TRANSFORM YOUR
BEDROOM[™] TODAY

WHAT'S THE DIFFERENCE?

The difference between soft and firm is how much you settle into the bed. Soft feels like you're "in the bed," while firm has an "on the bed" feeling. Use our scale to find the mattress that best matches your feel preferences.

COCOON SOFT

Perfect for those who like to be hugged by their bed. Choose soft if you fall in the soft to medium range and prefer a plusher feel.

COCOON MEDIUM

Perfect for those who want something in between. Choose medium if you prefer a slightly-firmer-than-soft, slightly-softer-than-firm feel.

COCOON FIRM

Great for those who want a sturdy feel on their bed. Choose firm if you fall in the medium to firm range, and prefer a firmer feel.

MY HAPPY PLACE

We believe your bedroom should be a place that inspires happiness—a space that is all about you and brings true comfort, relaxation and inspiration into each and every day.
