

Instruction Manual

Pre-Unboxing Check

Check if the outer packaging is intact.

► If significant damage/dampness exists, photograph it and contact customer service immediately.

Verify the model number and parts.

► Cross-check all parts (screws, rails, table leaves) against the manual.

Cleaning and Maintenance

1. Wipe the slide regularly with a dry cloth to avoid dust accumulation (can be coated with a small amount of lubricating silicone grease every six months).

2. Avoid humidity on the wooden desktop, and ban corrosive cleaners on the glass desktop.

Troubleshooting

- **Slide jamming:** check whether there is a foreign body blocking, do not force pulling.

- **Table plate can not be aligned:** confirm whether the spare plate is inserted in the correct direction.

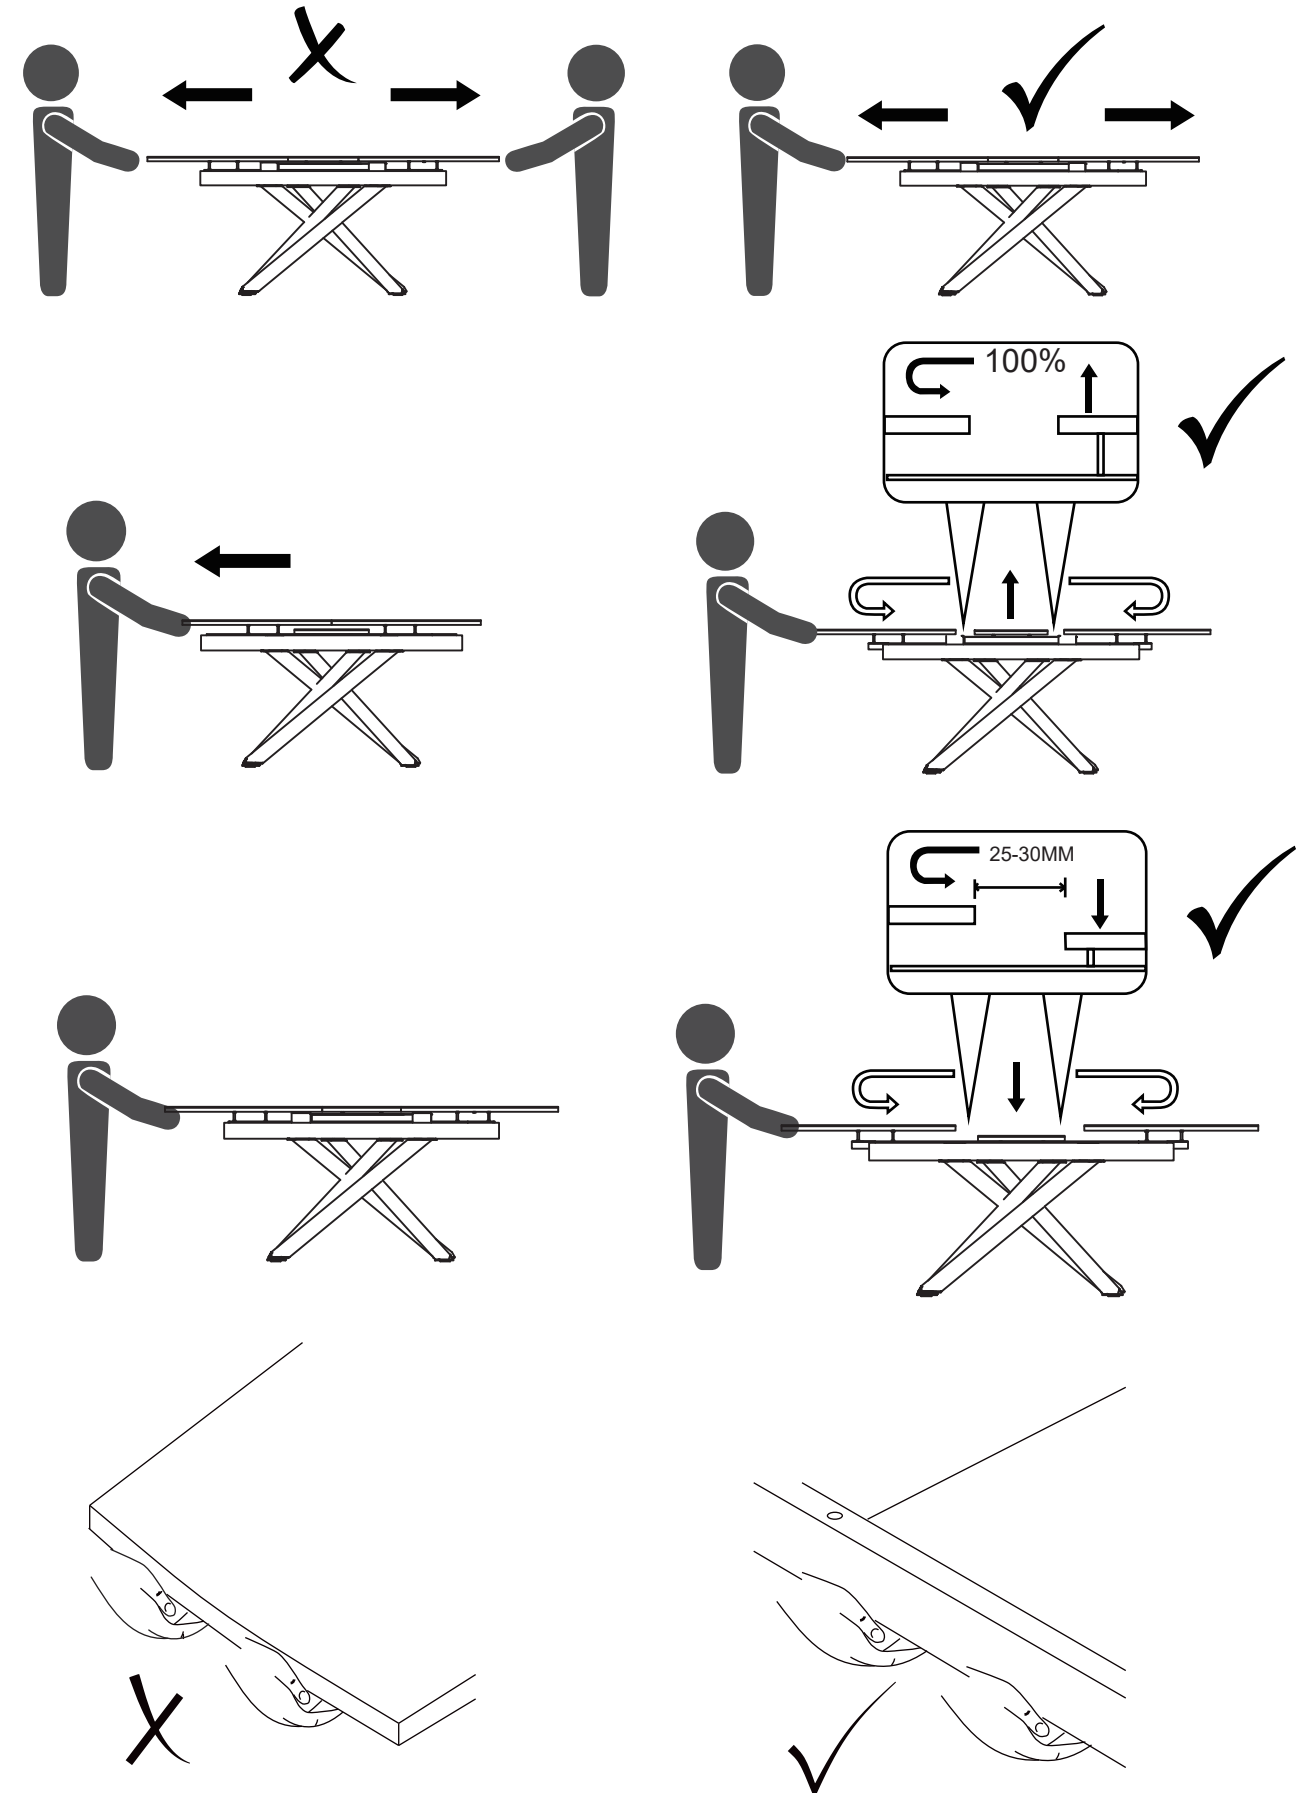

- **Long-term non-use:**

is recommended to be minimized to reduce the pressure on the slides.

⚠ WARNING

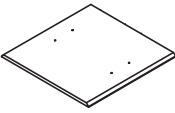

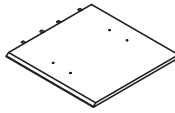

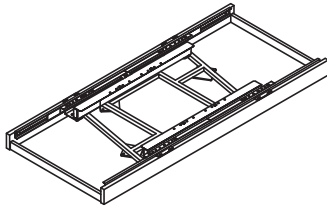

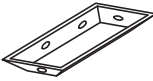

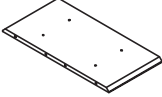

1. Keep hands clear of rails during adjustment.
2. Ensure table legs are stable before extending.
3. Do not place heavy objects on the table while adjusting.
4. Keep children away during operation.

Important Notes

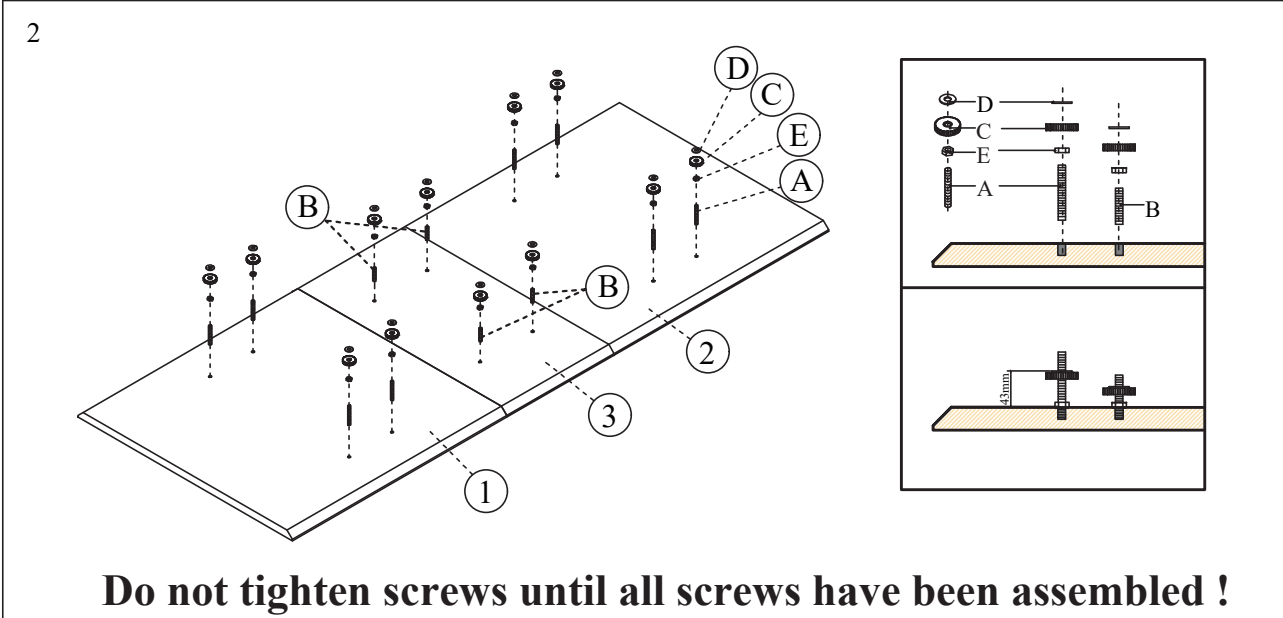

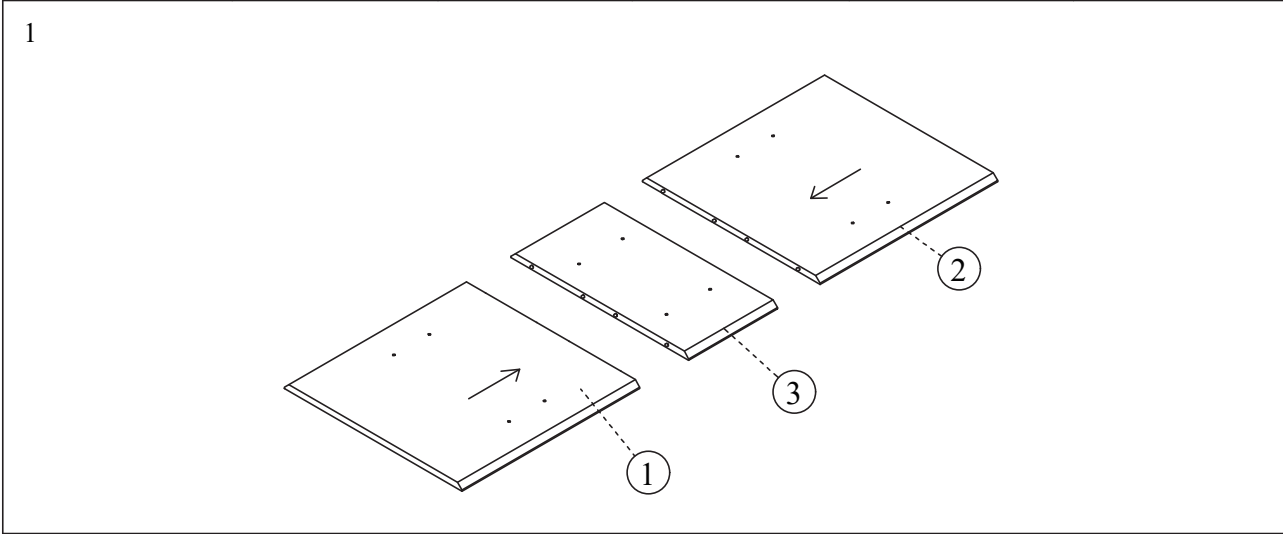

PLS HOLD THE METAL PART WHEN MOVE THE TABLE, DO NOT TAKE THE TOP
