

# Assembly instructions for the five-piece set of bathtub accessories

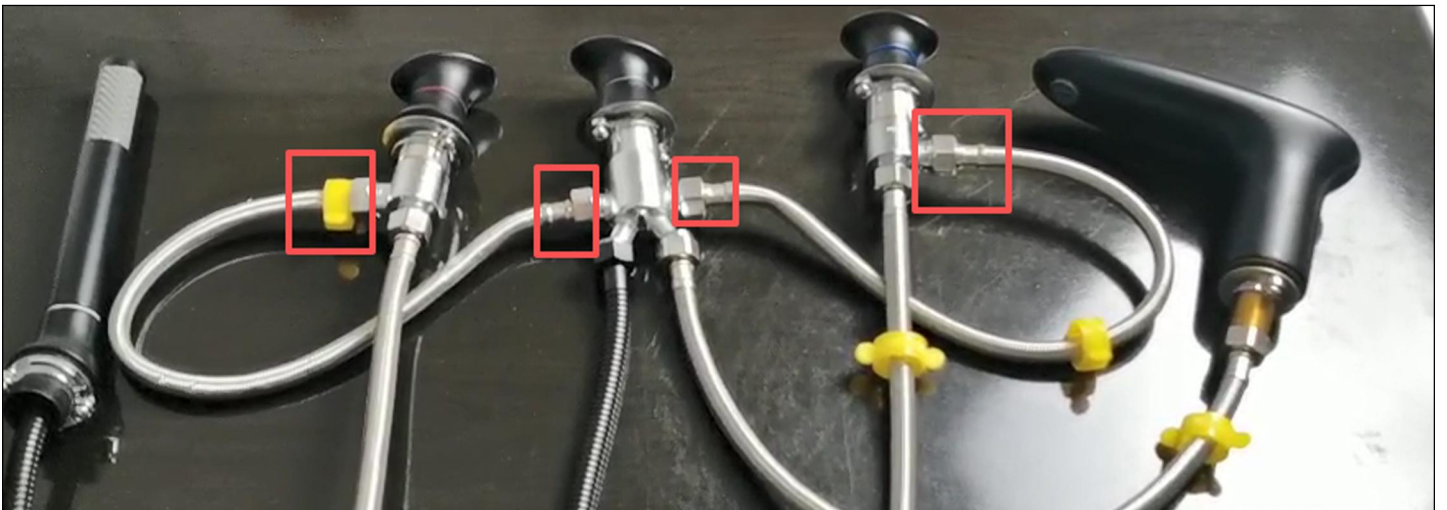

# The connection method of the five-piece set:

1. We have equipped 5 pipes, 2 of which are long and 3 of which are short.

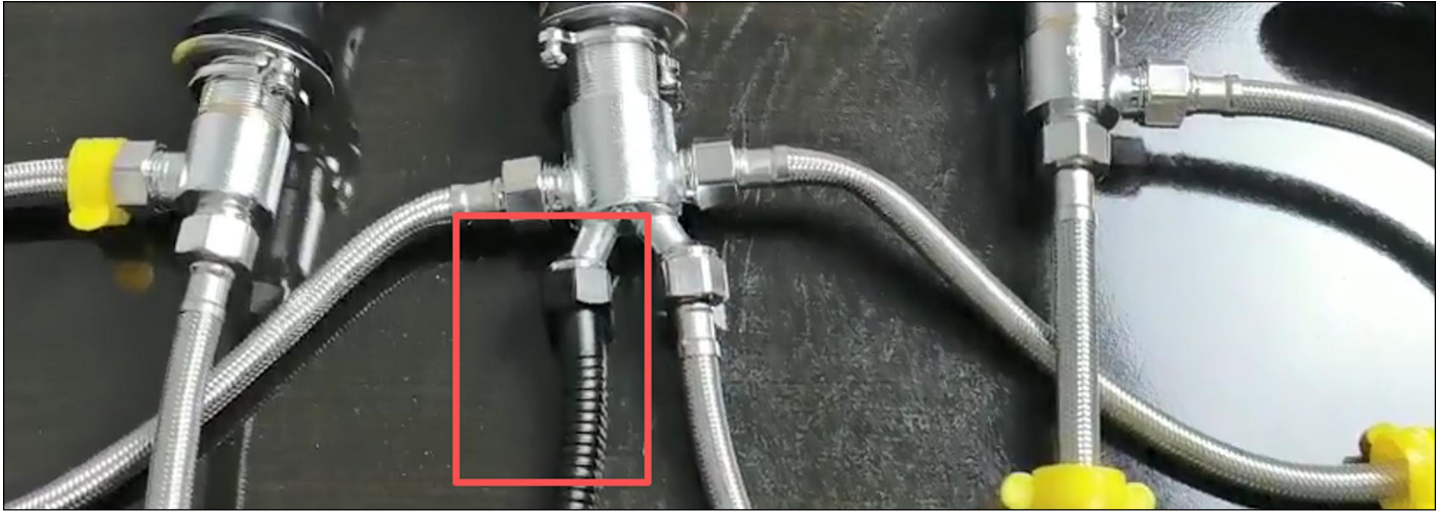

2. The long pipe connects the hot water outlet and the cold water outlet.

3. Connect the cold water valve and the hot water valve to the conversion valve.

The connection method of the five-piece set:

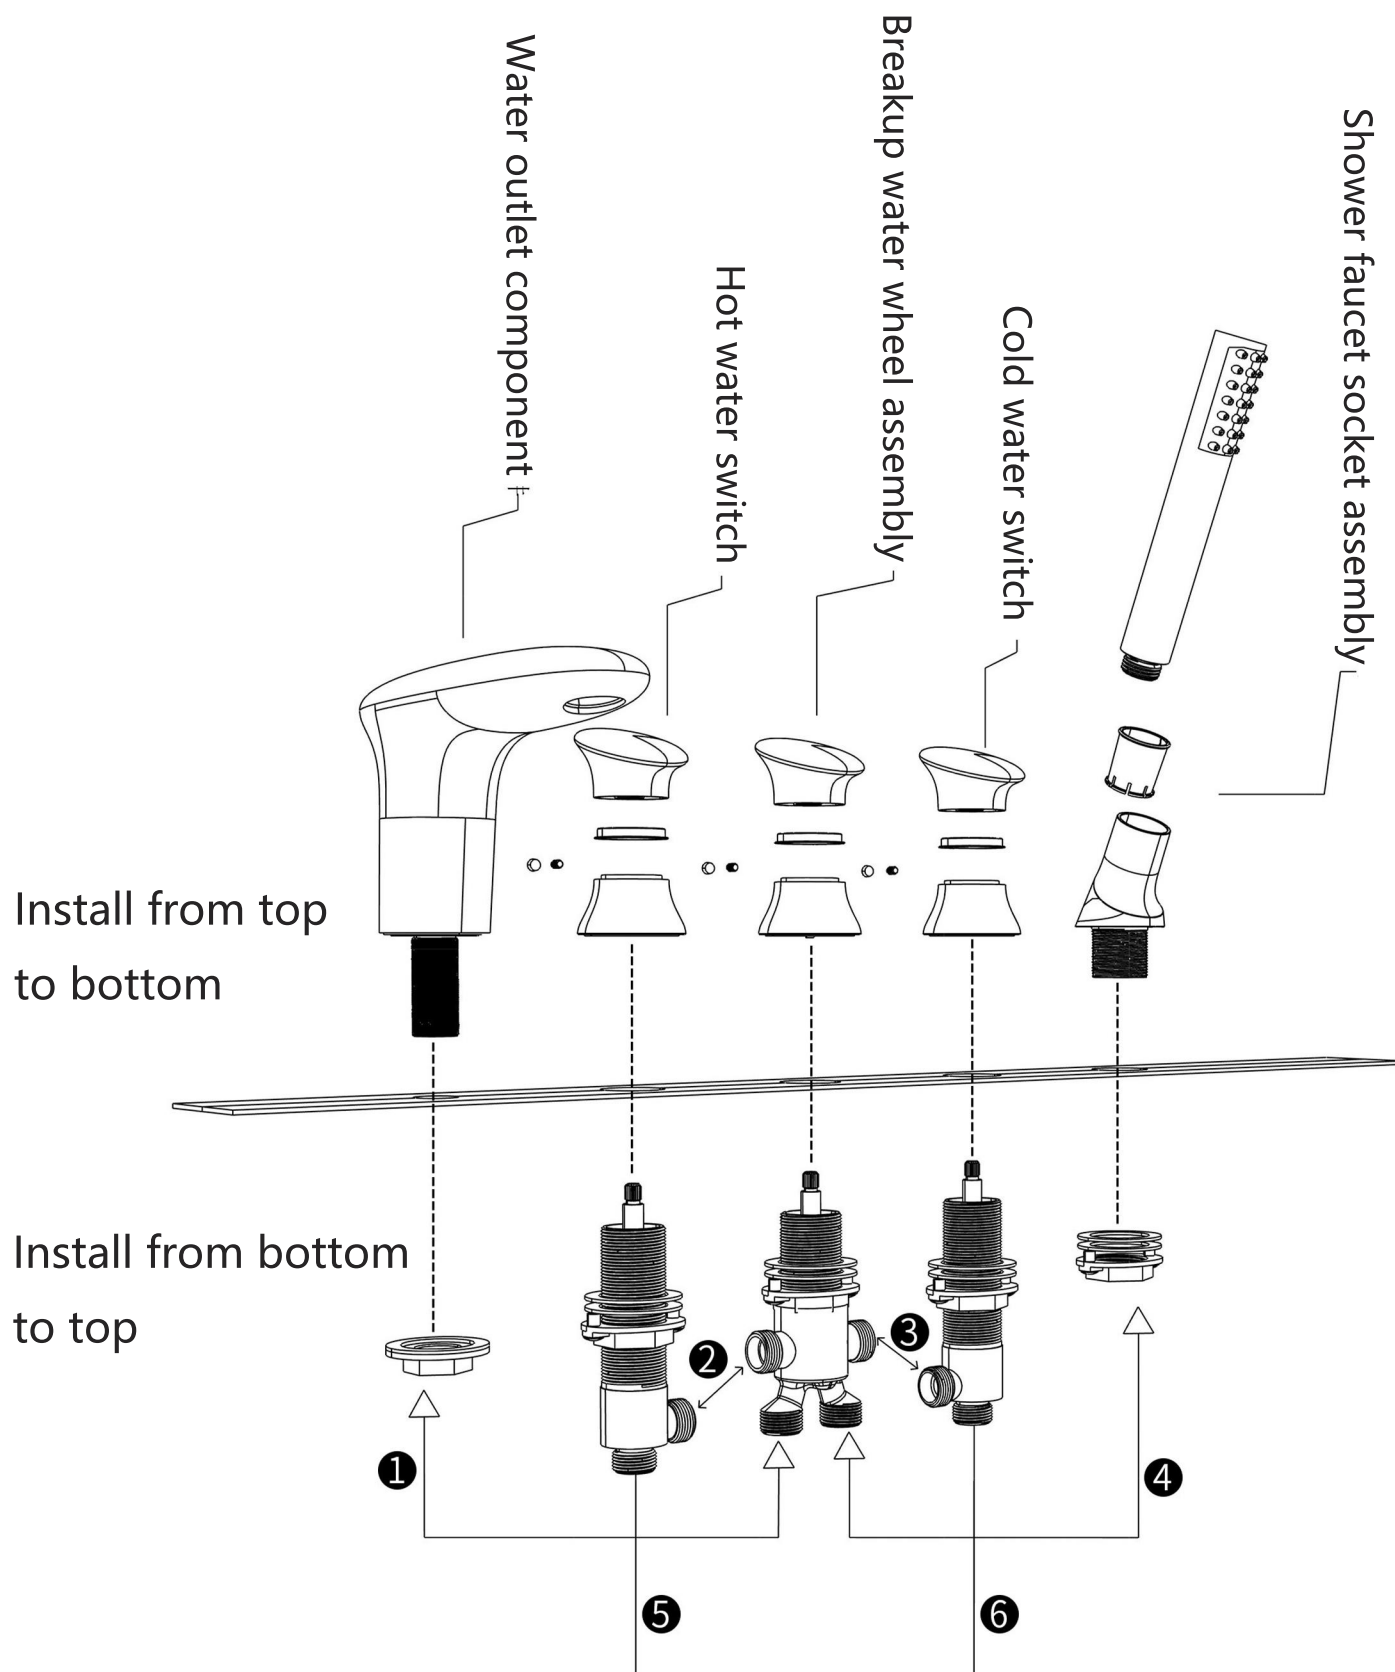

4. Connect the shower head to the conversion valve.

5. Connect the faucet to the conversion valve.

The final connection effect.

Account for:

- ①, ②, ③ are connected by a woven tube with a length of 19.69 inches.
- ④. Shower pipe connection.
- ⑤, ⑥. A 47.24-inch woven pipe connects the cold and hot water outlets.

# Installation manual for shower baseplate:

1. First, find the plastic kit.

2. Remove the plastic kit and place it aside.

3. Press the crack towards the center and it will be easy to remove.

4. Pass the pipe through the middle hole.

5. After putting it on, connect the shower head to it.

6. After connecting properly, then put the plastic kit back in place.

# Installation Tutorial for Valves:

1.Observe the position of the screw.If the top is level with the screw, then...

2.Rotate the screw cap downward.

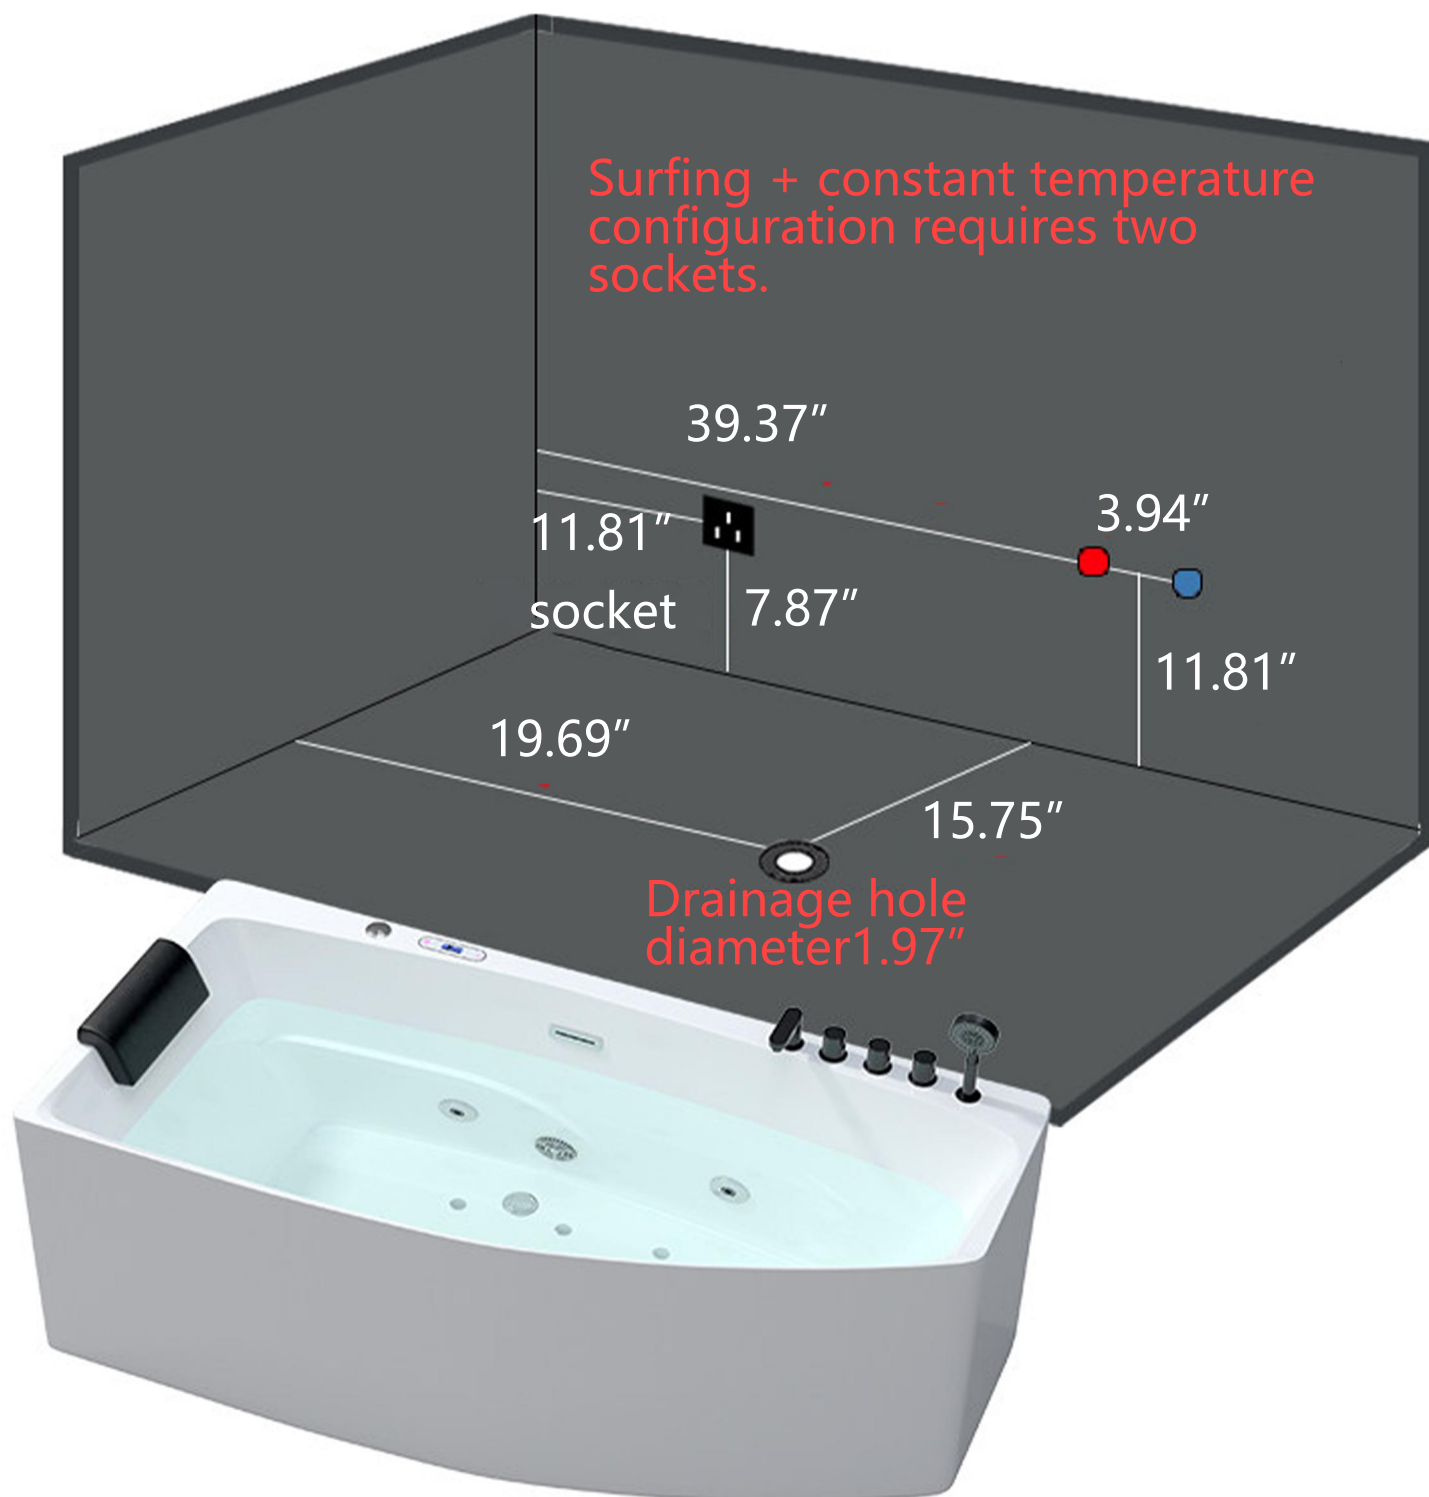

3.Then rotate the above screw cap downward again.Raise the screw above the top nut.

4.Finally, put the top on the above-mentioned container.
