To adjust in depth
Pour ajuster en profondeur

First, install one pair of part X onto 30. Then install part 30 onto part 16. When attaching doors, first secure the four screws in the oval holes of part X (these align with the four small holes on part 16). Close the door to check if its position is correct. If not, adjust the position according to the diagram. Once adjusted, tighten the four screws in the round holes of part X.
