

Sandkasten mit Dachlift "MICKEY"

Achtung! Unbedingt zuerst lesen! Zum späteren Nachlesen aufbewahren!
Attention! A lire avant l'utilisation! A conserver pour toute consultation ultérieure!
Important! Read before assembling! Retain for future reference!
Attentione! Leggere prima di assemblare! Conservare per riferimento futuro!

Safety Intended Use

The product has been designed exclusively for playing. It is intended for use in the domestic private sector and not for commercial use, for example for use in kindergartens or similar.

Use the product only as described in these mounting instructions. Any other use is considered to be improper and may result in property damage or even in personal injury.

Adult assembly, installation and operation required!

Manufacturer nor dealer won't accept any liability for damage caused by improper or incorrect use of this product.

Safety Instructions

CAUTION

Injury Risk!

Improper use of the product may result in injury.

- The product has to be assembled by an adult because of danger of sharp edges, sharp points and small parts in the unassembled state.
- Do not let children play with packaging film. Children can get entangled and suffocate while playing.
- Note that the product is suitable only for children from 2 to 12 years old.
- Max. 1 child may take place per bench. The max. payload is 100 kg.
- Check the children's clothing. Cords, strings and loose clothing may lead to strangulation under certain circumstances.
- Assembly and movement of the product may only be done by an adult.
- Only allow children play with the product when it is fully assembled.
- Check the product before the first use to be free of sharp edges and splinters.
- Supervise children while playing!
- The product may be set up and used both indoor and outdoor, only on level soft underground (e.g. lawn, rubber mats, etc.)
- When installing the product make sure to keep a safe distance of at least two meters to other units (e.g. swings, slides, fences, clotheslines or overhanging branches, etc.) The construction area is about 140x140 cm.
- Do not make any changes in the installation. Any further extensions are prohibited!
- Climbing and gymnastics on the product is prohibited

Maintenance Notes

NOTE!

Damage Risk!

Improper use of the product may cause damage.

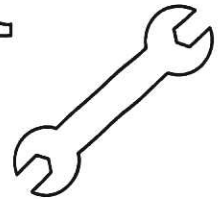

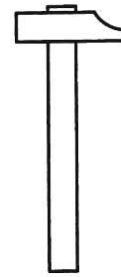

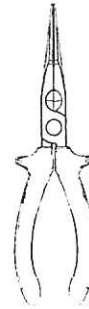

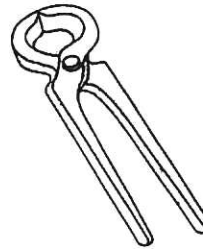

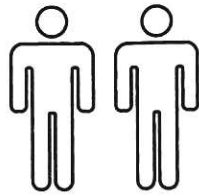

- Maintenance work should be done at the start of the season and regularly during the season, best fortnightly. The sandbox can be dangerous in case of lack of maintenance!
- Check periodically all screws and tighten them when necessary.
- Replace defective parts immediately by original spare parts concerning parts-list of these assembly instructions.
- This product is mainly made of natural wood, therefore it may happen that cracks can form due to extreme weather conditions, especially after long hot periods. These cracks are not a sign of lack of quality, but a natural appearance. These cracks do not have any impact on the sturdiness or resilience of the material. In order to prevent possible risk of injury, you can fill in these cracks with silicone or a similar material or polish the wood.
- The wood should be treated with a wood preserving paint from your colour specialty shop at least once a year.
- We recommend to change the play sand every five years.
- Make a daily manual cleaning (leaves, feces, waster, etc.) because a contamination of the play-sand can not completely be avoided in spite of a tarpaulin.
- Clean the tarpaulin with a damp cloth only.
