

STICKLEY®

Martine End Table

In Martine's all-cherry, mid-century-inspired occasional group, beading creates a frame around slightly inset drawer faces, and a radiused shape continues down the flared saber legs. The End Table features one side-hung, center-guided drawer with a small pendant pull, plus a low shelf. Use it in the bedroom as an attractive nightstand. An option is also available with the drawer front painted in Heavy Cream.
