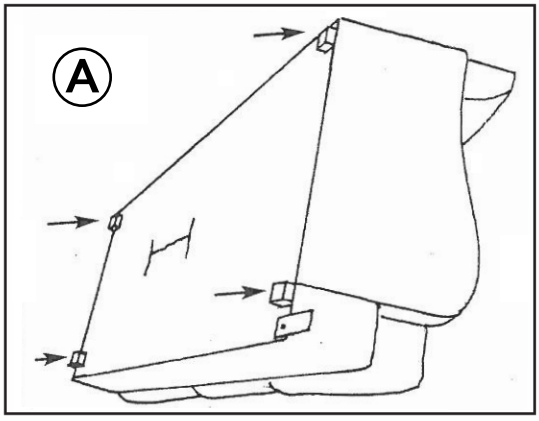
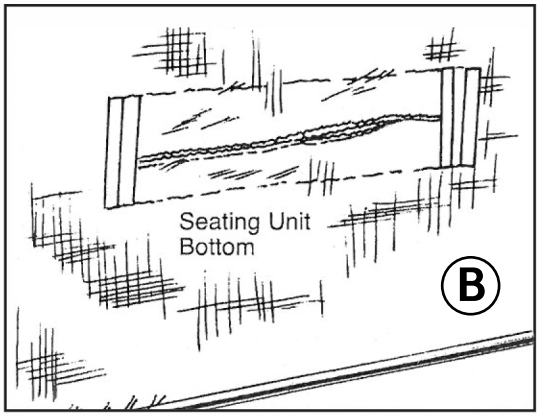
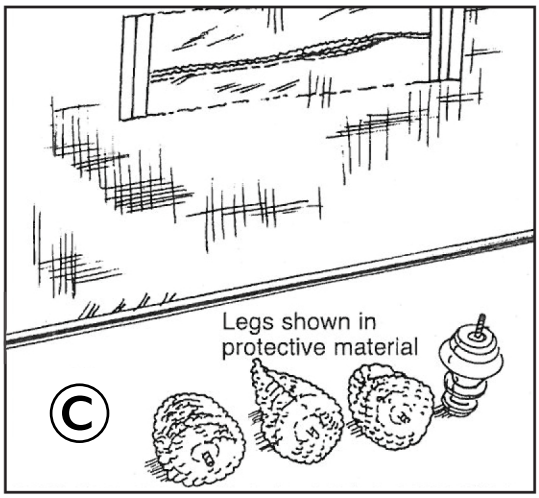
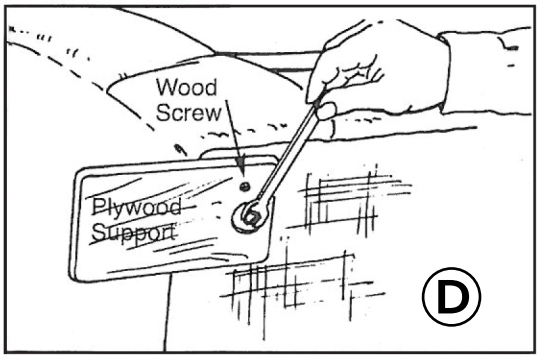
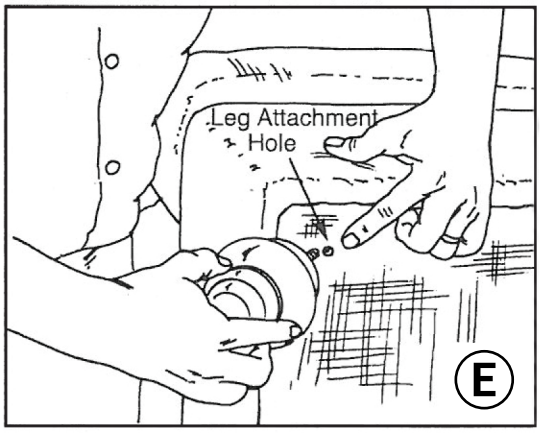
LEG STORAGE AND ATTACHMENT INSTRUCTIONS











1. Remove cardboard and plastic shipping material from seating unit.
2. Tilt unit forward from rear until it rests on the ottoman/footrest. *(see diagram A)*
3. Remove 4 wooden blocks from unit. *(see diagram A)*
4. Find zippered storage pouch in bottom of seating unit. *(see diagram B)*
5. Seating unit legs are shipped inside zippered pouch. Remove legs from pouch and unwrap protective material. *(see diagram C)* *NOTE - Leg style may vary.*
6. If unit has plywood support, use 1 /2 inch wrench and remove bolt. After removing bolt, use a phillips head screwdriver to remove the wood screw. *(see diagram D)*
7. Locate threaded leg attachment hole in bottom corners and center of unit depending on 4, 5 or 6 leg package. Line up bolt in bottom of leg with threaded hole and screw into place until tight. *(see diagrams E and F)*
8. When all legs are secure in place, tip seating unit to upright position and enjoy.
