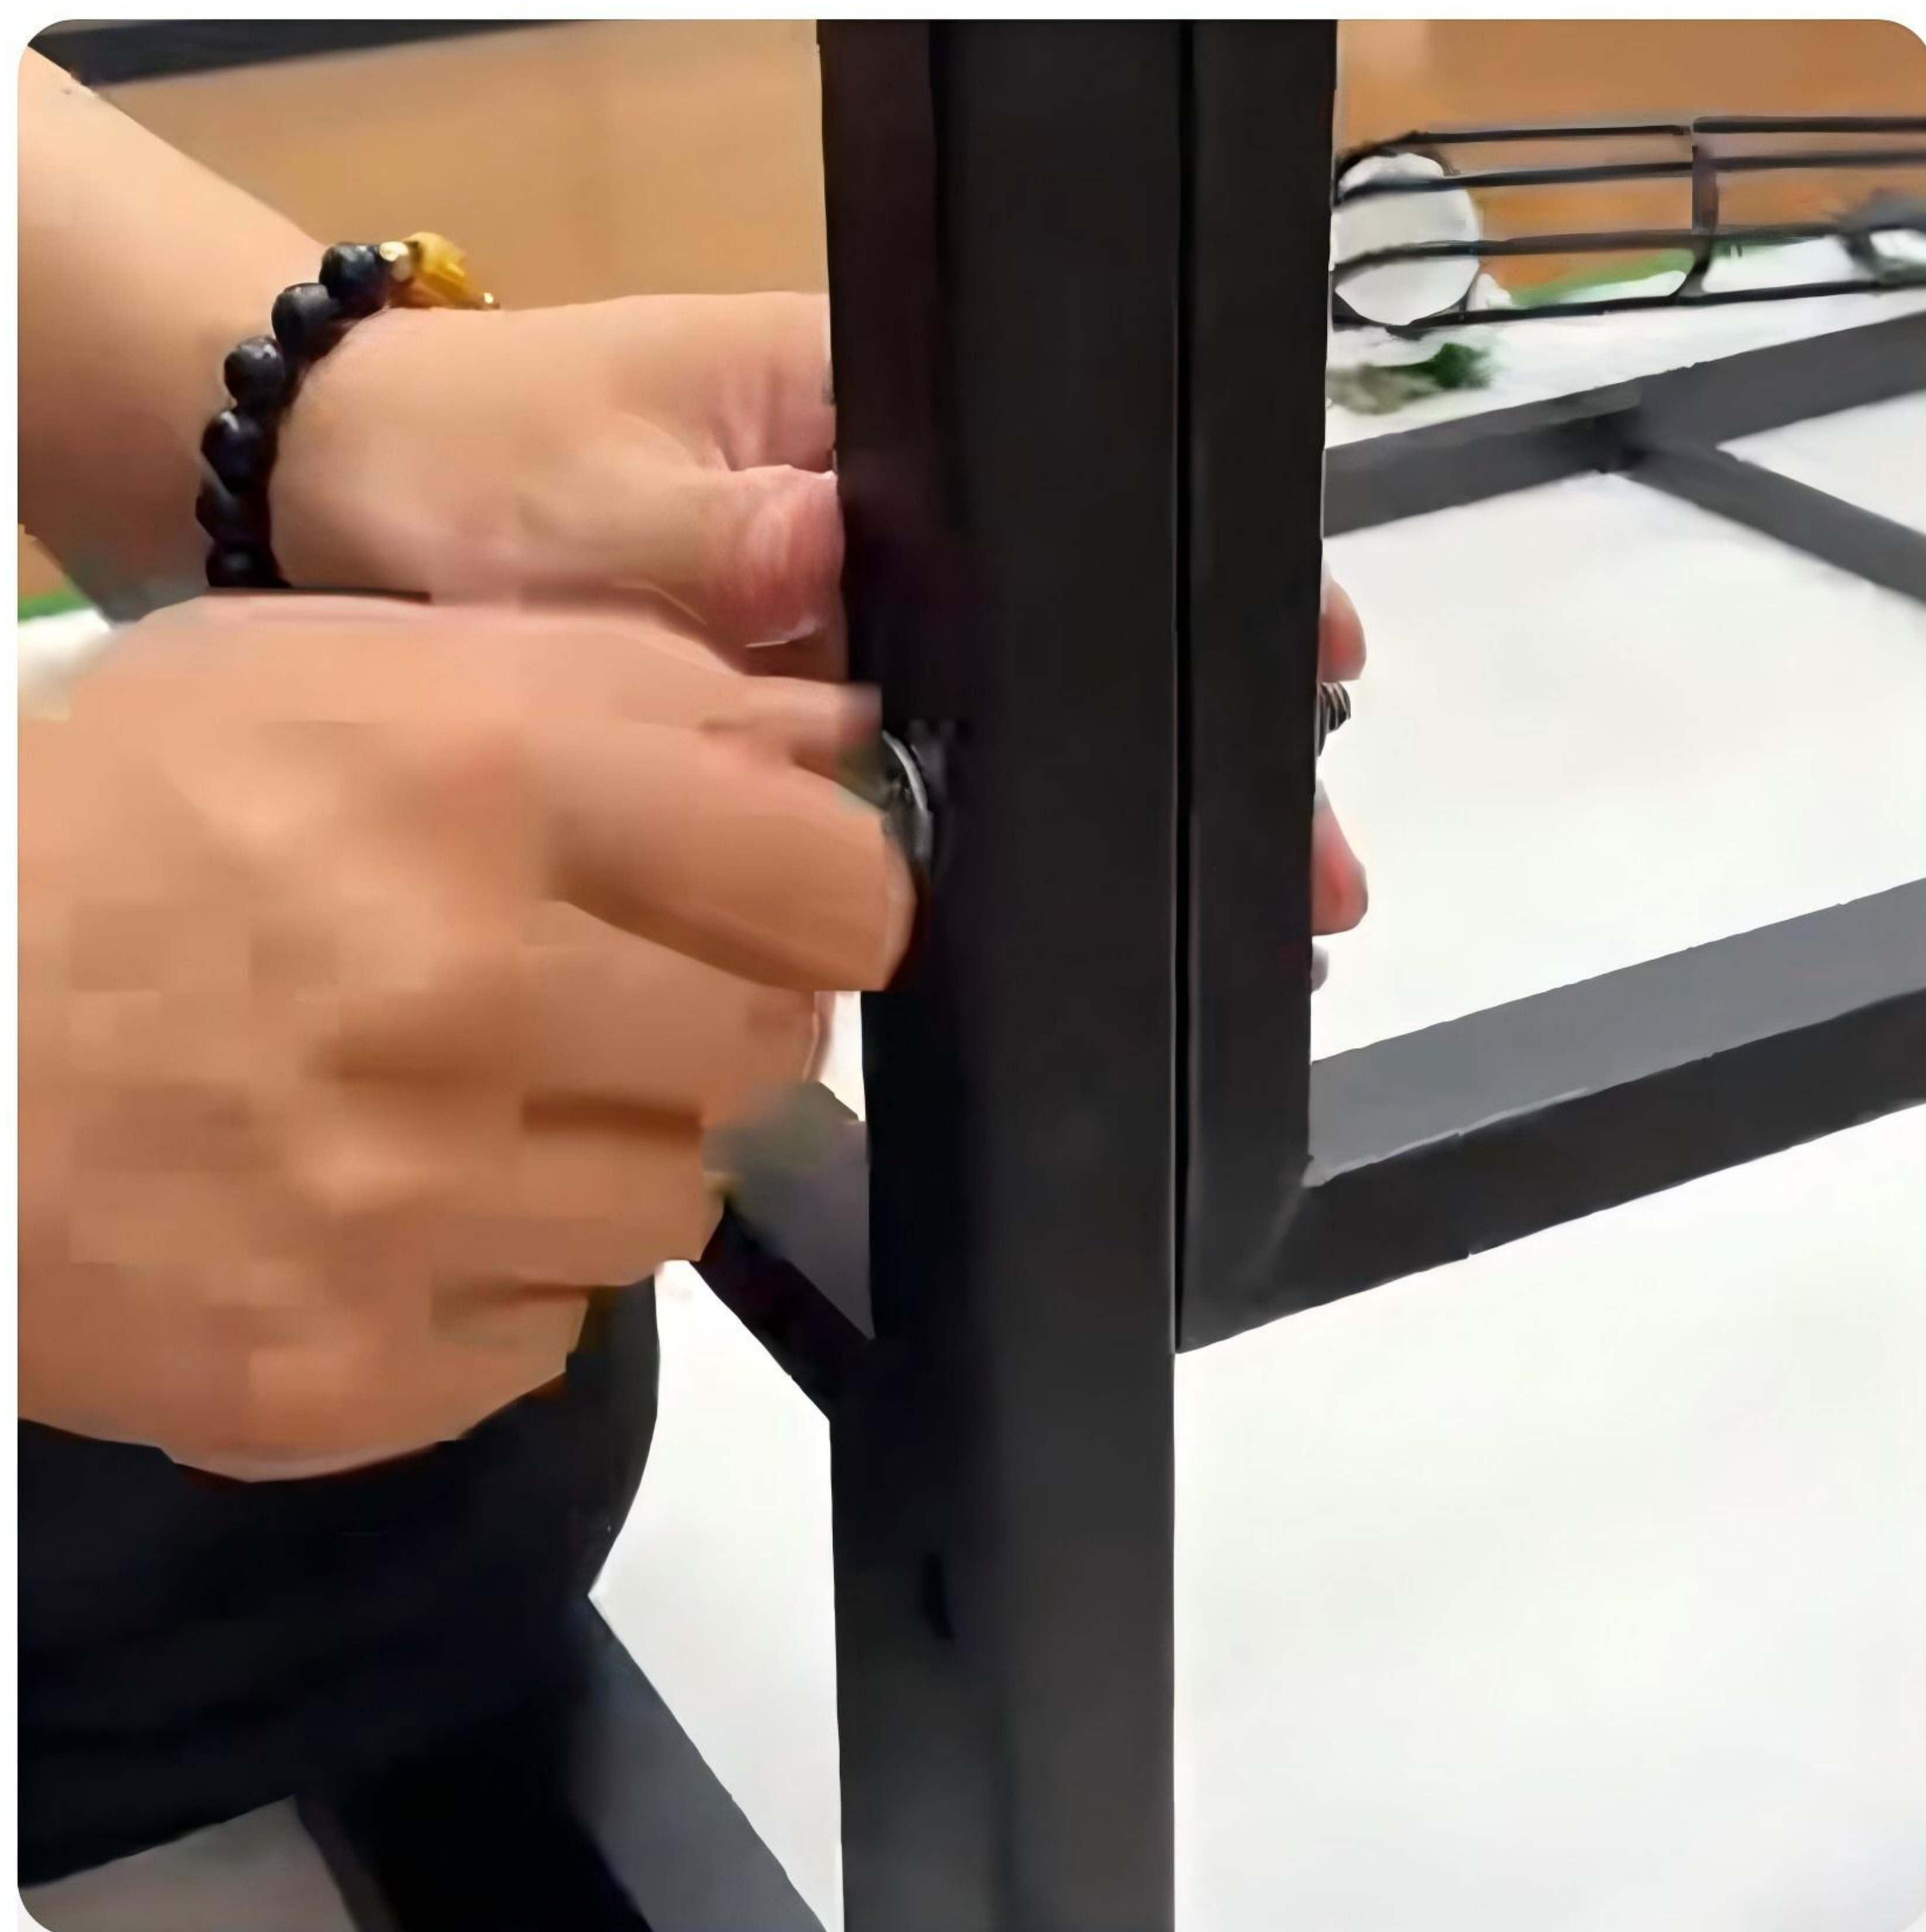

The correctly fastened unit should look like this.

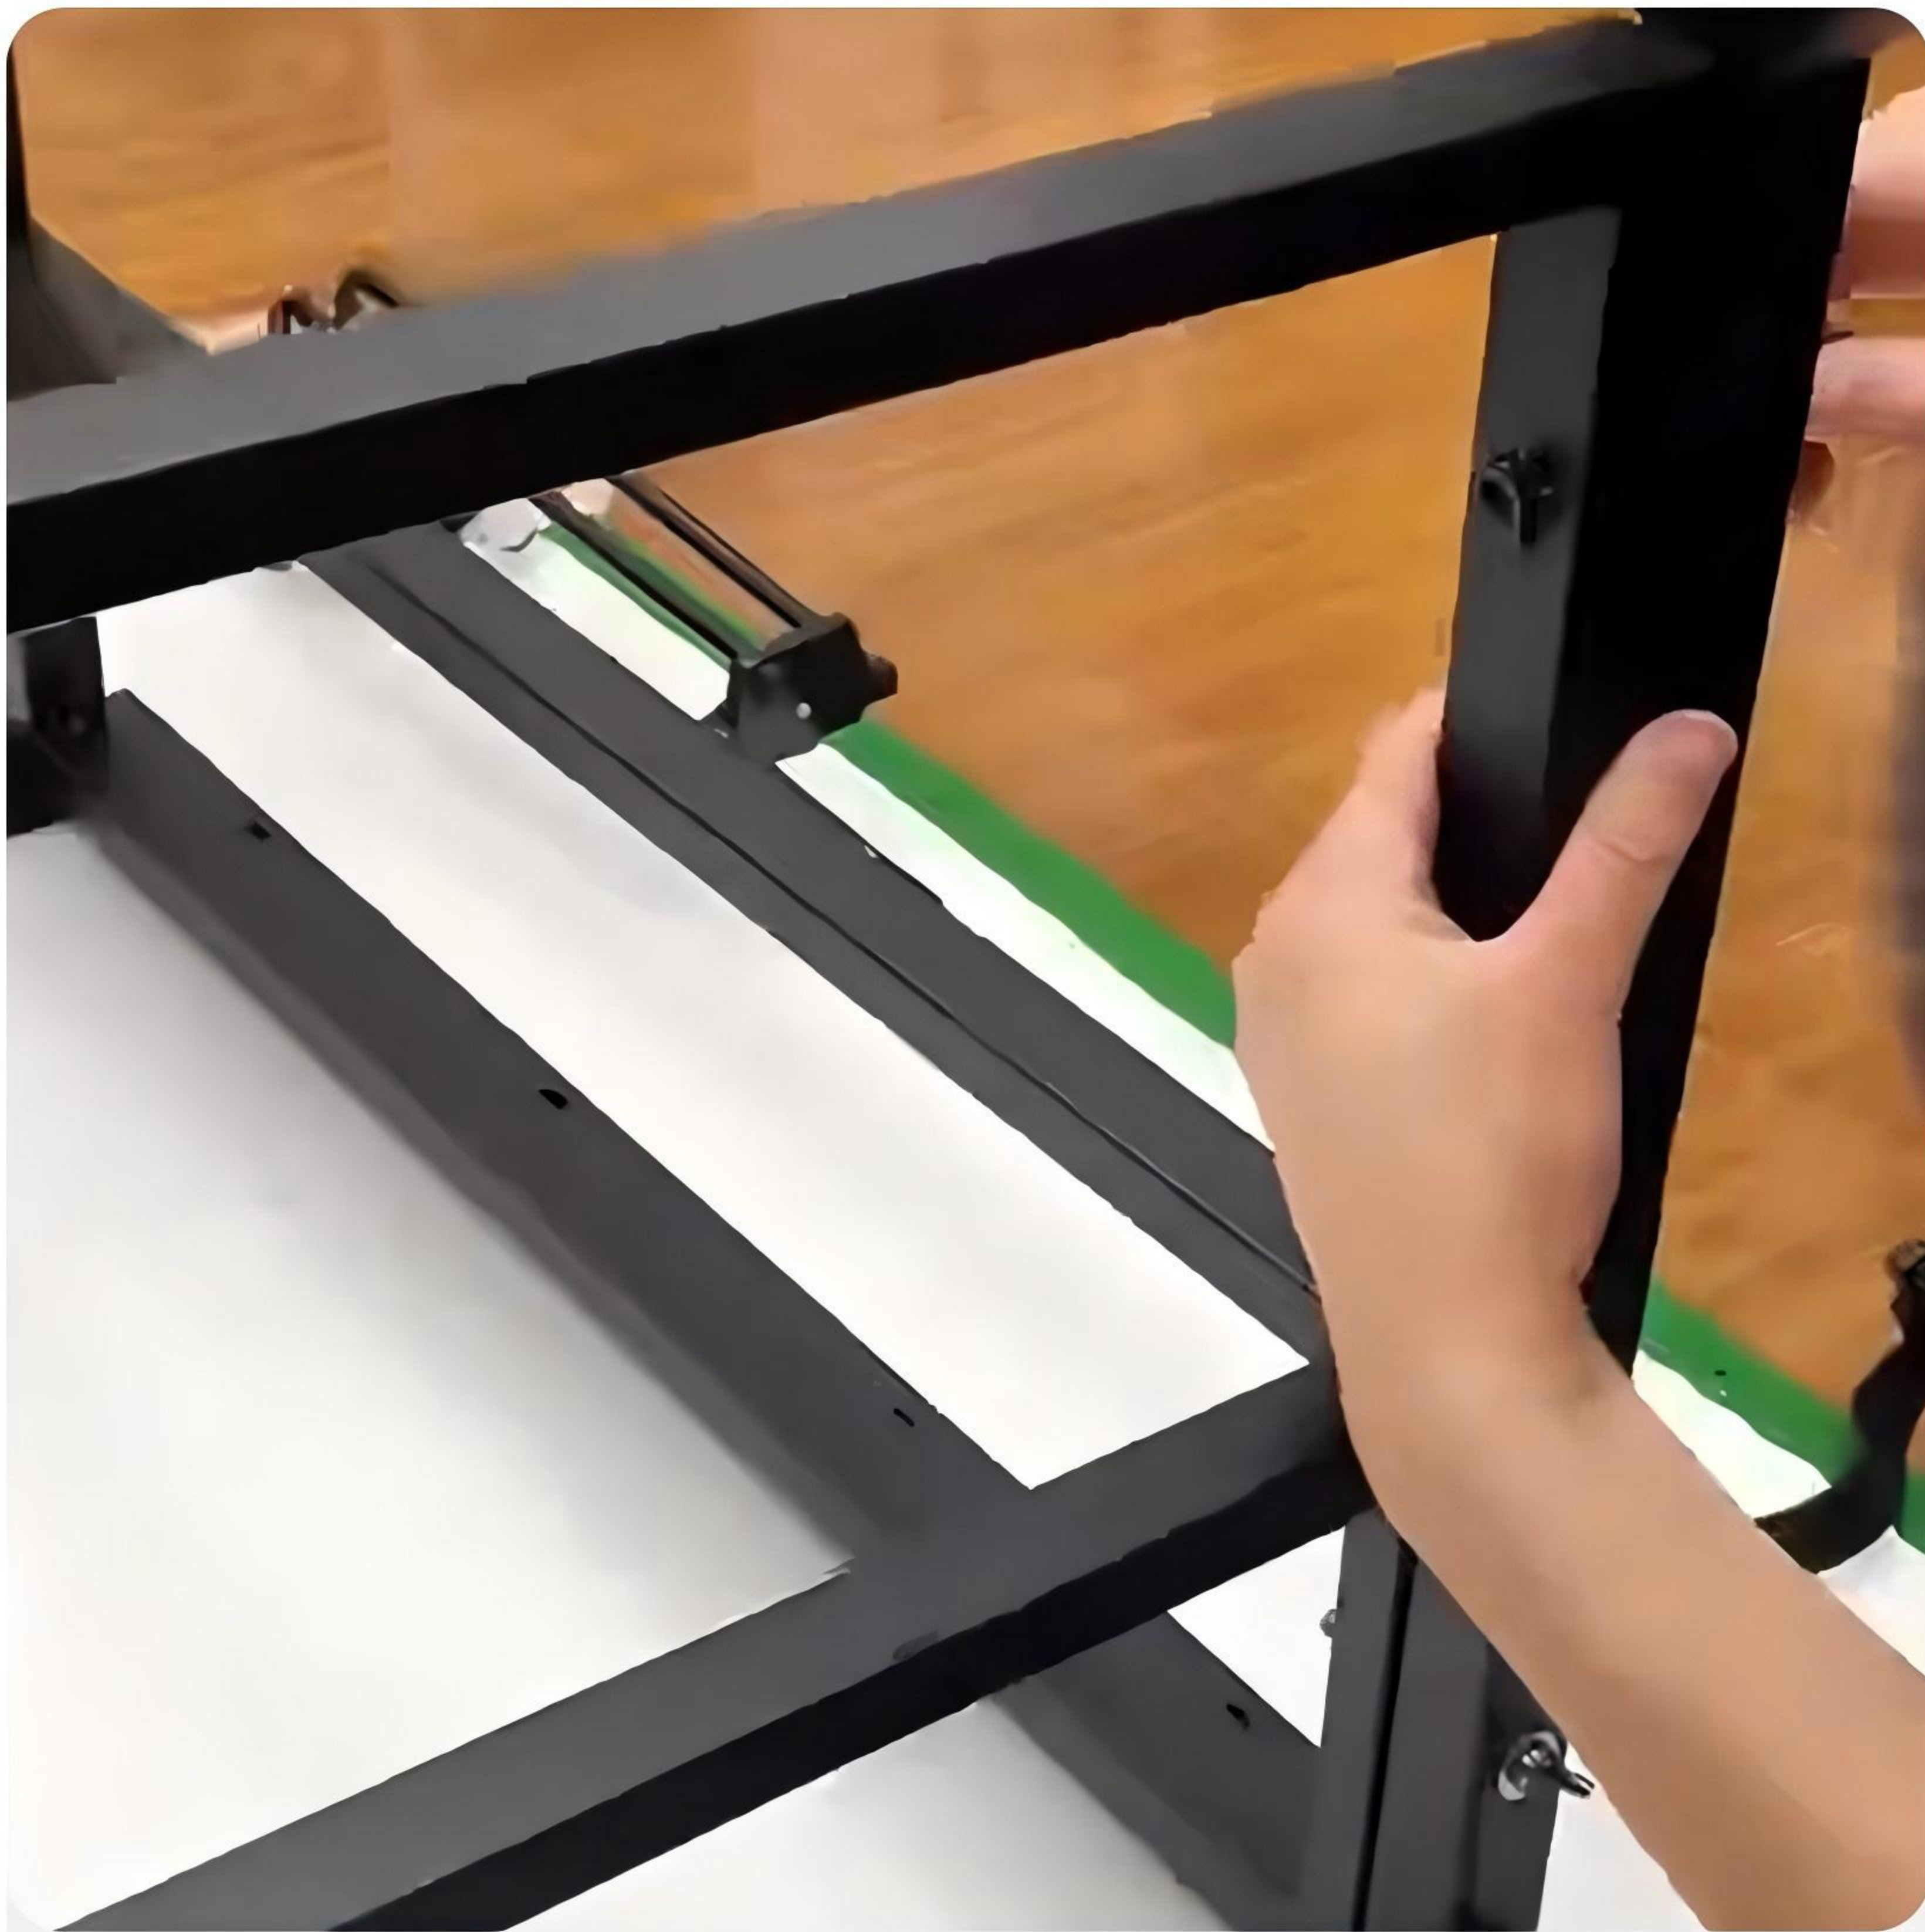

Step 4: Take the rectangular bracket and align it with the holes on the triangular bracket as shown in the diagram.

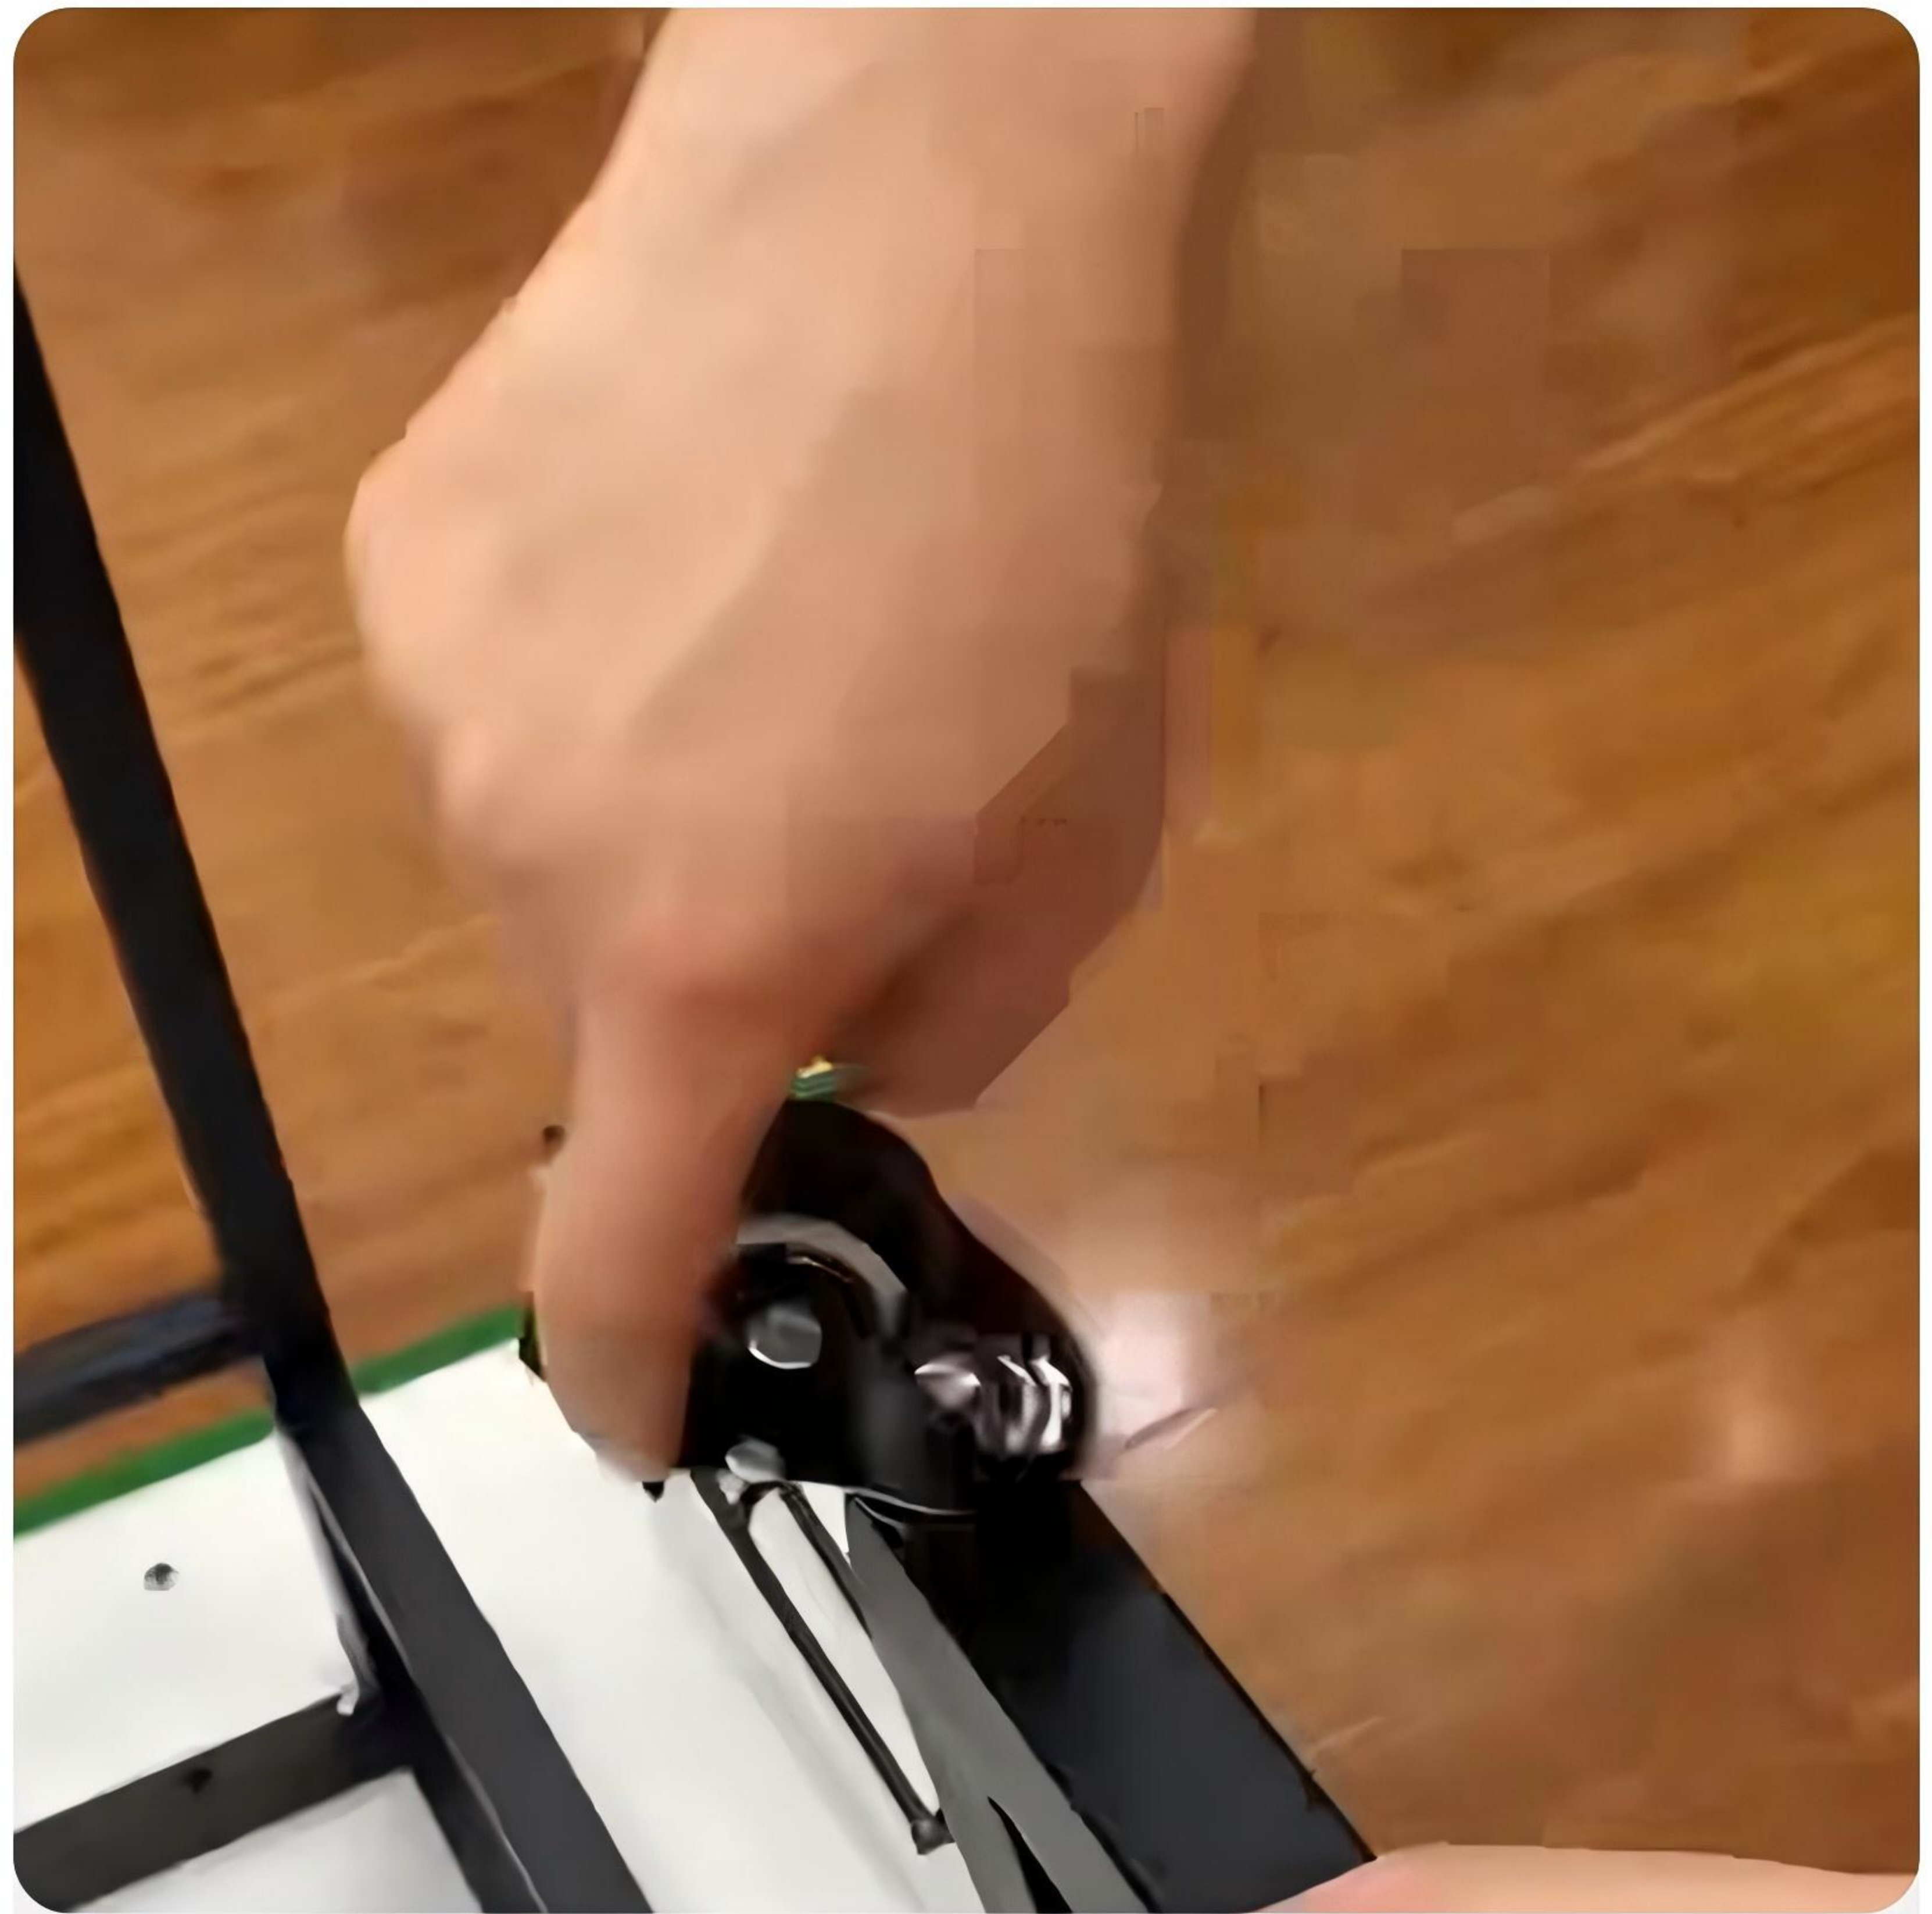

Insert the screw through the holes and tighten it to fix in place.

Fix in place using the lower set of holes as shown.

Secure the other side in the same manner.

Step 5: Install the wheels. Align and tighten all four into position.

The legs on the other side have adjustment knobs for leveling the table on uneven floors.

The assembly is now finished. Simply turn the table right-side up and you are ready to play.
