- **Fabric Weight:** Consider if you have heavy or light curtains
- **Curtain Width:** Measure how much fabric you'll be gathering
- **Style Preference:** Choose the color that best complements your modern decor

Measurement Points

- B. Gathered curtain thickness at tieback point
- C. Distance from window frame to desired tieback position
- D. Available space for cord wrap-around

How to Measure Properly

Step 1: Gather Your Curtain

Pull your curtain to one side as you would want it to look when tied back. The magnetic system works with medium to thick gatherings.

Step 2: Check the Circumference

Wrap a measuring tape around the gathered curtain. The 13" length can accommodate curtains up to approximately 4" in circumference.

Wrap-Around Advantage: The flexible cord design provides a clean, modern look while ensuring secure hold for your curtains.
