

THEODORE ALEXANDER

Earthborn 1

D1367S27332-2412

Earthborn presents a landscape in abstraction. An implied line of distant trees defines the separation of land and sky. Wide swaths of a field in hues of hunter and moss green dominate the large work on canvas. A cloudy sky in shades of cotton and parchment lifts the view upward toward new heights.

Evoking a calming sense of tranquility, Earthborn perfectly captures the serene state of a reflection in nature. An original addition to the exclusive ART by TA collection.
